

United States Senate
WASHINGTON, DC 20510-3203

July 8, 2021

The Honorable Patrick Leahy
Chairman
Senate Committee on Appropriations
Washington, D.C. 20510

The Honorable Richard Shelby
Vice Chairman
Senate Committee on Appropriations
Washington, D.C. 20510

The Honorable Patty Murray
Chair
Subcommittee on Health and Human
Services, Education, and Related Agencies
Committee on Appropriations
Washington, D.C. 20510

The Honorable Roy Blunt
Ranking Member
Subcommittee on Health and Human
Services, Education, and Related Agencies
Committee on Appropriations
Washington, D.C. 20510

Dear Chairman Leahy, Vice Chairman Shelby, Chair Murray, and Ranking Member Blunt:

I certify that neither I nor my immediate family has a pecuniary interest in any of the congressionally directed spending items that I have requested in the Fiscal Year 2022 Health and Human Services, Education and Related Agencies Appropriations bill consistent with the requirements of paragraph 9 of Rule XLIV of the Standing Rules of the Senate.

Thank you for your consideration of these important requests.

Sincerely,

Charles E. Schumer
United States Senator

**Schumer, Charles(D-NY) Labor and Health and Human Services
Congressionally Directed Spending Requests**

Recipient Name	Project Purpose	Project Location	Amount Requested (\$000)
State University of New York System Administration	With an investment from Senators Schumer and Gillibrand, SUNY System Administration will lead the development of a versatile technology platform that 1) tracks student progress across all 64 SUNY campuses, 2) includes a wide range of factors that could result in a student's departure from campus, and 3) establishes an early alert system in order to empower campuses to create individualized networks of support (from academic advisement to mental health and more) around students whose completion is at risk.	Albany NY	\$4,000
The College of Saint Rose	The College of Saint Rose respectfully requests funding to renovate two existing classrooms to create a microbiology laboratory to support five undergraduate majors at the College: biology, nursing, biochemistry, forensic science, and public health. These five majors prepare students for high-demand healthcare, forensic science and other STEM industries.	Albany NY	\$500
University at Albany, State University of New York	To purchase equipment for UAlbany's RNA Institute.	Albany NY	\$1,000
A. E. Crandall Hook and Ladder Co Inc	Requested funds will be used to purchase two Zoll X-Series 12-lead defibrillator monitors and one Laerdal Resusci Annie cardiac manikin to provide Advanced Life Support care to the community and supportive training to our volunteers.	Alfred NY	\$84
Cayuga Economic Development Agency, Inc.	Funds would be used to design and begin building partnerships for a county wide, industry driven workforce ecosystem for Cayuga County.	Auburn NY	\$33
Auburn Community Hospital	This \$8.9M project will encompass the design and development construction of a Radiation Oncology Center.	Auburn NY	\$8,900
Broome County Urban League Inc	This program will expand our current youth initiatives and provide support for school success and career and college readiness.	BINGHAMTON NY	\$200
United Memorial Medical Center	In order to better serve the rural community in Genesee County, NY, United Memorial Medical Center is requesting funding to renovate and expand our radiology capabilities, to provide the best patient care, close to home.	Batavia, Genesee County NY	\$800
Paul Smith's College of Arts and Sciences	Lifting people out of poverty and providing low-income students with access to rewarding STEM careers through higher education are priorities across New York. Through faculty-guided research and workforce training from summer jobs, this project will help build a highly sought-after STEM workforce in northern New York. This project also expands PSC AWI capabilities to conduct monitoring and research focused on protecting water resources across the region, work that is vital to support the socioeconomic wellbeing and health of millions of New Yorkers.	Brighton NY	\$1,000
SUNY Maritime College	Maritime College is focused on building a clean energy workforce for the emerging offshore renewable clean energy sector. Per NYSERDA, nearly 5,000 high-wage earning union jobs could be created by the year 2035 through regional offshore wind deployment. All personnel working on offshore wind platforms will require the specialized Global Wind Organization (GWO) training and certification that Maritime College will develop with this funding. If fully funded (\$795,000), for the first year (FY22), we estimate we will have the capacity to train/certify at least 300 workers annually. Thereafter, this number can increase based on industry demand.	Bronx NY	\$795

Urban Youth Alliance International Inc.	Requested funds will be used to enhance our workforce department to provide for 220 new employment licenses for formerly incarcerated and justice touched individuals who live in Harlem or the Bronx. These funds will also employ three new staff, secure licenses for career and competitive employment, and together with current programming serve 900 people.	Bronx NY	\$740
NYC Health and Hospitals Lincoln Medical and Menta	Located in the South Bronx, Lincoln Hospital services will increase capacity in the following areas: Primary Care (additional 20,000 visits), Dental (additional 5,000), Ophthalmology and Ear Nose Throat (additional 2000 visits). This will ultimately reduce Medicaid and Medicare expenditures by reducing and avoiding Emergency Department visits and admissions.	Bronx NY	\$5,000
Research Foundation of CUNY on Behalf of Lehman Co	This proposal seeks to inform community-policy-driven intervention(s) through data science and community capacity building to address the socio-environmental conditions related to VC in the Bronx. The Bronx District Attorney's Office (Bronx DA), the Office of the Bronx Borough President, community organizations, and individual residents of the Bronx are joining the research team to conduct collaborative data exploration to understand the complex and multi-faceted nature of health disparities related to violent crime at the community level across the domains from the behavioral, physical and built environment, social, cultural, and health care system domains, via 2 aims: (1) Conduct exploratory analyses of spatial and non-spatial data using multivariate regression, and geospatial analysis methods to develop community meaningful statistical models to predict violent crime in relation to physical and built environment social determinants of health across Community Districts (CDs); within and between census block data in the Bronx; and (2) Conduct community network gatherings to identify the key areas of concern and research priorities of community residents and community organizations on violence-related disparities to allow community input in the development of analytical models.	Bronx NY	\$355
Per Scholas Inc	Funds will be used for instructional staff at multiple sites; management, oversight, and support staff; technology, equipment, and supplies to create connected classrooms on-site and at partnering organizations; technology; textbooks and class materials; fringe benefits; and rent.	Bronx NY	\$2,000
St. Barnabas Hospital	St. Barnabas Hospital respectfully requests \$1,360,451.20 to purchase a Computerized Tomography Scanner (CT Scanner) for its Emergency Room. The CT Scanner will allow ER staff to quickly examine patients who may have internal injuries from car accidents or other types of trauma, including a surge of gun violence in our community. SBH is a New York State-designated Level II Trauma Center, one of just three trauma centers in the Bronx. In addition, CT Scans are often the preferred way of diagnosing medical conditions, such as stroke, appendicitis, and cancer.	Bronx NY	\$1,360
Fordham University	The Fordham University Graduate School of Social Service, in conjunction with Goddard Riverside Community Center (GRCC), a settlement house on the West Side of Manhattan in NYC, will provide direct services to high-risk, low-income community members socially and emotionally impacted by COVID-19 via ASCEND (Access and Support for Community Engagement a Needed Demonstration), a psychosocial support and outreach program. The focus will include three different populations: (1) 250-300 middle and high school age youth; (2) 50-75 caregiving adults (parents, grandparents, aunts/uncles and others); and (3) 30-50 direct line staff.	Bronx NY	\$456
Fordham University	The proposed expansion of the Clinical Mental Health Services (CCMH) program aims to provide free tele mental health counseling (in English and Spanish), psychoeducational groups, and outreach and prevention programming to youth and their parents/caretakers in predominantly Black, Latinx and immigrant communities adjacent to Fordham's campus in the Bronx.	Bronx NY	\$453
Lehman College, City University of New York	We are requesting \$250,000 to support 25 students with part-time wages for the next academic year as they support the economic recovery and revitalization in the Bronx due to COVID-19, a BRC coordinator to administer the program to 50+ students, ongoing workshops, virtual programming, and possible summer internships that would occur before the end of FY22.???	Bronx NY	\$250

Urban Health Plan, Inc.	The COVID-19 pandemic has disproportionately impacted the health of communities of color who receive most of their care at their local community health centers. These centers must be kept up-to-date in order for them to provide quality care. Addressing leaky roofs and technology to allow telehealth services enable the provision of quality health services in facilities that are habitable, safe and use modern equipment. By upkeeping these centers before they deteriorate, we are continuing to create health care access to thousands of individuals who need it, regardless of their ability to pay.	Bronx NY	\$591
Montefiore Medical Center	One of the greatest strains on our healthcare system and on our federal budget is the cost of avoidable negative health events. Ready access to health care and regular management of chronic disease is well documented to save millions in taxpayer dollars that would otherwise be spent on emergency room care and the like. The patients we serve in our SBHCs in Bronx County have the highest rates of teen pregnancy, low birth weight, and maternal mortality in the country, as well as high prevalence of asthma, depression, obesity, diabetes, and other preventable diseases. Between 25-30% of MSHP patients from 95 schools access episodic care for chronic care conditions (14,000) and exhibit high need for health care utilization and management which can be extended to their family members as well. When conditions are managed well through consistent contact with one primary and specialty-care providers, this works in everyone benefit, including the taxpayer. Children with access to our programs are 40% less likely to go home sick, resulting in stronger school performance and less work missed for parents. Emergency room visits and hospitalizations dropped by half after students started receiving treatment at the clinics. Hospital costs for children with diabetes were cut by nearly one-third. A healthier community translates into lower costs to the taxpayer for avoidable emergency care, and a healthier, more stable workforce contributing to our local economy.	Bronx NY	\$1,000
Montefiore Medical Center	One of the greatest strains on our healthcare system and on our federal budget is the cost of avoidable negative health events. Ready access to health care and regular management of chronic disease is well documented to save millions in taxpayer dollars that would otherwise be spent on emergency room care and the like. The patients we serve in our SBHCs in Bronx County have the highest rates of teen pregnancy, low birth weight, and maternal mortality in the country, as well as high prevalence of asthma, depression, obesity, diabetes, and other preventable diseases. A healthier community translates into lower costs to the taxpayer for avoidable emergency care, and a healthier, more stable workforce contributing to our local economy.	Bronx NY	\$3,352
One Love Foundation	The One Love Foundation is requesting \$1 million in Congressionally Directed Spending to expand awareness and usage of their online Education Center for K-12 educators and students to exponentially increase the number of youth they serve. The online Education Center provides educators with a robust suite of FREE tools and resources including: professional development trainings, lesson plans, activities, implementation supports, high quality video-and-discussion-based workshop materials, toolkits to bring One Love to their school and community, and more. These resources are currently available in English, Chinese and Spanish and cover both heterosexual and LGBTQIA relationships, as well as are representative of relationships and friendships amongst many demographics and communities.	Bronxville NY	\$1,000
Make the Road New York	Through this project Make the Road New York (MRNY) will provide adult education services to immigrant communities including English Language Acquisition (ELA) and Citizenship Preparation (civics) classes.	Brooklyn NY	\$400

