May 21, 2025

Subcommittee Chair Lisa Murkowski
Subcommittee on the Interior, Environment
and Related Agencies
U.S. Senate Committee on Appropriations
Dirksen Senate Office Building
Washington, D.C. 20510

Subcommittee Ranking Member Jeff Merkley
Subcommittee on the Interior, Environment
and Related Agencies
U.S. Senate Committee on Appropriations
Dirksen Senate Office Building
Washington, D.C. 20510

Dear Chair Murkowski and Ranking Member Merkley,

I certify that neither I nor my immediate family has a pecuniary interest in any of the congressionally directed spending items that I have requested in the Fiscal Year 2026 Interior, Environment and Related Agencies Appropriations Bill consistent with the requirements of paragraph 9 of Rule XLIV of the Standing Rules of the Senate. None of the entities for which I have requested congressionally directed spending are for-profit entities.

Sincerely,

Charles E. Schumer
United States Senator

Congressionally Directed Spending Requests**

Recipient Name	Project Purpose	Project Location	Amount Requested (\$000)
Allegany County	The project will extend an existing water line and install a water tan, which will provide potable water to the Arsenic contaminated communities and will prepare water infrastructure to support the Gateway Center.	Allegany NY	\$3,083
Roberson Museum and Science Center	Roberson Museum is seeking funding for the repair of the century-old signature tile roof of the historic Roberson Mansion and Carriage House.	Broome NY	\$500
The Town of Throop	Construction of a low pressure sanitary systems in the towns of Genoa and Ledyard, removing aging septic systems along the East Shore of Cayuga Lake.	Cayuga NY	\$1,000
Town of Ellicott	The project will include construction of water main to extend public water service to the Fluvanna area of the Town of Ellicott providing the area with a safe and abundant water supply from the City of Jamestown BPU.	Chautauqua NY	\$2,000
Erie County Water Authority	This project will involve the replacement of lead service lines and galvanized service lines requiring replacement throughout the Erie County Water Authority's direct service area.	Erie NY	\$5,000
Town of Elma	The Town of Elma Town and Iroquois Central School District will consolidate two aged wastewater treatment plants (WWTP), ensuring safety for residents and school occupants while safeguarding water quality in Buffalo Creek and nearby areas.	Erie NY	\$7,440
The Fort Ticonderoga Association	Fort Ticonderoga is seeking funding to support the stabilization and restoration of the iconic and historic 18th-century Barracks.	Essex NY	\$500
City of Watertown	This project would address water quality issues caused by disinfection-by-products, by utilizing granular activated carbon filtration, conventional flocculation/sedimentation, and ozonation.	Jefferson NY	\$5,000
Village of Port Leyden	The project includes replacement of deteriorated water mains, fire hydrants, water meters, and master meters, as well as upgrades to the water treatment building and storage tank.	Lewis County NY	\$2,750
Village of Geneseo	The Village of Geneseo is proposing a comprehensive reconstruction of Second Street and Oak Street to replace 1,850 linear feet of undersized, deteriorated water lines and 5,640 linear feet of aging sanitary and storm sewer lines in a residential downtown neighborhood.	Livingston NY	\$3,000
George Eastman Museum	Grant funds will support visitor safety and preserve a National Historic Landmark by repointing and restoring 11 original Roman brick chimneys; repointing and restoring 13 adjacent Roman brick parapets; and replacing wooden roof railings.	Monroe NY	\$500
Monroe County Water Authority (MCWA)	This project will provide support for a system-wide upgrade of cybersecurity and resiliency efforts to protect drinking water assets across seven counties in New York State.	Monroe NY	\$2,000
Monroe County, New York	The Northwest Quadrant Water Resource Recovery Facility requires maintenance and upgrades to allow for more efficient removal of larger objects including foreign objects, branches, and other large obstructions at the beginning of the wastewater treatment process.	Monroe NY	\$4,800
City of Amsterdam	Replacement of carbon contactors to remove disinfection by-products at water filtration plant that serves 20,000 residents.	Montgomery NY	\$1,693
Town of Hempstead	To continue supplying water which meets the newly enacted New York State Standards for 1,4 Dioxane, it is necessary to install AOP Treatment with granular activated carbon filtration to remove this compound to non-detect levels in the Levittown water district.	Nassau NY	\$5,000

