

United States Senate

WASHINGTON, DC 20510-3203

March 31, 2023

The Honorable Patty Murray
Chair
Senate Committee on Appropriations
Washington, D.C. 20510

The Honorable Susan Collins
Vice Chair
Senate Committee on Appropriations
Washington, D.C. 20510

The Honorable Jeff Merkley
Chair
Subcommittee on the Interior, Environment,
And Related Agencies
Senate Committee on Appropriations
Washington, D.C. 20510

The Honorable Lisa Murkowski
Ranking Member
Subcommittee on the Interior, Environment,
And Related Agencies
Senate Committee on Appropriations
Washington, D.C. 20510

Dear Chair Murray, Vice Chair Collins, Chair Merkley, and Ranking Member Murkowski:

I certify that neither I nor my immediate family has a pecuniary interest in any of the congressionally directed spending items that I have requested in the Fiscal Year 2024 Interior, Environment, and Related Agencies Appropriations bill consistent with the requirements of paragraph 9 of Rule XLIV of the Standing Rules of the Senate.

Thank you for your consideration of these important requests.

Sincerely,

Charles E. Schumer
United States Senator

**Schumer, Charles(D-NY) Interior and Environment
Congressionally Directed Spending Requests**

Recipient Name	Project Purpose	Project Location	Amount Requested (\$000)
City of Cohoes	The funds requested will facilitate the much-needed transformation of the dilapidated water system serving not only Cohoes but also Waterford, Colonie, and Green Island, NY, into a reliable and efficient network through cutting-edge design and construction renovations.	Albany County NY	\$875
Village of Ravena	The requested funds will be used to fund a capital improvements project that will rehabilitate and replace aging drinking water treatment and distribution infrastructure throughout the Village of Ravena's drinking water system.	Albany County NY	\$3,000
Village of Angelica	This Village/Town of Angelica joint project will replace critical water infrastructure that is experiencing age-related deterioration to ensure safe and reliable drinking water is provided to the Angelica community.	Allegany County NY	\$3,500
Village of Andover	The project would construct critical water system improvements including the installation of new water main, controls and system monitoring equipment, a booster pump station, rehabilitation of an existing well treatment building, and construction of a spring new water treatment system.	Allegany County NY	\$2,000
Town of Friendship	The proposed drinking water system improvements project will include the construction of a new water storage tank and the replacement of several sections of water main to address various age related deficiencies and violations noted by the local health department.	Allegany County NY	\$2,200
Town of Chenango	The requested funds will be used for improvements to the Town of Chenango's Northgate WWTP as required to meet US Environmental Protection Agency and NYS Department of Environmental Conservation permit requirements to reduce phosphorus loading to the Chesapeake Bay.	Broome County NY	\$5,000
City of Salamanca	Federal impact aid for the City of Salamanca due to lost tax revenue.	Cattaraugus County NY	\$1,000
Town of Randolph	This project will include the construction of various upgrades to the Town's Wastewater Treatment Facility, including the addition of effluent disinfection and the replacement of various antiquated assets.	Cattaraugus County NY	\$2,000
Village of South Dayton	The Village of South Dayton proposes to undertake a stormwater management system improvement project that will help manage, reduce, and treat runoff through the replacement of critical and antiquated existing stormwater culverts and facilities.	Cattaraugus County NY	\$500
Village of South Dayton	The Village of South Dayton sanitary sewer system and wastewater treatment plant are in need of upgrades due to age-related deterioration and updated New York State effluent treatment requirements. Funding this project will improve the health of the Conewango Creek watershed.	Cattaraugus County NY	\$263
Village of Portville	This project will provide several critical upgrades to the existing Portville water system including rehabilitation of water treatment infrastructure, water storage tank upgrades, water main replacement, security and control upgrades, and various other improvements to meet current standards.	Cattaraugus County NY	\$3,000
Cayuga County Water & Sewer Authority	The Cayuga Lake Protection Project will encompass the Towns of Ledyard and Genoa and transport the collected sewage to the nearby Village of Aurora Wastewater Treatment Plant for processing, providing many benefits to both the home-owners and the larger region which relies on Cayuga Lake for water	Cayuga County NY	\$390,000