Bedford-Stuyvesant Restoration Corporation	The Bedford-Stuyvesant Restoration Corporation is expanding a several-fold strategy that will develop a pipeline to jobs in the tech sector and help low- and moderate-income individuals of diverse backgrounds achieve upward mobility and prosperity. This replicable, scalable initiative has the potential to open pathways to an industry that offers many potential benefits to local communities, including innovation and willingness to take risks, high wages, and asset accumulation that will help close the racial wealth gap in the long term.	Brooklyn NY	\$500
Elite Learners Inc.	The funds requested would be to implement the Cure Violence model in these neighborhoods.	Brooklyn NY	\$2,500
New York City Fire Department	The Be 911 Teens Take Heart program will train New York City youth how to perform CPR.	Brooklyn NY	\$300
St. Francis College	To provide resources that promote educational access and that emphasize diversity, equity and inclusion at St. Francis College and the New York communities we serve.	Brooklyn NY	\$1,245
One Brooklyn Health System, Inc.	The One Brooklyn Health System (OBH)-Health Facilities Equipment and Health Information Technology project seeks Congressional Directed Spending (CDS) funds to support OBH's development of a state of the art- full spectrum health care network through the purchase of essential medical equipment, hospital information and equipment systems, patient furnishings, and a network-wide EPIC Electronic Health Record (EHR) and Health Information System with At the Elbow staff training. The transformational efforts of this OBH project will generate career advancement opportunities for staff, job opportunities for local vendors and service providers, and create greater access to qualitative, Ambulatory, Emergency, Primary Care and Behavioral healthcare services to North and Central Brooklyn residents, ameliorating health disparities, extending life expectancies, and saving lives of its most vulnerable populations.	Brooklyn NY	\$7,834
Kings County Hospital Center	This is a request for a replacement of the Linear Accelerator (LINAC) machine in Radiation Oncology. The LINAC machine is used for external beam radiation treatments for patients with cancer. It delivers high energy x-rays or electrons to the region of the patient's tumor. This unit will replace an existing LINAC machine which is 15 years old.	Brooklyn NY	\$2,000
The Brooklyn Hospital Center	Funding will support an Emergency Department Modernization Project. This renovation will revolutionize the hospital's response to traumatic injury and illness. It will also result in a state-of-the-art facility within lifesaving minutes of Brooklyn's diverse neighborhoods. The project includes: New triage, exam and treatment rooms, including a rapid assessment treatment area, and bariatric, psychiatric observation, cardiac treatment and bereavement rooms; Additional space and flow for support services such as a radiology room, CT scan room, satellite pharmacy and discharge rooms New waiting areas, including those specifically for results A new entrance to the ED through a newly renovated hospital lobby that will be transparent and welcoming with direct access to the triage rooms Quick registration areas to accelerate patient flow to treatment.	Brooklyn NY	\$9,216
St. Joseph's College New York	Funds are bring requested for new scientific and laboratory equipment to prepare SJC Long Island's population of diverse and underrepresented STEM scholars for careers of excellence and innovation.	Brooklyn NY	\$550
Urban Dove Team Charter School Brooklyn	UD Team Brooklyn requests capital funding for construction costs related to the Ruth Bader Ginsburg Memorial Gymnasium at our school's new location on East 21st Street in Midwood, on the grounds of the East Midwood Jewish Center. We will honor Brooklyn's own Justice Ginsburg, who attended EMJC as a child, because we align with her values of social justice and equity for all. UD Team Brooklyn also requests funding for an important and unique piece of our program - to support the work of our 15 full-time youth development coaches, each of whom works with a team of 15-20 students. Specific elements include providing trauma-sensitive professional development; building an internal pipeline of candidates through external educational opportunities;	Brooklyn NY	\$4,000

	and training coaches in the Neurosequential Model in Sport.		
The HOPE Program	The requested funding would support transitional employment and green jobs training for New Yorkers affected by, or at risk of being affected by, the criminal legal system, through on-the-job experience in horticulture and solar panel installation; training in industry hard skills, essential skills, digital skills, and financial literacy; and job placement and career support. Specific expenses will include transitional wages for trainees; salaries for staff lines including program coordinators, hard skill trainers, and employment specialists; certification costs; technology; and other programmatic expenses.	Brooklyn NY	\$800
SUNY Downstate Health Sciences University	SUNY Downstate Health Sciences University is requesting \$1.925M to establish a Center for Community Health network to provide comprehensive primary care to the underserved neighborhoods of central Brooklyn. Specifically, we are requesting funds to develop a technology enabled health infrastructure hub and a connected primary care practice pilot site.	Brooklyn NY	\$1,925
CareerWise New York	The Engine of Mobility is a groundbreaking 10th Grade through College initiative led by a unified group of Fortune 100 companies and steeped in a youth apprenticeship model. New York City is our sandbox, and in addition to employers like JPMorgan Chase, Amazon and Accenture, we work closely with the New York City Department of Education and the City University of New York system of 25 community and four year colleges.	Brooklyn NY	\$1,000
NYC H+H/Woodhull Hospital Center	The overall goal is to renovate the existing ED which was constructed in the 70's and is approximately 8,600 SF. Areas include Acute, Trauma, Critical and Triage, as well as, the Radiology Waiting Room inclusive of the reconfiguration of space for an existing Ultrasound Unit to improve patient throughput. The ED consists of 28 cubicle bays. Some of the objectives include the replacement of utilities including, electrical, medical gases, HVAC and plumbing, as well as, replacement of light fixtures, doors, air registers, headwalls, ceilings, flooring, specialty lighting and painting.	Brooklyn NY	\$4,750
NYC Health + Hospitals/Coney Island	The acquisition of digital education, communication and wayfinding hardware will improve Coney Island Hospital's care coordination, patient experience, quality outcomes, and safety.	Brooklyn NY	\$1,000
East Midwood Jewish Center	East Midwood Jewish Center is a 98-year old historical landmark building that has continuously housed a large Jewish community within the Conservative Movement of Judaism. However, the building's intent was always to be a community center for the wider population, and as communities have come and gone in the surrounding Midwood and Sheepshead Bay neighborhoods, our outreach has extended beyond the local Jewish community to house myriad programming that is frequented by children, adults, and seniors from the many diverse populations in the Southern Brooklyn region. Allowing us to renovate and modernize our gymnasium and locker room facilities will only benefit the local New Yorkers to have access to such a space.	Brooklyn NY	\$1,250
Carlton Locksley Bennett Foundation Inc.	The Carlton Locksley Bennett Foundation will provide leadership training, mentoring program, counseling and support to an environment of people who have fallen victims to violent crimes. This specifically fund will provide the necessary resource to established a multi-purpose center that will served the community in providing healing, education, mentoring, bereavement to students and families. This fund will also provide salaries for the President & Founder and alt least 4 staff members to service the need of the people. A scholarship fund will be created for High school students who would like to attend college but unable to due to circumstances beyond their control. This fund will be able to provide annual leadership training for students and adults between the ages of 12 through 40 years old. We will provide mental health services to parents who have lost children to gun violence. Our aim is to partner with schools within communities experiencing high incidents of gun violence.	Brooklyn NY	\$700
Maimonides Medical Center	Requested funds will be spent on clinical staff, including psychologist, social workers, pediatrician, and care manager; training costs; and program coordination, research and evaluation.	Brooklyn, Kings County NY	\$682

Brooklyn Communities Collaborative, Inc.	Requested funding is for cloud-based platform licensing, initiation, and support; development and testing of interfaces between platform and electronic health records to support clinical documentary and billing; training development and delivery.	Brooklyn, Kings County NY	\$877
Jewish Child Care Association of New York (JCCA)	Funds requested for renovation of JCCA Pleasantville Campus, which serves 350 young people.	Brooklyn, Kings County NY	\$5,000
Jamel Gaines Creative Outlet	Requested funds will be used for implementing our Arts In Education Residency program in New York City including obtaining equipment for the program, funding field trips, providing resources for our lecture demonstrations, providing costumes and technical elements for our collaborative in-school performances and providing salaries for our artistic teaching staff.	Brooklyn, Kings County NY	\$921
Carlton Locksley Bennett Foundation Inc.	The Carlton Locksley Bennett Foundation will provide leadership training, mentoring program, counseling and support to an environment of people who have fallen victims to violent crimes. This specifically fund will provide the necessary resource to established a multi-purpose center that will served the community in providing healing, education, mentoring, bereavement to students and families. This fund will also provide salaries for the President Founder and alt least 4 staff members to service the need of the people. A scholarship fund will be created for High school students who would like to attend college but unable to due to circumstances beyond their control. This fund will be able to provide annual leadership training for students and adults between the ages of 12 through 40 years old. We will provide mental health services to parents who have lost children to gun violence. Our aim is to partner with schools within communities experiencing high incidents of gun violence.	Brooklyn, Kings County NY	\$700
The Economic Development Group Inc., dba Northland	NWTC is seeking funding tocreate an interactive Renewable Energy Experience Center (REEC) and Emerging Energy Technologies Program (EETP) designed to inspire and educate the next generation of clean energy workers. The total cost of this project is \$3,000,000.00, and once operational, NWTC will educate, train, place and upskill 100 candidates annually in clean energy jobs.	Buffalo NY	\$2,200
Canisius College	Requested funding will be used for the purchase and installation of equipment in Canisius College's Science Hall which is undergoing Phase II of a \$57M renovation. Funding will be used to enhance science and math education to better prepare students for careers in science, high tech, green tech and allied health, particularly those students who face traditional barriers to entry in those fields.	Buffalo NY	\$1,250
University at Buffalo	Funding requested will support the addition of 10Teacher Residents of Color in UB's existing Teacher Residency Program, and to launch the Summer Teacher and Leadership Academy to extend the work currently being done with teacher and leader residencies. Our current Teacher and Leader residency programs are able to prepare smaller numbers of educational professionals of color to be more effective in terms of student academic achievement and social-emotional development. Preliminary data on teacher residencies provide evidence that teachers trained within this model see more gains among their students than teachers prepared using other pathways. The Summer Academy at UB will enable itsTeacher Residency Program to reach a larger number of educational professionals who could benefit from learning strategies to improve their practices and hence their effectiveness, particularly working with students in urban schools. Funds will largely be spent on teacher salaries as well as the costs associated with running the program (instructors, mentors, supplies).	Buffalo NY	\$1,000
Research Foundation for the State University of Ne	This project would focus on exposure activities, including but not limited to interactive career camps, job shadow opportunities, facility tours, provider panel discussions, and career presentations outlining educational requirements and daily job tasks, for underrepresented/underserved student populations who may otherwise never learn of key healthcare careers due to limited educational resources and community supports. As the nation continues to grapple with increasing healthcare provider shortages, ranging from primary care to dentistry and to mental health, it's critical that the future workforce is exposed early on to viable career opportunities to elicit interest and motivate career intent.	Buffalo NY	\$500

Explore & More...A Children's Museum	Funds will be used to expand upon the museum's free Au-Some programming for children with Autism Spectrum Disorder and their families, further strengthening its impact and reaching more of this vulnerable population. Additionally, we would like to develop new curriculum and expand on our programs for children and families with physical, intellectual, behavioral, and emotional challenges. We will continue to partner with the University of Buffalo, Buffalo State College, and Parent Network of WNY to utilize pre-existing resources to best serve our families.	Buffalo NY	\$437
Center for Arts and Technology of Buffalo, Inc.	Buffalo Center for Arts and Technology (BCAT) requests \$300,000 to create and administer two workforce development courses over a three year period from 2022-2024. Twice annually, we will offer classes for Treatment Assistants and Health Administrative Assistants to approximately 60 adults in partnership with Horizon Health Services to meet a documented need for a diverse, highly trained and qualified employee pipeline; and to address high turnover rates in these positions across the region.	Buffalo NY	\$300
GOODWILL INDUSTRIES OF WESTERN NY	Goodskills Career Builder is a partner-driven career pipeline program to prepare people of color, people living in or near poverty, unemployed, those recently unemployed due to COVID-19, and underemployed populations for training programs and career opportunities and advancement in the Advanced Manufacturing, Sales and Services, and Tech industries in Western New York.	Buffalo NY	\$350
GOODWILL INDUSTRIES OF WESTERN NY	Goodskills Career Builder is a partner-driven career pipeline program to prepare people of color, people living in or near poverty, unemployed, those recently unemployed due to COVID-19, and underemployed populations for training programs and career opportunities and advancement in the Advanced Manufacturing, Sales and Services, and Tech industries in Western New York.	Buffalo NY	\$350
Carthage Area Hospital	Carthage Area Hospital (CAH) will build a new medical facility to consolidate all services from 3 different locations (existing hospital and 2 medical office buildings) under one roof to provide the community easier access as well as more comprehensive and integrated healthcare while lowering the cost of delivering these services. The new facility will be home to the following services: Acute Inpatient care, Maternity and Deliver, Emergency, Surgery, Medical Imaging, Laboratory, Family, Childrens and Womens Health, Physical Therapy, Orthopedics, Podiatry, Behavioral Health, Urology and Neurology.	Carthage NY	\$4,000
Corning Community College	The Manufacturing Advancement Technology Project will provide critical equipment for SUNY Corning Community College to offer a Mechatronics program that is needed for workforce development in advanced manufacturing. Mechatronics is a multidisciplinary field that combines several types of engineering—electrical, computer, and mechanical—and refers to the skill sets needed in the contemporary, advanced automated manufacturing industry.	Corning NY	\$643
County of Cortland	Develop downtown vacant building in rural upstate NY small town of Cortland for community's needs.	Cortland NY	\$900
Girls Incorporated of Long Island	To provide trauma informed training for programmatic staff as a result of increased social emotional learning needs for female youth served by our mission as a result of the pandemic. Deliver community-based Girls Inc. Experience programming to girls in under-resourced communities to bridge mental, physical, social emotional, learning and skills gaps.	Deer Park, Suffolk County NY	\$100
United Way of Long Island	To develop a workforce development service for at-risk young adults in Hempstead and the City of Long Beach.	Deer Park, Suffolk County NY	\$700
United Way of Long Island	United Way of Long Island is respectfully requesting Congressionally Directed Spending to support our Net Zero Energy Challenge. This project will allow us to install renewable energy at our Deer Park headquarters - a 31,000 sq. ft. building. Our headquarters is also home to the Ascent School for Autism, YouthBuild, VetsBuild, Girls Inc., and Wyandanch Homes & Property Development Corporation. The total cost of this building project is \$1,847,000.	Deer Park, Suffolk County NY	\$500