Port Washington Water Pollution Control District	Replacement of Main Wastewater Pumps, Valves, Piping and Controls and Grinder System.	Nassau NY	\$5,000
Village of Hempstead	The Village of Hempstead is upgrading its Water Treatment Plant to provide clean, safe drinking water for residents and businesses by replacing outdated systems, improving water quality, and ensuring long-term public health and sustainability of the community's water supply.	Nassau NY	\$5,000
City of Long Beach	The City of Long Beach aims to replace Sand Gravel Drinking Water Filtration Tanks that are nearing the end of their useful life and require replacement to ensure that public drinking water is safe, clean, and free from contamination.	Nassau NY	\$3,927
City of Long Beach	The City of Long Beach will install a new drinking water well and well house to replace a previously collapsed drinking water well, supporting a critical component of a city-wide project to improve the drinking water supply.	Nassau NY	\$2,400
Incorporated Village of Farmingdale	Replacement of existing ground level concrete water storage tank which has met the end of its useful life with a new state of the art glass-fused-to-steel water storage tank to allow for continued reliable water storage into the future.	Nassau NY	\$3,783
Jericho Water District	This project will fund improvements to the Well 23 Facility in order to upgrade critical utility and equipment infrastructure to address the issues posed by emerging contaminants in its drinking water.	Nassau NY	\$7,070
Manhattan Theatre Club, Inc.	Funds will be used to restore the roof of the historic Samuel J. Friedman Theatre (formerly the Biltmore Theater).	New York NY	\$450
County of Oneida	Purchase and installation of a holding tank at the City of Rome Wastewater Treatment Facility to assist with wastewater capacity.	Oneida NY	\$2,400
City of Syracuse	Replace lead service lines.	Onondaga NY	\$8,000
Onondaga County Department of Water Environment Protection	Funds will support the design of a reuse facility that will treat secondary effluent from the Oak Orchard Wastewater Treatment Plant to produce recycled water for industrial use.	Onondaga NY	\$2,081
Town of Phelps	The requested funds will be used to construct a low-pressure sanitary sewer distribution system along the 4.3-mile stretch of NYS Route 14 in the Towns of Geneva and Phelps.	Ontario NY	\$3,300
Village of Kiryas Joel	The Village will construct a new water treatment facility to complete the Catskill Aqueduct Connection Project to meet its obligation to provide a reliable, safe, and adequate water supply to residents and businesses throughout the Village.	Orange NY	\$5,000
Boscobel Restoration, Inc.	Restoration of Boscobel's Historic House Museum	Putnam NY	\$500
Town of Carmel	Consolidate existing water treatment plant and expand Water District #8 plant to provide sustainable and efficient solutions to reduce PFOA contamination in the community's water supply, ensuring long-term public health and environmental benefits.	Putnam NY	\$2,000
The Fireboat McKean Preservation Project for Preservation	The funds will be used to repair the hull, engine, electrical, and plumbing areas on the Fireboat McKean, which will assure that the McKean Fireboat can take part in America's 250th anniversary celebration on July 4, 2026.	Rockland NY	\$139
Town of Richmondville	The requested funds would be utilized to provide safe disposal of wastewater in Warnerville.	Schoharie NY	\$1,000
Village of Waterloo	Joint WWTP and Collection System Project with the Village and Town of Waterloo to improve water quality.	Seneca NY	\$3,000
Suffolk County	Design sewerage infrastructure in and around the proposed Heartland Town Square development.	Suffolk NY	\$5,000

Town of Brookhaven	The Town of Brookhaven must mitigate flooding, expand drainage, and improve water quality. Hurricane Ida damaged 9,975 square feet of roadway in 2021, exposing outdated leaching systems that can't effectively remove stormwater and now require substantial repairs.	Suffolk NY	\$3,772
Town of Riverhead	Ext. 95 (River Road) would connect 28 homes to the Riverhead Water District. Ext. 96 (Middle Road) would connect 45 homes to the Riverhead Water District. These homes are impacted by significant groundwater contamination.	Suffolk NY	\$6,256
City of Glens Falls	This project will upgrade failing, antiquated, and obsolete electrical systems, provide a new source of emergency backup power, improve reliability and energy efficiency at the City's wastewater treatment plant.	Warren NY	\$5,000
Town of Ossining	The Town of Ossining seeks to upgrade the community's water distribution system on North State Road, an area which has a history of water main breaks that put the general public at a health risk and require expensive repairs.	Westchester NY	\$3,136
Town of Yorktown	The Town of Yorktown will complete improvements to pump stations to reduce sanitary sewer overflows and the amount of phosphorus entering Hallocks Mill Brook.	Westchester NY	\$2,000
Village of Pleasantville	The Village of Pleasantville will perform a complete replacement of both 1-million gallon North and South Water tanks that have had increased leakage issues over the last four decades, increasing the risk of vital water distribution failure.	Westchester NY	\$5,000
Village of Sleepy Hollow	To complete the rehabilitation of an existing water tank within Rockefeller State Park Preserve and water mains along Sleepy Hollow Road Trail and underneath the Old Croton Aqueduct.	Westchester NY	\$4,431