Village of Weedsport	The requested funds will be used for improvements to the Village of Weedsport's water distribution system, including replacement of undersized and failure-prone water mains, improvements to the storage tank and rechlorination facility, and a new disinfection by-product removal system.	Cayuga County NY	\$6,000
Village of Union Springs	The requested funds will be used for improvements to the Village of Union Springs' Wastewater Treatment Plant including to general infrastructure and pumps, brush rotors, effluent disinfection systems, and solids handling systems.	Cayuga County NY	\$2,500
Town of Brutus	The requested funds will be used to extend the existing sanitary sewer collection system from the Village of Jordan to serve three mobile home parks in the Town of Brutus, along with necessary upgrades to the Village of Jordan wastewater treatment plant.	Cayuga County NY	\$11,016
Town of Owasco	This project will construct improvements to reduce inflow and infiltration into the Town of Owasco's sanitary sewer system collection system through the replacement of antiquated sewer mains and the construction of a proper storm sewer system along various streets in the Town of Owasco.	Cayuga County NY	\$3,000
Town of Fleming	Rehabilitation of Sewer system to stop infiltration. Trying to make more efficient	Cayuga County NY	\$100
Village of Sherman	The Village of Sherman proposes to undertake a stormwater management system improvement project that will help manage, reduce, and treat runoff by constructing a variety of stormwater management infrastructure including stormwater ponds/wetlands and other green infrastructure.	Chautauqua County NY	\$3,500
North Chautauqua Lake Sewer District (Chautauqua County)	This project will include improvements to the North Chautauqua Lake Sewer District's (NCLSD) sanitary sewer collection system to address age related deterioration and reduce inflow and infiltration into the collection system.	Chautauqua County NY	\$3,000
Village of Little Valley	This project will construct critical upgrades of to the Village of Little Valley's existing water system that will consist of water main replacement, rehabilitation of water treatment infrastructure, or various other improvements to meet current health standards and address system deficiencies.	Chautauqua County NY	\$3,000
The Village of Fredonia	This project would replace approximately 8000 linear feet of aging, undersized, and maintenance intensive water main with 4,550 linear feet of new water line which will improve pressures, flows, fire protection and most importantly clean drinking water quality to current and new customers.	Chautauqua County NY	\$1,000
Town of Chautauqua	The Town of Chautauqua is proposing to extend public water service to an area where existing private wells are incapable of providing enough water and the water provided is of poor water quality.	Chautauqua County NY	\$4,000
Town of Mina	This project will include various improvements aimed to reduce the pollution of Findley Lake including the construction of a large scale sanitary sewer system, construction of in-waterbody treatment practices focused on nutrient loading reduction, replacement of critical antiquated stormwater infras	Chautauqua County NY	\$4,000
Town of Clymer	The goal of this project is to construct improvements to the Town of Clymer's drinking water system, largely including the installation of a new water storage tank and the replacement of several miles of water main.	Chautauqua County NY	\$2,600
Village of Mayville	The proposed project will include the construction of new water main in the Village of Mayville to replace old, antiquated main that has experienced a significant number of breaks in recent years which have resulted in health and sanitary hazards.	Chautauqua County NY	\$3,000