NYC Health + Hospitals/Elmhurst	We propose to renovate our Obstetrical Inpatient facilities in order to provide a more modern, safe, and comfortable family-centered environment, one which meets current privacy standards. There will be two basic enhancements to our Obstetric Suite: privacy and comfort. When giving birth, privacy leads to a quieter environment which promotes recovery; it provides for better infection control; it is better for bonding between moms/parents and their babies. Healthy breastfeeding is fostered in single rooms. A patient and family centered environment leads to increased patient satisfaction, and helps sustain our mission to provide high quality care to our community.	Elmhurst NY	\$3,000
NYC Health + Hospitals/Elmhurst	We will construct a new Transcranial Magnetic Therapy Suite (TMS) on hospital unit D10. The request includes the cost of the TMS equipment; the demolition / construction / remodeling of the 10th floor D-wing; and furniture and equipment for the suite.	Elmhurst NY	\$800
Queens Community House, Inc.	Queens Community House (QCH) operates three alternative high school programs in Corona and Elmhurst, Queens, which offer a variety of supports to help students who have dropped out or are at risk of dropping out to stay in school and on track to graduate. Through this project, QCH will hire a Family Support Counselor at each of the three schools to provide case management and service referrals to QCHs existing teams who provide services around housing, child care, health, mental health, education, job loss, benefits, immigration status, and other critical needs that threaten household stability and thus the students ability to stay in school.	Forest Hills NY	\$225
State University of New York at Fredonia	SUNY Fredonia's initiative, Building Towards Student Success, will centralize student support services into three adjacent buildings to form a student success corridor in the heart of the campus that will enhance student services, improve student and family morale, and increase student enrollment and retention. Requested funds will support the project design, construction, and equipment for the Reed Library Learning Commons, the initial phase of the planned student success corridor.	Fredonia NY	\$8,000
Family and Children's Association	FCAs Linkage program will work to address the behavioral health needs of Nassau Countys growing senior population, thereby reducing health disparities and extending quality of life. Mental health counseling and addiction treatment will be provided to seniors in their homes through teletherapy and/or face-to-face visits with licensed clinicians with specialties in substance abuse treatment, mental health counseling and gerontology.	Garden City NY	\$348
Glen Cove Hospital (member of Northwell Health)	For Northwell Health, New Yorks largest health system, being age-friendly means encompassing the full continuum of care, from outpatient primary care and community resources, to inpatient hospital, post-acute services, long-term skilled care and end of life care. Northwell recognizes that supporting both professional and lay caregivers is critical to providing high quality, patient-centered care, and keeping older adults living at home and proposes to build upon existing strengths at Glen Cove Hospital to create a unique geographic epicenter for the community, health system and region - The Geriatric Center of Excellence at Glen Cove Hospital.	Glen Cove NY	\$4,000
Warren County Employment & Training Administration	The funding will be used to recruit, train, and open more child care provider businesses. The funding covers the training and state licensing, as well as the start-up costs for the child care business.	Glens Falls NY	\$203
Catholic Charities of Orange, Sullivan & Ulster	Facility improvements for substance use disorder treatment.	Goshen NY	\$50
Long Island University	Funding for the PRFF will involve renovating existing space within the LIU Brooklyn campus to leverage existing Good Manufacturing Practice (GMP) and Food and Drug Administration (FDA) certified pharmacy laboratories to create an advanced training and drug design faculty. The PRFF builds on existing LIU facilities and resources. Funding will be used to acquire additional specialized capital equipment, including Next-generation sequencing (NGS) to allow the PRFF to deliver drug design capabilities and support the awarding of degrees, as well as support other associated and drug design training.	Greenvale NY	\$1,968

P.E.A.C.E. AFTERSCHOOL PROGRAM, INC.	The proposed Community Project Funding will support free after school care and a summer STEAM camp experience for 50 children ages 6-14 in the underserved community of 100 Terrace Avenue in Hempstead, NY . In addition, it will support program expansion to youth ages 15-21 for educational services and work experiences through our Project Restoration: Terrace Avenue partnership.	HEMPSTEAD NY	\$100
Garnet Health Medical Center - Catskills	Garnet Health Medical Center - Catskills (GHMC-C) is embarking on an ICU modernization and expansion project that will increase bed capacity and critical care services in state of emergency events. The proposed project will allow GHMC-C to complete the engineering and architectural design phase for an ICU modernization and expansion project that will increase the size of each ICU patient room and will allow the potential for a two (2) bed surge capacity per room in a state of emergency.	Harris NY	\$825
Long Island Cares, Inc.	The Center for Community Engagement will be a new satellite location of Long Island Cares that will allow the agency to expand its work addressing the root causes of food insecurity. The new Center will house both new and existing programs of Long Island Cares as well as provide space where community stakeholders can come together to help people in need and work collaboratively to shape a coordinated response to the ever-evolving problem of hunger on Long Island.	Hauppauge NY	\$532
Long Island Cares, Inc.	To provide extensive health-related and other services to low-income and homeless populations.	Hauppauge NY	\$200
Valley Health Services, Inc.	Funds will be used to construct a new, state-of-the-art, 160 bed skilled nursing facility with a 20 bed neurobehavioral unit and a 20 bed memory care unit in Herkimer County, NY to address a significant unmet need in upstate New York. Neurobehavioral care is unavailable anywhere in the Mohawk Valley and Central New York regions of the state and otherwise severely limited and underserved throughout New York State.	Herkimer NY	\$5,000
The Culinary Institute of America	This project, which represents a college partnership with school districts, will support school nutrition priorities through The Culinary Institute of America's development of a first-of-its kind standardized national culinary training initiative for school food service/nutrition staff with the objectives of: 1) catalyzing student health, engagement, and performance by training school nutrition workers; 2) contributing to reduced childhood hunger; 3) cultivating lifelong preferences for nutritional meals; and 4) driving food system sustainability.	Hyde Park NY	\$363
Town of Islip	Provide training and tools to the Senior Citizen population of the Town of Islip to enable them to participate in virtual activities.	Islip NY	\$55
Town of Islip	Purchase and install computer tech labs at five Town of Islip Recreation Facilities to support LEAP afterschool programs.	Islip NY	\$250
The REACH Project, Inc.	The requested funds will be used to support the ongoing and expanded efforts to facilitate integrated treatment of opioid use disorder (OUD) through telemedicine in New York state.	Ithaca NY	\$300
Cayuga Medical Center at Ithaca, Inc.	Cayuga Medical Center (CMC), a member of Cayuga Health System (CHS), is in the process of purchasing a major portion (over 100,000 square feet) of the Ithaca area's large indoor mall called The Shops at Ithaca Mall. Phase 3 of the project, for which we are seeking these funds, is to build-out the former Sears store into a Health Professions Learning Center that will support the required education and training for numerous healthcare career fields that are in desperate short-supply in the Central and Southern Tier regions of New York. In cooperation with Cornell University, Ithaca College, and Tompkins-Cortland Community College, CMC and partnering clinical institutions can provide clinical and contextual education for undergraduate and graduate students, physicians in training, and various healthcare professionals whose position requires some combination of technical training and certification. More than 500 people would receive training per year, and there would be many short-term programs. The primary objective of this project is to enable a stable supply of much needed professionals for various roles for which there are insufficient regional options for requisite education and training.	Ithaca NY	\$7,215

Franziska Racker Centers Inc.	Funds for construction of new facility.	Ithaca NY	\$1,000
Community Capacity Development Inc.	CCD is requesting funding to expand offerings and initiatives to address community concerns such as financial literacy, entrepreneurship, personal and career development to help more New Yorkers get jobs, provide for themselves and their families, and create opportunities for others.	Jamaica NY	\$3,000
York College, CUNY	We are proposing to offer six high-quality course offerings/trainings that are scalable and aligned with in-demand occupations and career pathways in New York City (NYC), as identified by leading employers and marketplace data. These offerings will equip low- and middle-skilled workers, as well as students, alumni with skills to advance in the workforce.	Jamaica NY	\$527
LIFE Camp Inc	After a year in a devastating pandemic, New York's students are returning to a congregate learning environment. Re-intergration will require a focus on their social emotional learning, conflict mediation and ensuring their school community is safe. The All in for Queens Peace Academy ensures students, teachers and staff have the resources they need for conflict free classrooms, restorative justice and conflict mediation.	Jamaica NY	\$3,000
St. John's University (NY)	The St. John's University Health Science Center will house state-of-the-art equipment and simulation facilities where students can learn and benefit from simulation learning opportunities prior to their required experiential education (completing their clinical rotation requirements at a clinical setting).	Jamaica NY	\$1,250
NYC HEALTH + HOSPITALS QUEENS	Renovate an existing hospital space (retired swimming pool room) to build an Outpatient Dialysis Center. The Outpatient Dialysis Center would serve a significant medical need in the community given the high volume of patients with End-Stage Renal Disease (ESRD), Chronic Kidney Disease (CKD), and provide services to those in need of access to chronic renal dialysis services, primarily due to the complications of diabetes, which is a significant healthcare concern in the community. This would allow NYC Health + Hospitals Queens to further close the gap in delivering services and address disparities in healthcare delivery and patient access.	Jamaica, Queens County NY	\$4,480
Keuka College	Keuka College's Center of Health Innovation requires funding for lab equipment that will help to increase the quantity and quality of health care workers (nurses, midwives and occupational therapists) in New York State	Keuka Park NY	\$500
Samadhi Center Inc.	The requested funds will be used for the basic infrastructure and operation of the Samadhi Center Inc.'s new program, The Samadhi Anti- Gun Violence Prevention Program will foster understanding of the causes and the cessation of conflict and reduce gun violence. This would include rental of office space as well as staffing necessary personnel including a Program Director/manager, senior outreach worker , 2 Licensed Clinical Social Workers, A trauma specialist, 2 regular outreach workers (credible messengers) and an associate director of community initiatives and basic operating expenses.	Kingston NY	\$430
Depew Community Action Team	The Depew Community Action Team will outfit a community laundry facility and technology access center with the appliances and fixtures necessary to serve the local community which is in a nationally registered blighted area of Depew, New York. The DCAT Team has partnered with the Educational Technology Foundation of WNY and our local businesses in support of this effort to continue to provide these enhanced programs and services.	Lancaster NY	\$69
Coloki Inc	To set up a Riverhead, Suffolk County, NY center to assist new undocumented residents. Programs will have a primary focus on job skills & trainings, while helping each individual access basic needs.	Laurel NY	\$300

Mount St. Mary's of Niagara Falls	Lockport Memorial Hospital -- Campus of Mount St. Mary's will remove an annual operational drain on taxpayers by building a sustainable, practical care delivery model that provides access for 84,000 residents close to home. The new hospital campus will consolidate the carrying costs and services from Eastern Niagara Hospital's current 274,000 sq. ft. of inefficient and significantly outdated facilities to a combined 61,245 sq. ft. contemporary, green, efficient, sustainable facilities that meet the changing needs of the community, and provides more access to specialists and services. The modern health care model will help residents manage health, wellness and illness in a more efficient cost-effective manner through a population health management program that has a proven track record of ensuring the greatest stewardship of every healthcare dollar that is spent through prevention and delivering care at the right site, and level of service.	Lewiston NY	\$1,981
Town of Babylon	The purpose of the funding request is to expand the Town of Babylon Dept. of Human Services NYS OASAS licensed Outpatient Program.	Lindenhurst NY	\$6,600
City of Long Beach	Access to affordable and quality daycare services is very limited to working families and those with low income. This project aims to increase access to childhood education for low income students which is essential to honing and molding the holistic child and will eventually form the basis of their lifelong journey. Children and their families benefit from early childhood education because it improves the child socialization and concept of cooperation, encourages holistic development, enthruses lifelong learners, conveys the value of education through experience, develops respect, enhances the ability to work in teams, builds resiliency, develops concentration, builds their confidence and self esteem, and exposes them to diversity.	Long Beach NY	\$400
Phoenix Houses of Long Island, Inc.	Phoenix House seeks to make capital repairs and improvements to the infrastructure of its existing treatment complex by replacing the roof, boilers, and HVAC system that have each reached the end of their life cycle (over 25+ years) as well as installing a modern commercial kitchen. The project includes repurposing a building gutted by a fire into a transitional residence for those patients who have completed their treatment and are in need of short term housing.	Long Island City NY	\$3,633
The Floating Hospital Inc	To update TFH's IT infrastructure and acquire new equipment and two new minibuses.	Long Island City, Queens County NY	\$935
Siena College	To address the growing demand in our region for qualified, compassionate health care workers, Siena College has developed a strategy for transforming and expanding its existing Morrell Science Center and Roger Bacon Hall facilities into a state-of-the-art science complex that accommodates the growth of health education programs. This funding request is specific for the biology and nursing laboratory equipment needed to support the curriculum.	Loudonville NY	\$523
Wayne County Department of Aging and Youth	FACT is an interagency initiative designed to assist families of children who are having difficulty in their home, school, or community; who have numerous complex needs; or who are not making adequate progress despite multiple agency involvement. Through this project, we provide intense family support through counseling, community service coordination, and transportation to appointments for families in need.	Lyons, Wayne County	\$100
Wayne County Action Program, Inc.	Our project is designed to target fragile members of our community by providing work skills training for the homeless and at-risk youth, provide expanded case management that provides clients with paid work experience, on-the-job training, and referral access to mental health and drug abuse prevention/intervention services. We will also create a program where adults with mental and behavioral health disabilities are trained to provide peer support to over 40 new clients and assist them in navigating health provider networks to gain access to mental health services as well as expand upon our ability to provide 6-month transitional housing to homeless Vets and survivors of abuse.	Lyons, Wayne County NY	\$100

Wayne County Department of Social Services of NYS	Wayne County Department of Social Services requests these funds for the purpose of purchasing State-specified and configured laptops now available to assure fast and efficient navigation of State-supported computer systems while providing for continuity of operations in the event of public health or other crisis forcing the district to revert to remote operations.	Lyons, Wayne County NY	\$90
Town of North Hempstead	The Town's Department of Services for the Aging seeks resources to expand its aging services under Project Independence, the innovative aging-in-place program which provides health, mental health, caregiver support, social and recreational programs, senior transportation, food and nutrition, veterans support, and services for the 55,000+ seniors of this Town. Funding will be used for additional staff, and program outreach and coordination, to reach more seniors, and disabled seniors, in need through Project Independence.	Manhasset, Nassau County NY	\$250
Island Harvest, LTD	Island Harvests Workforce Development Institute will prepare and place under- and unemployed workers into long-term employment through training, education, long-term job coaching and follow-up support throughout the employment process. The requested funds will support program equipment, supplies, and program staff.	Melville NY	\$1,000
Access: Supports for Living Inc.	To develop a community outreach and behavioral health screening program.	Middletown NY	\$221
Orange County Community College	To improve instructional space and equipment for SUNY Orange's Health Professions Division.	Middletown, Orange County NY	\$8,300
Community Medical & Dental Care, Inc.	Funds will purchase a Dental Mobile Van to provide primarily dental services to children in Rockland County who may not have access to dental care because their family does not have dental coverage, have limited language proficiency in English, a new immigrant, or do not fully understand the importance of dental care early in a child's life. The program will focus on collaborating with school districts in Rockland County since children are supposed to provide a dental care certification at various times to the school they attend.	Monsey NY	\$1,104
The Center for Discovery, Inc.	This project will advance care for complex disabilities across New York State through comprehensive website development, telehealth equipment, and personnel to deliver services and develop content. Specific outcomes of this project include providing individual consultation and counseling services through the use of growing telehealth capabilities, including assessments and treatment plans; establishing an Autism Infoline for parents and caregivers to immediately access critical information and support; and establishing an accessible online platform for training and support of families, caregivers, educators, clinicians, and other stakeholders with the capacity for a variety of educational options, including toolkits, short videos and podcasts, webinars, and interactive training opportunities.	Monticello NY	\$950
Mount Vernon Neighborhood Health Center, Inc.	MVNHC's Behavioral Health Services for Homebound Elderly and Disabled will provide behavioral health assessments and psychotherapy to MVNHC's homebound elderly and disabled residents living in NY-16. Participants in the program will receive a home visit from an MVNHC Licensed Clinical Social Worker (LCSW), and adults who are assessed as experiencing anxiety and depression will be offered once-weekly individual or family therapeutic sessions with the LCSW.	Mount Vernon NY	\$102
Parker Jewish Institute for Health Care and Rehabi	To better care for our dementia patients, Parker Jewish Institute is requesting \$500,000 in FY 2022 community project funding from the HRSA Health Facilities Construction and Equipment Account to build a new Alzheimer's and dementia memory care unit intended to provide a safe, structured environment with set routines to lower stress for people with Alzheimer's or dementia, plus activities intended to stimulate memory, and possibly slow the disease's progression. Funds will be used to redesign and refurbish an entire floor of Parker's nursing home in order to create a new Alzheimer's/dementia health unit. This unit will no longer resemble a traditional hospital ward and will offer more space and freedom for patients to move about in an open environment without locked doors. It will feature the environmental design advances which have been shown in locations both in the U.S. and around the world to increase independence and improve socialization and overall quality	New Hyde Park NY	\$500

	of life for dementia patients at any stage of the disease.		
Boys & Girls Club of Harlem, Inc.	Funds will support the implementation of a full service community schools model at five Harlem public schools. This model will provide critical supports to students and their families; such as access to emergency food, health care services and other income supports to promote family stability and foster student success.	New York NY	\$296
EmblemHealth	This program will provide culturally competent mental health and behavioral health education and navigation within the Chinese American community at EmblemHealth Neighborhood Care, to be launched at our newly renovated Downtown Flushing, Queens site. The program has a dual-focus of raising awareness and reducing the social stigma surrounding seeking help through providing confidential screenings, educational and awareness programs, individual and group sessions, and more.	New York NY	\$200
Helene Fuld College of Nursing	Helene Fuld is diversifying the RN workforce tremendously in the New York area, as our student population is approximately 70% Black, 10% Hispanic, and 9% Asian. Because the Helene Fuld College of Nursing student population of minorities is greater than 70%, we are proud to have the designation as a Minority Serving Institution. We would like to be able to provide our nursing students with scholarships to help them propel past the barriers of discrimination and limited opportunities they face. We are also a designated military school for the 2021-2022 school year.	New York NY	\$1,000
The City College of New York	Biomedical Engineering (BME) at CCNY is built around four concentration areas (Biomaterials/tissue engineering/nanomedicine, Cardiovascular engineering, Orthopedic engineering, Neural Engineering). There is a need and opportunity to improve development/clinical translation of biomaterials in cardiovascular and orthopedic engineering and diagnostic technologies, with a primary focus on establishing capabilities for creating FDA level pre-clinical level data on materials and implants, etc. This initiative can serve to advance CCNY student education and help ready a workforce for the biomedical industry NYC and beyond. With a primary scientific focus on establishing pre-clinical data on materials and implants and associated training, this effort requires additional analytical capabilities and labs. Total analytical instrumentation request - \$1,300,000. Laboratory modifications to accommodate new equipment (\$550,000). Total project cost \$1,850,000	New York NY	\$1,850
Trustees of Columbia University in the City of New York	TRANSFORM-NY is a public mental health model that builds a safety net by bringing together hospitals, community-based organizations, faith-based institutions, and social service agencies and adds innovative technology-based modes of mental health and substance use disorder care. We will develop the TRANSFORM-NY Training Center to employ a locally recruited workforce to deliver high-quality mental health care under the supervision of Columbia psychiatry specialists.	New York NY	\$14,600
NYU Langone Hospitals	Funding for capital equipment for NYU Langone's Level 1 Trauma Center in southwest Brooklyn will enable us to improve healthcare and reduce health disparities in the diverse populations we serve for trauma, cardiovascular, and cancer care.	New York NY	\$1,025
Jewish Home Lifecare	Funds will be used to launch the replication and expansion of our GCD Young Adult Program in Westchester County. From October 1, 2021, September 30, 2022, we propose supporting a total of 30 Young Adults (ages 18-24) from Westchester County who are not in school and unemployed to complete GCD's three-month full-time workforce development program. We will train two cohorts of 15 participants each to become Certified Nursing Assistants (CNAs) with 100% of available graduates hired by The New Jewish Home's nursing home in Westchester County post-program and placed into living-wage jobs, which will meet the CNA staffing needs of our nursing home providing care to economically and medically vulnerable older adults and enable us to incubate the GCD program positioning it for regional and national expansion (pending available funding) potentially benefiting thousands of out-of-school and unemployed young adults as well as the older adults they will be trained to care for.	New York NY	\$400

NYC Mission Society	As students return to schools in the fall, they will require additional support to address the academic, social, and emotional impact of COVID-19. The Mission Society predominately serves Latinx, Black, and immigrant students, the majority of whom have been disproportionately impacted by the pandemic as a result of living in low-income, under-resourced communities. This funding will allow the Mission Society to help students adjust to school life after the pandemic by offering academic support, mental health counseling, career advisement, paid internships, and college counseling and planning.	New York NY	\$370
New York City Mayor's Office of Immigrant Affairs	The program aims to support the social-emotional and early college awareness of immigrant youth in select NYC DOE high schools, while also building the social and economic capital of current CUNY students. CUNY college students will be carefully selected and trained to serve as near-peer mentors and small group facilitators to support NYC DOE incoming high school freshmen who reflect some of our most historically excluded immigrant communities. NYC DOE students will gain a community member who helps them navigate high school, exposes them to postsecondary pathways, and engages them in critical workshops that helps them prepare for college and careers.	New York NY	\$561
Friends of Harlem Hospital	The simulation center currently requires major renovation due to its antiquated infrastructure. There is limited equipment, manikins, and supplies, which the center needs to grow to maximize the center's full functionality.	New York NY	\$5,000
Harlem Junior Tennis and Education Program	Funding for educational program.	New York NY	\$500
One Hundred Black Men, Inc.	Our flagship program is the OHBM Junior One Hundred Program's mentoring and scholarship initiative (OHBM-JOH). The initiative provides mentoring services intended to support Black and Latinx scholars of different age groups and disciplines from underserved communities. The OHBM-JOH mentoring program offers structured weekly one-on-one and virtual mentoring to students.	New York NY	\$500
Alzheimer's Foundation of America	AFA recently acquired property at 149 Schlegel Blvd., Amityville, NY 11701 and will convert the property into an Educational Resource Center which will provide respite programs for individuals with Alzheimer's or related dementias, in addition to educational dementia training for caregivers and healthcare professionals. Providing caregivers tools and best practices that will allow those living with dementia to stay independent in their homes longer; lowering overall care costs and delaying placement in more costly institutional settings.	New York NY	\$100
New Alternatives for Children, Inc.	New Alternatives for Children (NAC) is an innovative child welfare agency serving birth, foster, and adoptive families caring for children with complex medical, mental health and developmental needs. NAC is requesting \$505k to provide chromebook-like devices and headphones for tele-mental/ telehealth for children and families receiving services through NAC's licensed Comprehensive Healthcare Center (CHC) and Children & Family Treatment & Support Services, which provide medical/ mental health services. The request includes funding for staff laptops to practice telehealth remotely, and a server to meet NAC's technological needs.	New York NY	\$505
Terence Cardinal Cooke Health Care Center	Terence Cardinal Cooke Health Care Center (TCC) is a safety net provider of care for 613 low-income New Yorkers and with more than 700 employees, an economic engine in the East Harlem community. TCC will gut renovate 27,500 square feet of space to house a Program of All-Inclusive Care for the Elderly (PACE) that will serve up to 500 Manhattan seniors. PACE is an alternative to nursing home placement for seniors, ages 55 years and older. It's a unique model of care that knits together the medical care and social services vulnerable seniors need to live safely at home, avoid hospitalizations and delay or forgo nursing home placement. The project reimagines senior center design and creates a space where seniors will be able to sit and chat in the park-like town center, catch a film at the movie theatre, play dominos in the game room, have a sandwich at the coffee shop, and more. In addition, the site will include a state-of-the-art clinic to deliver primary medical care to participants.	New York NY	\$1,000

NYC Mayor Office of Media and Entertainment	Federal funding is requested to expand the Freelancers Hub into satellite locations in the Bronx and Queens.	New York NY	\$500
AIDS Service Center of Lower Manhattan, Inc.	PATH to Jobs: Peer Alliance Towards Health & Jobs is a cost-effective, high impact investment of taxpayer funds in workforce innovation that will increase the number of low-income New Yorkers who obtain vocational training and job placement opportunities in health and social service agencies across New York, support them in their trajectory from dependence on public benefits to economic mobility and independence, and strengthen our healthcare system in addressing health disparities and access inequities exposed and exacerbated by the COVID-19 pandemic.	New York NY	\$1,000
Best Buddies International, Inc.	The Best Buddies in New York Inclusion Project will create more inclusive school communities in New York by removing barriers to meaningful social interactions between students with intellectual and developmental disabilities (IDD) and their typical peers through one-to-one friendships, inclusive group activities, and leadership training. Funds will support 81 Best Buddies middle and high school chapters which will involve a minimum of 1,800 students statewide.	New York NY	\$400
National Guild for Community Arts Education	The National Guild for Community Arts Education (Guild) requests funding to support professional development, technical assistance, and field-building services for New York State's nonprofit creative aging practitioners to ensure adults 55+ have access to high quality arts education, also known as Creative Aging. In addition, the Guild seeks to offer a regranting program to New York State nonprofit organizations that are providing or planning to launch Creative Aging services.	New York NY	\$81
Columbia University	This program is designed to both train local high school students in small business bookkeeping basics and help them launch their own bookkeeping businesses as well as respond to the urgent need of local small businesses for trained bookkeepers.	New York NY	\$134
City College of New York / City University of New York	At the intersection of education and opportunity, the Rangel Center for Infrastructure Workforce Development will equip historically underserved communities with analytical and operational skills through innovative curriculum, simulation-based training, and experiential learning to help them prepare for career paths in the rapidly changing infrastructure sector.	New York NY	\$1,500
God's Love We Deliver, Inc.	Requested Funds will be used to develop a new Client Relationship Management (CRM) technology system, which is crucial to the continued efficient operation of Gods Love We Deliver and to organization growth. With a new CRM Gods Love will: reach more vulnerable people with medically tailored meals and nutrition education; reduce healthcare utilization and costs for a high use population; reduce the time from first client contact to first meal delivery; and obtain the evidence to support expanded healthcare reimbursement and private funding for the medically tailored meal intervention.	New York NY	\$760
Office of Arts and Special Projects, New York City	Requested funds for Lift Every Voice NYC will be used to provide Saturday music instruction to NYCDOE students (Grades 4-12 from all five boroughs) in the areas of songwriting, piano, guitar, and modern band and to offer small group coachings and music learning modules that support student musicians as they emerge from pandemic-related learning loss in music and the lack of music performance opportunities. Funding will be used to compensate teachers and professional performers/teaching artists for providing instruction and coachings to students as well as to purchase music supplies and equipment needed for instruction and rehearsal.	New York NY	\$250
Weill Medical College of Cornell University	Research equipment for WCM infectious disease laboratory at the William Hale Harkness Building.	New York NY	\$1,106
National Urban League, Inc.	Each New York State Urban League affiliate will receive between \$75,000 - \$125,000 through the National Urban League, Inc. (NUL) to perform a combination of the following: a) convening meetings with youth, employer partners, education/training partners, America Job Center, and other workforce ecosystem members; b) digital literacy training for staff; c) developing or acquiring technology to bolster remote engagement (apps, website, data tracking system, etc.); d) cover the cost of remote training for participants; e)	New York NY	\$738

engagement activities (social media, broadcast, publications, etc.); f) developing a Youth Advisory Council; g) securing a subject matter expert to help augment program offerings; or h) any other activity that strengthens or broadens an affiliate's ability to engage youth. Through this grant New York State Urban League Affiliates will be able to adjust youth and young adults intervention program offerings through capacity building activities (staff training, equipment obtainment, engaging new employer partners, etc.) or through a program planning grant (recruitment, program engagement design, youth advisory council, etc.) of existing youth programs through the U.S. Department of Labor's Employment and Training Administration's Workforce Innovation and Opportunity Act demonstrations authority.

SoHarlem	Starting in October, 2021, this project will implement and evaluate a one-year demand-driven apprenticeship pilot program designed to enable 20-30 under/unemployed Upper Manhattan residents to take advantage of job opportunities in the garment industry.	New York NY	\$461
Vision Urbana, Inc.	Requested funds will sustain food security program for low-income people.	New York NY	\$300
New York City Economic Development Corporation	Queens FEASTS is a free 12-week program that provides knowledge, tools, and resources to those who are interested in starting their own food business. Offerings include: - Food Entrepreneurship Curriculum - Entrepreneurship counseling - Access to vending opportunities - Dedicated support for program graduates	New York NY	\$236
Teach For America	To address the teacher shortage in STEM subjects, funds will be used to recruit, train, support and retain high-quality underrepresented teachers in STEM subjects to serve in disadvantaged classrooms in New York City and Buffalo.	New York NY	\$1,000
The Jackie Robinson Foundation	The Jackie Robinson Foundation (JRF) needs federal funding to complete the Jackie Robinson Museum, which will be located in NY City. The Jackie Robinson Museum will chronicle Robinson's heroic achievements both on and off the field and will promote humanitarianism and provide strategies for how to move our society forward, particularly around race relations. This will be accomplished through immersive exhibitions and cutting-edge programming, on site and online.	New York NY	\$3,000
New York University	STEM expertise is currently the most in-demand set of skills in national and international labor markets and is the major driving force that impacts the United States competitive position and the social, economic and physical health of its people. Our program is aimed at increasing diversity, equity, and inclusion in STEM, which is proven to positively impact STEM innovation by expanding the intellectual capital and creating new analytical perspectives that can be applied to cutting-edge research.	New York NY	\$650
New York University	The NYU Prison Education Program (PEP) strives to uphold the broader mission of New York University to act as a private institution working in the public interest. An outgrowth of this commitment, our research program, is directed toward training formerly incarcerated students in a range of social science methods in order to investigate the scope of the direct impact and collateral consequences of mass incarceration on our city and state, and to formulate community-engaged solutions to the historic crisis it has engendered. This year-long community research project proposal seeks to engage a wider and more diverse tax-paying public with our research model and findings, by partnering with public and private institutions--including community-based non-profits like finEQUITY, the city-wide network of public libraries--and by conducting a series of neighborhood forums.	New York NY	\$307
New York City Mayor's Office of Immigrant Affairs	We propose a \$160,000 investment in immigration case management technology for small community-based immigration legal service providers in New York's underserved and hard-to-reach immigrant communities.	New York City, New York County NY	\$160
New York City Mayor's Office of Immigrant Affairs	Funding will be used for coordinator positions and related operational costs to oversee access to health, mental health, and other critical services for migrant children who have been released from federal custody to family or other sponsors in New York City. Operational costs will include development of outreach materials, interpretation/translation, and other outreach event costs.	New York City, New York County NY	\$500

New York City Mayor's Office of Immigrant Affairs	Staffing and operational expenses for community education and connections to social services. Project funding will be used primarily in direct staffing for this project.	New York City, New York County NY	\$396
New York Community Hospital	Requested funding is for renovation and demolition, site development, temporary utilities, planning consultant fees, and architect/engineering fees.	New York City, New York County NY	\$980
Dance Project of Washington Heights, Inc.	Our community project proposes the development of a new Bilingual Music Movement curriculum for children ages 0-4.	New York City, New York County NY	\$30
Yeshiva University	The Kathryn O. Greenberg Immigration Justice Clinic ("the Clinic") is an academic legal training clinic of U.S. immigration law at the Benjamin N. Cardozo School of Law at Yeshiva University ("the Applicant"), a 501(c)(3) not-for-profit institution of higher learning. The requested funds would contribute to the operational costs of the Program.	New York City, New York County NY	\$500
Niagara University	Niagara University seeks federal funding of \$998,500 to partially offset design costs (A/E fees) associated with a 45,000 sq. ft. building expansion to the B. Thomas Golisano Center for Integrated Sciences, a facility that was completed in 2013 with Gold LEED certification. Consistent with growth in enrollment and study in biology and chemistry, the proposed expansion would bring together faculty and students in mathematics, psychology and nursing disciplines, under one roof, in state of the art laboratories that will foster innovation, collaboration, and enhanced integrated research opportunities.	Niagara University NY	\$998
Rockland County Pride Center Inc.	To meet a gap in services in health care to the Hudson Valley LGBTQ+ community, the Rockland County Pride Center and Montefiore Nyack Hospital are collaborating to construct new outpatient facilities at our main campus and leased facilities.	Nyack NY	\$1,500
South Nassau Communities Hospital d/b/a Mount Sina	Funds will be used to renovate and convert the existing office space and will enable the integration of care and the crossover of visits where patients are getting primary and behavioral health services in one location.	Oceanside NY	\$1,000
State University of New York College at Old Westbu	The central focus of this proposal is the creation of an inclusive science, technology, engineering, and mathematics (STEM) career preparatory center at SUNY Old Westbury: The Old Westbury STEM Center for Engagement, Entrepreneurship Inclusion (OW-STEM). OW-STEM aims to engage students from underrepresented backgrounds, on campus with one of the most diverse student bodies in the nation, in STEM-related fields to set them on a trajectory towards successful STEM-oriented careers.	Old Westbury NY	\$1,870
New York Institute of Technology	New York Institute of Technology seeks partial support to renovate and upgrade the Wisser building at its LI campus through the creation of five therapy and training labs as well as flexible spaces.	Old Westbury, Nassau County NY	\$725
New York Institute of Technology	NYIT seeks funding support to strengthen its biomedical research capabilities.	Old Westbury, Nassau County NY	\$3,900
Hartwick College	With this project, Hartwick College will improve the quality of postsecondary education and the economic vitality of the region. Hartwick College generates an estimated \$123 million in total economic impact in New York's Mohawk Valley region.	Oneonta NY	\$235
Access: Supports for Living Inc.	Providing adolescents a resource to get support for stress, anxiety, and other behavioral health concerns promotes their wellbeing and resilience.	Orange NY	\$170
Dominican College	To purchase a new mobile unit.	Orangeburg NY	\$950

Oswego Health	Oswego Health is seeking \$250,000 to renovate the lobby of the Oswego Hospital. The redesigned and renovated lobby will offer an updated, welcoming, and safe space as patients and visitors enter Oswego Health. It will improve patient registration procedures, hospital navigability, visitor experiences, and overall security.	Oswego NY	\$250
Oswego Health	Oswego Health is seeking \$1,000,000 for primary care and ancillary services to a dilapidated site in the City of Oswego, New York State. This project is being undertaken in partnership with ConnexCare, a federally qualified healthcare center.	Oswego NY	\$1,000
Brookhaven Memorial Hospital Medical Center DBA LO	Funds will assist the Hospital in expanding the Hemodialysis Service Line from 24 chairs to 36 Chairs.	Patchogue NY	\$5,500
Brookhaven Memorial Hospital Medical Center DBA LO	Funds will allow the Hospital to develop the Former John J Foley Nursing Home, a 14 acre, 180,000 site. The current plan for the building is to have multiple types of health care services for the Community, including nursing home beds, assisted living beds, and substance abuse beds.	Patchogue NY	\$65,000
Brookhaven Memorial Hospital Medical Center DBA LO	CURRENTLY OUR HOSPITAL IS WITHOUT AN OUTPATIENT MRI AND AN OUTPATIENT CT SCANNER. GIVEN THE IMPACTS OF COVID-19, OUR COMMUNITY MEMBERS NEED TO HAVE THE ABILITY TO COME TO OUR HOSPITAL AND HAVE OUTPATIENT SERVICES FOR AN MRI AND A CT SCANNER.	Patchogue NY	\$8,500
Brookhaven Memorial Hospital Medical Center DBA LO	The Hospital is looking for Capital to Purchase a surgical ROBOT.	Patchogue NY	\$4,500
Brookhaven Memorial Hospital Medical Center DBA LO	Currently the Hospital has 2 Shelled Clinical Spaces for the Expansion of our Cardiovascular Service Line. The Hospital is looking to complete the shelled space into clinical space.	Patchogue NY	\$14,500
Brookhaven Memorial Hospital Medical Center DBA LO	In 2017 the Hospital opened our Knapp Cardiac Care Center. Our Center has State of the Art Operating Rooms, however they are not Multi Functional. Therefore, the Hospital would like to create 2 HYBRID Operating Rooms with Inter Operative Imaging.	Patchogue NY	\$24,500
Champlain Valley Physicians Medical Center	Champlain Valley Physicians Hospital (CVPH) Medical Center, dba The University of Vermont Health Network - Champlain Valley Physicians Hospital, will use this funding to replace an antiquated and unreliable generator to ensure continuity of essential patient care in the event of natural disasters and 21st century threats. Due to the magnitude of the cost and ongoing financial challenges, CVPH has not had the resources to replace this generator for a number of years, increasing the elements of risk and presenting urgent need for government financial assistance.	Plattsburgh NY	\$5,000
Clarkson University	Clarkson will expand (45,000 sf) and renovate (110,000 sf) of its Science Center as well as associated Center for Health Solutions & Entrepreneurial Science facilities to support increased research needs (research laboratories) and capabilities (laboratory equipment) essential to Clarksons Lewis School of Health Sciences and related medical programs. With advances in information technology - visualization, modeling, artificial intelligence - driving dramatic changes in education and research, new medical and other research laboratories & learning spaces are critically needed to accommodate the growth of Clarksons health sciences education programs as it has partnered with healthcare systems located throughout New Yorks North Country where rural communities have limited healthcare access.	Potsdam NY	\$10,000
St. Lawrence Health System - RRH	In addition to the myriad benefits nursing education provides with regards to strengthening the quality of healthcare services overall, filling workforce gaps, and addressing the backlog of prospective RN students currently on long waiting lists, it also acts as a powerful anti-poverty intervention. Students who complete their RN go on to earn an average of \$20,000 more annually, an income boost that is powerful enough to lift many individuals and families out of poverty and vastly increase their household disposable income. This increase in career status and quality of life often translates to a decreased dependence on public assistance programs (SNAP, TANF,	Potsdam NY	\$500

	etc.) and a stronger local economy, benefits which are passed-on to taxpayers in our community.		
MidHudson Regional Hospital	MidHudson Regional Hospital (MHRH) is seeking \$1 million in Congressionally Directed Spending for Phase 1 renovations for WMCHealth's Center of Excellence for Behavioral Health. Phase 1 renovations for the Center of Excellence will create modernized Patient Activity and Patient Support spaces, expand Detox Medical Rooms, add an additional exam room, as well as new patient ADA bathrooms.	Poughkeepsie NY	\$1,000
DAY ONE Early Learning Community, Inc.	This funding will support DAY ONE startup costs for our Teacher Apprenticeship Program, Parent & Community Programs, research and evaluation, and related operational expenses.	Poughkeepsie NY	\$1,230
Sunnyside Community Services Inc	Sunnyside Community Services (SCS) Safety, Learning, and College Access Program will be delivered at the Woodside Houses Cornerstone community center, a public housing-based community center in Woodside, Queens. Supporting 70 young people who are primarily low-income people of color, the project will provide a pathway towards academic success and self-efficacy as youth emerge from the social isolation and learning loss of the covid-19 pandemic.	Queens NY	\$100
New York Edge, Inc	Funding will be used to help after school program to expand services beyond NYC to neighboring counties.	Queens NY	\$1,128
New York Edge, Inc	Funds will support ongoing, direct service activities that will reach an additional 640 New York City youth in grades 9-12, representing all five boroughs, from low-resourced communities with enhanced opportunities for learning, supports for attending and completing high school, and programs to prepare them for career and college pathways after graduation and post-pandemic. Additionally, funds will assist with operational support to cover costs related to supply and equipment purchases, recruitment and training of staff, increased capacity for outreach to families, student internships, and pre-payment for college visits.	Queens NY	\$1,727
Northern Dutchess Hospital of Nuvance Health	Northern Dutchess Hospital of Nuvance Health respectfully requests \$300,000 from the HHS-HRSA Health Facilities Construction and Equipment account to replace outdated patient safety and monitoring equipment in its Neugarten Birth Center.	Rhinebeck, Dutchess County NY	\$300
The Jamaica Hospital	The requested funds would be used to cover construction costs related to expanding the Jamaica Hospital Medical Center's critical care bed capacity by adding 6 new beds to accommodate the rapidly rising volume of ED, trauma, and stroke patients seeking care at the hospital. The hospital currently has 26 critical care beds, which is not sufficient to meet current patient volume, particularly during the COVID-19 pandemic.	Richmond Hill NY	\$994
The Jamaica Hospital	This project will cover the cost of constructing space to accommodate two new state-of-the-art MRI machines: one to replace the ED's aged 1.5T magnet, and another new 3T magnet to help address current access issues.	Richmond Hill NY	\$1,500
The Place for Learning dba Long Island Science Cen	The Long Island Science Center is seeking support for the investment of federal funds to support mission-critical endeavors to support the United States diverse and robust workforce competitive edge (both youth education and adult job retraining) through the implementation of age-appropriate curriculum for youth and their families to develop critical workforce training skills. Using the lens of Long Island History of Innovation, we seek to support regional educational capacity for our diverse entrepreneurial youth to become leaders that are competitive in the new world order of technology and advanced sciences. Located in Riverhead, Suffolk County, New York, the Long Island Science Center was incorporated in 1995 as The Place for Learning and is a 501(c)3 STREAM (Science, Technology, Research, Engineering, Arts & Mathematics) Learning Museum with a mission to prepare young people for the challenges of a 21st-century economy built on advanced technology and innovation. Ecological changes, pandemic response efforts, food security, energy use and other modern global challenges require innovative use and application of technology, design, experimentation, self-expression, creativity, and collaboration in the areas of Artificial Intelligence (AI), Robotics, Advanced Manufacturing, Cyber Security, Quantum Computing, Green Energy	Riverhead NY	\$1,000

Technology, Citizen Environmental Science and Agritech.

City of Rochester - Rochester, NY	The requested grant will fund the one-time purchase of motor vehicles and communications equipment for use by the unit when responding to emergencies and providing direct services to victims of crimes, people in crisis, and their families.	Rochester NY	\$220
Community Partners for Youth Big Brothers Big	Big Brothers Big Sisters of Greater Rochester has a wait list of 400 youth in Monroe County/City of Rochester that are at risk of dropping out of school and wanting to be matched with an adult mentor. The requested funds of \$50,520 would be used to pay for the current staff at BBBS responsible for enrolling and training more mentors to accommodate youth for our one-to-one proven after-school mentoring program.	Rochester NY	\$50
Vertus Charter School	Vertus Charter School is a free, nonprofit public high school for 288 young men ages 14-19, most of whom live in poverty and are at risk of not completing high school. Because Vertus offers a high level of guidance, support from specialized academic intervention staff and teachers than a typical school, the requested funds will be applied to the salaries of the teaching staff at the school, which is \$3,159,780.	Rochester NY	\$60
EnCompass: Resources For Learning	Funds will facilitate evidence-based prevention services for 2,400 Rochester, NY, children and their family members during FY 2022. EnCompass targets underserved families with whole-child, pre-kindergarten through post-high school educational programs, and wraparound service-layering, including: academic intervention, wraparound supports, college and career readiness, job training and placement, and community resources connection.	Rochester NY	\$450
Children's Institute, Inc.	Get Ready to GROW (GROW) seeks catalytic funding to address inequities worsened due to COVID-19 and strengthen partners by increasing local capacity and expertise in low-income and rural areas throughout the nine-county Finger Lakes NY Region. GROW enhancements, including virtual and mobile screening unit-based services, will increase child development opportunities by improving: a) access to parent supports, technical assistance, technology and tools to understand, leverage and connect with public and private resources, b) cultural- and family-centered ways to coordinate needs with services, c) data quality, use, interoperability and evaluation.	Rochester NY	\$511
Trillium Health, Inc.	Trillium Health is requesting funding for capital improvements to increase primary care services to include an on-site urgent care center, pediatrics and sexual health services at its Monroe Avenue Article 28 clinic.	Rochester NY	\$374
Rochester Institute of Technology	Rochester Institute of Technology (RIT) is seeking federal support to update and expand its cleanroom research facility dedicated to making and analyzing microelectronic devices and microsystems. In addition to supporting the work of dozens of individuals and companies conducting cutting-edge semiconductor research in the Finger Lakes region of New York, the facility will serve as a backdrop for the education of the next generation of engineering talent for the semiconductor industry.	Rochester NY	\$4,400
Rochester Institute of Technology	Requested funding will be used for education, materials, and tuition assistance for under- and unemployed workers, transitioning veterans and students from underrepresented populations.	Rochester NY	\$1,500
AutismUp, Inc.	This project seeks to offer to families living with autism who have been marginalized due to economic disadvantage, the services and supports of AutismUp at the Golisano Autism Center- including information and training for parents and caregivers, skill building, social, fitness and recreation programs, and Family Navigation services - in a way that is truly accessible to them. The funds requested here will go for scholarships to programs, wages for new staff (autism services and programs rely very heavily on staff to teach and support) as well as a portion of occupancy costs (rent), program materials including healthy snacks and dinner, and incentives as appropriate.	Rochester NY	\$350

St. John Fisher College	Funds will help establish an Inter-Professional Education Simulation Center, a collaborative laboratory space designed to mirror the healthcare practice settings where nursing and pharmacy students will engage in collective learning and skill development. This type of training, which optimizes the development of robust collaborative and communication strategies between multiple professions, mirrors the team-based care practice environment and is essential in preparing the next generation of healthcare workers who will serve the Greater Rochester community, New York State, and beyond	Rochester NY	\$300
Nazareth College of Rochester	Funds will be used to repurpose and make technology upgrades to existing academic spaces to establish a home for the collaborative innovation lab, instructional space, and faculty offices of Nazareth College's Institute for Technology, Artificial Intelligence, and Society (ITAS), a pioneering initiative in higher education to develop future TAS leaders. The Institute provides students with skills relevant to the emerging tech economy with an emphasis on ethics, interdisciplinary, innovation, and employability.	Rochester NY	\$500
Nazareth College of Rochester	Nazareth College requests support for the extension of WiFi connectivity to outdoor zones on the Nazareth College campus to improve the quality of the educational experience for Nazareth College students and work of faculty and staff and to provide additional connectivity for community visitors. Nazareth's outdoor WiFi will eliminate a geographical restriction to a consistent, high quality connected experience.	Rochester NY	\$100
The Center for Youth Services, Inc.	Our request in support of The Center for Youth's Crisis Nursery will ensure uninterrupted crisis day care to families caregivers in need of barrier-free, immediate and culturally affirming services for babies, children and young people. Funding will support operational expenses and the ability to expand staffing, increasing access to caregivers. The Center for Youth's Crisis Nursery initiative continues to be the only program of its kind in the region to deliver emergency care to babies and children during family crises at two locations, and addresses poverty and by preparing young women and caregivers for employment. This program ensures that youth who often-times are parenting or pregnant, have access to a licensed, voluntary home environment, access to quality crisis childcare services, academic support and workforce development training all under one umbrella.	Rochester NY	\$300
Villa of Hope	Funds will be used towards implementation of a new electronic health record at Villa of Hope in Rochester, NY. We have approached this project with a focus on our mental health and substance use programs becoming more person-centered and accessible to all members of our community - not only in physical access, but in emotional access through building trust in communities of color. This trust will help improve provider-patient relationships resulting in better community health outcomes in communities of color in which we work.	Rochester NY	\$640
YMCA of Greater Rochester	The Community Services Division of the YMCA of Greater Rochester is expanding operations out of the Center for Equity at Lewis Street and providing the Youth Enrichment Program throughout 2021 and 2022. Currently, the Center is hosting 150 children each week for virtual learning cohorts (due to limited opening of Rochester City School District) as well as after-school programming for virtual and in-person students. The Center will enter the 21/22 school year with a focus on out of school time (including summer programming) in the surrounding neighborhood, as well as additional sites throughout the City and will serve more than 250 students daily. The Youth Enrichment Program will be addressing the considerable and growing achievement gap for under served children in the City of Rochester. The pandemic has exacerbated a growing crisis.	Rochester NY	\$600
Mary Cariola Children's Center	For program efficiencies and improvements, as well as opportunities to grow and accommodate more students with complex disabilities, we are seeking funding to support the construction of new school facilities that will allow us to consolidate our three (3) leased campuses onto a single campus that we own.	Rochester NY	\$40,000

Southwest Area Neighborhood Association, Inc.	To provide services and support to our target youths per education, cultural exposures and to foster life lasting skills.	Rochester NY	\$300
Agape Haven of Abundance	Funds will be utilized to purchase food for our hunger relief efforts, program development for our youth empowerment program and educational materials for community engagement.	Rochester NY	\$25
Junior Achievement of Central Upstate New York, Inc.	The requested funding will be used to complete construction of the JA Discovery Center, a scientifically-proven, state-of-the-art learning lab, and the first in New York State to be located at Kodak Center in Eastman Business Park.	Rochester NY	\$300
Rochester General Hospital	In addition to the myriad benefits that the RGCOH provides with regards to strengthening the quality of healthcare services in Rochester, filling workforce gaps, and addressing the backlog of prospective RN students currently on long waiting lists, it also acts as a powerful anti-poverty intervention. Students who complete their RN go on to earn an average of \$20,000 more annually, an income boost that is powerful enough to lift many individuals and families out of poverty and vastly increase their household disposable income. This increase in career status and quality of life often translates to a decreased dependence on public assistance programs (SNAP, TANF, etc.) and a stronger local economy, benefits which are passed-on to taxpayers in our community.	Rochester NY	\$500
University of Rochester	The University of Rochester (UR) new Healthcare Careers Pathway Program (HCPP) will address local workforce and community needs by supporting Rochester urban youth to gain entry level healthcare work experience, complete training programs, and attain living-wage employment. All program participants will be high school students living in the City of Rochester, which ranks third in the nation for childhood poverty. The program development of robust healthcare career pathways with embedded mentorship and professional development will focus on four occupations with local workforce shortages and increasing future need: nursing, pharmacy, clinical laboratory, and patient services.	Rochester NY	\$300
University of Rochester	Wilmot Cancer Institute (WCI), Upstate New York's largest cancer center, seeks funding for the purchase of specialized instrumentation to establish a Metabolism Shared Research Core that will enable the analysis of metabolic activity in cancer cells and support WCI's effort to recapture National Cancer Institute designation. This research equipment would support the development of novel anti-cancer therapeutics, identify new biomarkers for diagnosing cancer at the earliest possible stage when treatment regimens are at their most effective, and provide important early information concerning the success or failure of a treatment regimen, thereby informing treatment options moving forward.	Rochester, Monroe County NY	\$1,200
Baden Street Settlement of Rochester, Inc.	The funds requested in this Project will be used to make capital improvements to the buildings that make up Baden Street Settlement.	Rochester, Monroe County NY	\$561
Lifespan of Greater Rochester Inc.	The requested funds will be used to support Lifespan's Community Care Connections (CCC) service, which is proven through rigorous evaluation, to save Medicare dollars by integrating a community-based services aging program with medical systems of care. CCC breakdown silos of care and helps an increasing population of older adults avoid unnecessary ED visits and hospitalizations by partnering with physician practices and home care agencies. Eligible patients are referred for in-home social work care management and/or healthcare coordination provided by LPN nurses based at Lifespan.	Rochester, Monroe County NY	\$250
Molloy College	The Center for the Healthcare Workforce at Molloy College is a replicable workforce development initiative that will promote education, job opportunity, job growth, and career satisfaction in health-related fields and address health disparities by providing scholarships, job coaching and mental health support services to regional health systems employees working in nursing, home health care, allied health, social work, and healthcare management and help elevate targeted employees with financial need to advance in their careers, to help reduce turnover and issues of burnout and other mental health challenges particularly as a result of the pandemic. The project has exponential benefits; not only will it	Rockville Centre NY	\$1,250

	advance the current health workforce but provide new job opportunities for underserved populations recruited to fill vacancies through job recruitment efforts at mobile health clinic events helping to increase diversity among healthcare providers to be better aligned with the Long Island population; funds will be used to hire a project coordinator and job coaches; provide scholarships for Molloy credit-based degree and certificate programs (in addition to any employer tuition benefits, if accessible); individual and group mental health counseling in Molloy's Mental Health and Wellness Center; marketing/advertisements; materials and supplies.		
Young Men's Christian Association and Womens Commu	Covid-19 was devastating to our organization as we had to furlough 250/260 staff, close all 27 of our after school locations, and were shutdown for 6 months. We did receive PPP funding for both rounds, which assisted with payroll, however, we have lost 4700 of our 9,000 members and struggling to survive. The cost of our operating facilities outweighs our income as adults, children and families have been hesitant to return, or work out from home. Our Y has been in existence for 150 years. It is important we do not lose it. The funds will be used to help pay for aging HVAC units and repairs, and basic facility repairs that will help bring members back.	Rome NY	\$50
Sag Harbor Cinema Arts Center	Funds will go toward partnership activities and projects that will illuminate and expand the Plain Sight Project's work. This includes the production of a short-form document on The Project's groundbreaking work; the development of Plain Sight Project's multi-media website, including a digital heat map; interpretive signage and community commemoration within Sag Harbor and the broader East End community; an in-person and digital archival exhibit, hosted at the Cinema; curriculum development for K-12 students; and convening costs for presentations, programs and events hosted by the Cinema.	Sag Harbor NY	\$200
North Country Community College	To renovate North Country Community College's Nursing Labs.	Saranac Lake NY	\$1,800
North Country Community College	It would help address some structural inequalities that exist in rural communities. Economic and geographic conditions complicate the prospects for adult students pursuing higher education in Essex County and Franklin County. Lower educational attainment is correlated with poverty and other financial and social distresses. Those with an associate degree or higher tend to have higher incomes and higher education has been correlated with a host of pro-social outcomes which would benefit the region's families, communities, and improve employment prospects for graduates and employers.	Saranac Lake NY	\$100
Schenectady Family Health Services, Inc.	Ellis Medicine recently announced it was closing its dental practice on McClellan Street, Schenectady. Schenectady Family Health Services (Hometown Health Centers, or HHC) was asked to absorb the 9,000 patients that are seen by Ellis annually. In order to ensure that these underserved patients can be seen, we must renovate an existing 13,000 square foot building to double our capacity, from 15 operatories to 30. Once Ellis closes on June 30, 2021, HHC will be the only dental practice in Schenectady that accepts Medicaid.	Schenectady NY	\$1,000
Refuah Health Center, Inc.	To construct a women's health center of excellence.	Spring Valley NY	\$2,500
Refuah Health Center, Inc.	This project involves the construction of a permanent, state-of-the-art outpatient healthcare facility in South Fallsburg.	Spring Valley NY	\$2,000
St. Bonaventure University	\$1,447,966 for the science equipment and technology for the College of Arts and Sciences at St. Bonaventure University in St. Bonaventure, New York, to include technology for renovation of our main academic teaching building, Plassmann Hall, and high tech science equipment for the Walsh Science Center, to support our new School of Health Professions and College of Arts and Sciences.	St. Bonaventure NY	\$1,447
Common Threads	Common Threads' nutrition and culinary education programs respectfully request funding to continue to provide under-resourced New York children and families with the skills and knowledge necessary to recognize, choose, and prepare healthy meals, empowering them as agents of change for healthier families, schools, and communities. Federal funding in Fiscal Year 2022 will cover direct costs such as program management, digital education resources, cooking supplies and food for lessons, and promotional	Staten Island NY	\$250

materials. Outside of direct costs, the funding will allow Common Threads to continue programs with existing partners and also look to expand partnerships with new under-resourced communities.

The GRACE Foundation of New York	To expand the existing facility to accommodate the demanding needs for their services.	Staten Island NY	\$250
Richmond Medical Center	The requested biplane cath lab is a specialized cardiac catheterization suite in which transoesophageal echocardiography is performed. The process uses two sets of imaging sources and cameras, each free to move independently, allowing two sets of images to be taken with each injection of radiocontrast. The addition of bi-plane capability allows the neuro interventionalist to perform the best care for the complex stroke patient.	Staten Island, Richmond County NY	\$1,800
Staten Island University Hospital	Staten Island University Hospital is seeking \$2,000,000 for our new Women and Newborn Center, which aims to expand and modernize our capabilities for more at risk newborns to receive transformative care. The funds would be used for the purchase of equipment for the new facility and construction costs of the facility. If the needs for equipment cost are met, the funding received would be used for construction of the facility.	Staten Island, Richmond County NY	\$2,000
Stony Brook University	Funds to establish the operational headquarters of LINCATS including the core personnel, supplies and equipment; education and training of students, postdocs, faculty, clinicians and other health care professionals; pilot research grants to seed new collaborations between local partner institutions; extensive community outreach to support health care and health equity efforts; construction of inpatient research units at SB Hospital for the purpose of clinical and translational research.	Stony Brook NY	\$10,000
State University of New York at Stony Brook	Funds will be used for capital improvement, facilities, and equipment for the Innovation Gateway - a regional hub serving Long Island innovators to expand technology growth and workforce development. This will include renovating an existing 24,000 sq ft space made available for this project in the heart of the Stony Brook University campus and securing the core equipment infrastructure, including fabrication equipment, meeting/innovation spaces, and educational facilities.	Stony Brook, Suffolk County NY	\$9,000
Sunnyside Community Services	Sunnyside Community Services (SCS) Home Health Aide (HHA) Training Program is an innovative workforce development program that helps un/underemployed individuals, primarily immigrant women, enter a career ladder in the healthcare field. We directly employ program graduates in unionized jobs within our two affiliated home care agencies. Funds will support the free training classes, which are offered in both English and Spanish.	Sunnyside NY	\$175
Le Moyne College	The requested funds will be used to modernize, expand, and equip college facilities that provide needed mental health, health, and substance abuse services.	Syracuse NY	\$1,000
Visiting Nurse Association of Central New York, Inc.	Nascentia Health purchased the Beeches located in Rome NY with the vision to create a senior living community at the location. The Mansion House which is one of the main buildings on this property is in need of repair and renovations. This funding would allow Nascentia Health to expand on its mission to provide high quality, comprehensive home and community-based services in Upstate New York.	Syracuse NY	\$2,200
Catholic Charities of the Roman Catholic Diocese of Syracuse	Funds will support the construction and renovation required to establish the Housing Services Center's integrated on-site health and mental health services.	Syracuse NY	\$1,870
SUNY Upstate Medical University	With federal support, we will be able to renovate an existing office space and convert it into a multidisciplinary clinical care facility devoted to the diagnosis, treatment, management and research of complicated tick-borne diseases (TBDs) including Lyme disease. The scope of our center not only will include the delivery of specialized, team-based clinical care, but also will support medical provider and community education and training initiatives. Finally, our clinic will be a driver, and participant, in cutting edge research aimed at improving how we prevent, diagnose, and treat TBDs.	Syracuse NY	\$898

SUNY Upstate Medical University	Federal funds will be used to help defray the costs of renovating and equipping vacant clinical office space.	Syracuse NY	\$977
Loretto Health & Rehabilitation	In order to meet an urgent capital need, as well as the stewardship priority of upgraded facilities to provide enhanced quality of care, Loretto Health and Rehabilitation Center seeks \$1,950,000 to make needed capital improvements at its Sedgwick Heights Assisted Living Facility. Loretto took over the Sedgwick Heights facility in 2000 and to date has only completed minor upgrades and repairs. The components of this proposal will create an improved, safer environment for residents and staff by modernizing the facility's infrastructure, building systems, and living spaces.	Syracuse NY	\$1,950
Crouse Health	Crouse Health is seeking \$1,750,000 to support the renovation of unit of the hospital into 11 Airborne Isolation Rooms. These new rooms will prevent the spread of airborne diseases, such as Covid-19, tuberculosis, measles and others, and protect the health of patients and staff at the hospital.	Syracuse NY	\$1,750
Crouse Health	Crouse Health is seeking \$1.5 million to purchase 100 new, state-of-the-art hospital beds to provide better care for patients. These beds would replace older beds that the hospital can no longer source parts for and expand capacity to accommodate projected patient volumes in the future.	Syracuse NY	\$1,500
The Manufacturers Association of Central New York	The IDEAS That Fuel the Growth of High Tech Jobs in NYS Programming will provide training for the marginally employed, unemployed and those workers displaced by the pandemic. Initially targeting Central New York residents, the IDEAS Program is intended to identify individuals best suited for careers in advanced manufacturing and IT and deliver foundational training required for entry level Technician positions and entry level Software Development positions. The training is tied to immediate employment and individuals are company specific employers prior to beginning the training. Entry level technician and IT positions carry stackable credentials that are a gateway to expanding career and education pathways.	Syracuse NY	\$793
Syracuse Build Interstate 81 Jobs	Work on the \$2 billion-plus Interstate 81 Viaduct project is approaching. This project will create the Syracuse Build Urban Opportunity Youth Work Readiness Program to help young people ages 16-24 who are not enrolled in school or participating in the formal labor market get support and training to start careers in construction.	Syracuse, Onondaga County NY	\$300
NYC Health + Hospitals/Jacobi	NYC Health + Hospitals/Jacobi is fighting youth violence, a significant public health issue in the Bronx. Our Stand Up to Violence (SUV) Program is based on the idea that violence is a disease, and should be treated with methods and strategies used to fight diseases. We are requesting funding to add additional staff to the program to provide additional mental health support to our patients.	The Bronx NY	\$393
Rensselaer Polytechnic Institute	Nuclear Magnetic Resonance spectroscopy is a very powerful technique to study physicochemical and structural properties of molecules. NMR methods offer invaluable insights across a broad spectrum of applications including advanced materials, pharmaceuticals, biotherapeutics, protein engineering, drug metabolism, and metabolomics. They are also a critical component of many quality control processes including the purity and identification of contaminants within reagents used in laboratories and public health samples such as water, food, and illicit drugs. The RPI NMR facility has been instrumental in several projects with high impact on state and federal public health. These projects, conducted in the NYS Capital Region, were enabled by the 600 MHz NMR facility established at Rensselaer with funding from NYS Gen*NYS*sis program. This facility has become obsolete, NYS Gen*NYS*sis program has been discontinued, and universities, public health emergencies and industries now require system enhancement of the NMR Facility to enable a Broad Spectrum of Applications including Advanced Materials, Protein Engineering, and Drug Discovery in the NYS Capital Region. This proposed request is to enhance and expand this capability in the NY Capital Region will assist public-private partnerships and work force development areas of biopharmaceuticals, regenerative medicine and infectious disease research. Requested funds will be used exclusively to purchase the equipment that, due to the capabilities required for industry	Troy NY	\$984

research and workforce training component, is not a funding priority by federal agencies (such as NIH, NSF) under traditional research infrastructure.

Hudson Valley Community College	HVCC is seeking Congressional Funding to acquire updated technology, state-of-the-art laboratory equipment and classroom furniture for healthcare and health sciences.	Troy NY	\$1,500
Hudson Valley Community College	Hudson Valley Community College (HVCC) is undertaking the creation of a new Federal Aviation Administration (FAA)-approved Aviation Maintenance Technician School (AMTS) to be located at Albany International Airport, in Albany County, New York. HVCC will utilize the requested funding to acquire state-of-the-art aviation equipment and supplies to support the development of its Airframe and Powerplant curriculum, and FAR Part 147 AMTS Certification.	Troy NY	\$600
New York Medical College	The Public Health Equity Academy (PHEA) will develop and promulgate public health equity, bias awareness and principles of practice in underserved and marginalized communities.	Valhalla NY	\$1,920
Autism Society of America Nassau Suffolk Chapter	The funds would be used to teach cooking, food preparation, and other skills required to work in a restaurant, cafeteria, or kitchen providing food services for individuals with autism and other disabilities.	Wantagh NY	\$200
Hospice of Jefferson County, Inc.	The requested funding will be used to expand the eight bed Hospice Residence by 4 beds and add additional staff, patient and family support space. The new 4 bed addition is designed with additional acoustics and safety elements to allow admission of terminally ill patients who have dementia behaviors.	Watertown NY	\$1,500
NYSARC INC ARC JEFFERSON - ST LAWRENCE	The funds will be utilized for furniture, material and supplies, storage, literacy libraries, and an equity and diversity coordinator to enhance the purposeful play curriculum framework to include equity, diversity, and inclusion. Materials, supplies, and literacy libraries will include multicultural and diverse opportunities to include introduction and development of diverse vocabulary and cultures.	Watertown NY	\$115
NYSARC INC ARC JEFFERSON - ST LAWRENCE	The Arc Jefferson - St. Lawrence will utilize funding to update several of its residential facilities in the community, to address vital preservation needs, increase accessibility for those with special needs, update critical life safety measures, and enhance quality of life for its residents with disabilities, in both Jefferson and St. Lawrence Counties.	Watertown NY	\$346
Newark-Wayne Community Hospital	Upgrading these machines is a requirement for our licensing. Newark-Wayne Community Hospital greatly contributes to the rural area in which it is located, and generates economic activity and jobs. Adhering to their charitable missions, hospitals cover the cost of care provided to people in need; subsidize care and services to low-income, elderly, and under-served communities; and continuously invest in many community health initiatives.	Wayne NY	\$180
Long Island FQHC, Inc	The Long Island FQHC, Inc. has rented a new facility and is seeing funding to help complete the renovation of a new Health Center in the Village of Hempstead, in Nassau County NY. Funds to be used to help build out 26 exam rooms for services including Dental, Optometry, Pediatrics, OB/Gyn, Adult Medicine, Podiatry, other specialists, Behavioral Health, Nutrition, Radiology, Laboratory, Care Management and training space.	Westbury NY	\$3,500
Family Services of Westchester, Inc.	Family Services of Westchester (FSW) will use funding to support our existing restorative justice and veterans support programming. Specifically, funding will be used to cover program staff salaries, benefits, operational costs, and costs associated with assisting vulnerable community members.	Westchester NY	\$250
Westchester County	Funding request is for implementation of a dual-language entrepreneurial training and incubation program; acquisition of laptop computers and internet access for a cohort of 100 Spanish-speaking aspiring business owners.	White Plains NY	\$1,000

Emerald Isle Immigration Center	We respectfully seek \$55,000 in support for program funding to allow us to expand education and workforce development services for low income immigrant New Yorkers from our Woodside, Queens headquarters, with a particular focus on preparing them, through free tax preparation and other services, for a path to citizenship and meaningful employment. This program would register and assist 350 clients with a combination of Job Counseling and training and specific Ready for Business Training and tax assistance. Tax preparation is especially important for immigrants as reform may be on the horizon under a Biden administration and that, too, will be provided in part through a proposed partnership with the IRS VITA program. EIIC is especially versed in immigrant legal services and attracts clients citywide, and particularly in those neighborhoods of Queens hardest hit by the epidemic, to that essential service. This funding will allow for additional services being made available to those immigrants that will advance their prospects of full citizenship and meaningful, fair employment.	Woodside, Queens County NY	\$55
St Johns Riverside Hospital	St. John's Riverside Hospital seeks \$990K to renovate an old, existing labor and delivery space to a new culturally appropriate area to support positive black maternal health outcomes. Paired with ongoing anti-bias training, the renovated labor and delivery room will provide the space for additional support for the mothers through allowing the incorporation of family as well as midwives into the birthing process. The renovation of the space will support a larger effort to decrease health disparities for Black birthing women in Yonkers as well as increase the hospital's linkages to community support systems for those women, including midwives and doulas as well and other supports from the Black community. Overall this project should increase the number of Black women who choose to deliver at SJRH by 20% per month by the end of the grant period.	Yonkers NY	\$990
St. John's Riverside Hospital	St. Johns Riverside Hospital seeks \$585,000 to support a community-driven effort to address racial inequities in health outcomes in our Maternity Department, following a blueprint outlined by NYS Health Commissioner Howard Zucker in December 2020 by conducting an assessment of current institutional policies and procedures, obtaining technical assistance in the development of anti-racist policies and procedures, developing and implementing a patient experience measure designed to uplift community voice, and providing an ongoing analysis of obstetric outcomes stratified by race to assess the impact of our work.	Yonkers NY	\$585
Island Harvest, LTD	Island Harvests Workforce Development Institute will prepare and place under- and unemployed workers into long-term employment through training, education, long-term job coaching and follow-up support throughout the employment process. The requested funds will support program equipment, supplies, and program staff.	melville NY	\$1,000
Gay Men's Health Crisis, Inc	GMHC proposes to increase the capacity of its mental health treatment services to address the increase in need for mental health services resulting from the COVID-19 pandemic. The proposed project will support the addition of three staff (a full-time senior director of mental health and substance use services, a part-time psychiatrist, and a part-time psychiatric nurse practitioner) to meet this increased need remotely and later this year in-person when we anticipate our facility will reopen.	new york NY	\$200
Oswego Health	Oswego Health is seeking \$500,000 to create a new radiographic and fluoroscopy room in Oswego Hospital which will improve care across the health system in Oswego County, New York. This investment would fund the purchase of new equipment and the construction costs associated with building out this room.	oswego NY	\$500
Beyond the Sanctuary, Inc.	The Job Readiness Support Program (JRSP), working with its collaborative partners, has as its goal to ensure that our Participants get a job and keep the job long-term. We will provide comprehensive Unique Wrap-Around Support Services, which will enable our target population (the unemployed, underemployed, hard to employ, primarily African American and other disadvantaged populations) to become thriving, self-sufficient, working adults. Upon successful completion of the JRSP Program, participants will have: successfully fulfilled specific skill/career field requirements; enhanced life skills/personal development attributes to be successful in the workplace; gained skills/knowledge in managing health issues and employee health benefits; and will have completed a full year of continuous employment.	rochester NY	\$500

Beyond the Sanctuary, Inc.	As a community-based organization located in one of Rochester's poorest neighborhoods, the requested funds will be used to address mental health and substance abuse issues dramatically worsened by Covid-19.	rochester NY	\$300
Golisano Autism Center	To construct a healthcare and therapy clinic.	rochester NY	\$250
SUNY Upstate Medical University	Federal funds would be used to help secure the additional space, providers, training and programming needed to bring all of Upstate's existing suicide prevention initiatives into a fully-functioning and comprehensive center, allowing us to serve an additional 600 at-risk youth and young adults each year from at least 50 school districts across Central New York.	syracuse NY	\$1,100
SUNY Upstate Medical University	Using a combination of self-funding, contributions from local businesses and donors, and federal funds, SUNY Upstate Medical University will purchase the equipment and supporting material to implement a Smart Hospital and Remote Health Care initiative, whereby thousands of Upstate patients' individual health markers will be monitored real-time and at home via wearable, HIPAA-compliant medical technology. In addition, Upstate will build upon its initiative to be one of the first academic medical centers in the world to develop contactless medical drone and related robot technology to transport lab samples, medication, medical devices, and medical supplies between health care facilities, remote areas, and other sites.	syracuse NY	\$844