Chemung County	This project will consolidate Chemung County's two aged wastewater treatment plants into a single, regional facility in order to meet upcoming state and federal nutrient requirements per the Chesapeake Bay Program. Funds will be used towards the expansion of the ultraviolet disinfection system.	Chemung County NY	\$3,800
City of Norwich	The City of Norwich will use the requested funds to repair approximately 30,000 feet of sanitary sewer piping to prevent further seepage, and non-sanitary infiltration and inflow in the system.	Chenango County NY	\$2,473
Village of New Berlin	The requested funds will be used for improvements to the Village of New Berlin's water distribution system to achieve adequate pressures and fire flows and address drinking water quality and storage deficiencies.	Chenango County NY	\$6,000
Village of Greene	Critical upgrades are needed for nearly every component of the Village's water system including water supply and treatment facilities improvements, distribution system improvements, meter improvements, storage tank improvements, and service pressure improvements.	Chenango County NY	\$4,000
Village of Bainbridge	The requested funds will be used for improvements to the Village of Bainbridge's aging sanitary sewer collection system to reduce inflow and infiltration introducing excessive flows to the wastewater treatment plant.	Chenango County NY	\$1,600
Village of Bainbridge	The requested funds will be used for numerous critical improvements to the Village of Bainbridge's water system addressing issues of supply, leaks, pressure, fire flows, water quality, and water age.	Chenango County NY	\$1,000
Town of Smithville	The Town of Smithville is seeking grant funds for the completion of a project to construct a municipal water system to serve the Hamlet of Smithville Flats in the Town of Smithville. The project intends to address quality concerns regarding existing private wells which are not in compliance.	Chenango County NY	\$1,000
Town of Chenango	The funds will be used for improvements to the Town of Chenango's sanitary collection system, including decommissioning two wastewater treatment plants (WWTPs), converting them to pump stations, and installing about 16,000 linear feet of force main connecting them to the Town's existing WWTP.	Chenango County NY	\$1,000
Onondaga County Department of Water Environment Protection	This Municipal Pump Station will provide sanitary sewer service to the White Pines Industrial Park, supporting Micron's needs for early-phase project build-out.	Clay NY	\$12,800
City of Plattsburgh	The City of Plattsburgh is seeking funding to repair the Historic Plattsburgh City Hall located along the Empire State Trail.	Clinton County NY	\$500
Village of Rouses Point	The requested funds will be used for the construction of a new state-of-the-art water treatment plant to serve the Village of Rouses Point, replacing the Village's existing treatment plant, which is over 50 years old and utilizes an outdated treatment technology.	Clinton County NY	\$3,000
Village of Champlain	This project will replace a portion of potable water main within the Village that has experienced frequent breaks.	Clinton County NY	\$1,120
The Nature Conservancy	The Nature Conservancy will upgrade existing preserve infrastructure to improve access to nature for all visitors at Silver Lake Bog Preserve.	Clinton County NY	\$657
Town of Stockport	To stabilize and failing slope that will both protect the homes at the top as well as the wastewater treatment plant below and the sewer infrastructure which traverses down it.	Columbia County NY	\$475
Center for the Arts of Homer, Inc.	This project will refurbish the 1832 former Calvary Episcopal Church of Homer, colloquially known as the Little White Church on the Green, and adaptively reuse it as the Homer Cultural Center, operating as a community center and arts venue.	Cortland County NY	\$500

City of Cortland	The project will install upgraded water, sewer collection and storm water separation supporting the opportunity for new economic growth along Homer Avenue and potential expansion at Guthrie Cortland Medical Center. The current infrastructure is at capacity with little to no room for growth.	Cortland County NY	\$2,500
Village of Homer	The requested funds will be used for improvements to the Village of Homer sanitary sewer collection system, in particular eight pump stations that are nearing the end of their useful life and in need of upgrades.	Cortland County NY	\$2,200
Village of Homer	The acquisition of a Combination Single Engine Sewer Cleaner with Hydro-Static Driven Vacuum System Mounted on a Heavy Duty Freightliner Truck Chassis to replace an older model twenty years in use.	Cortland County NY	\$300
City of Poughkeepsie, NY	The City of Poughkeepsie is requesting funds for the addition/replacement/improvement of water lines in the City's traditional commercial core, with the need to provide adequate water resources for firefighting in this densest of City neighborhoods.	Dutchess County NY	\$5,000
Village of Tivoli	The funds will be used to advance the Village of Tivoli's Wastewater Project which includes a new sewer treatment plant and upgrades to the pump station and 4.5 mile collection system.	Dutchess County NY	\$12,000
Village of Millbrook	This request is to upgrade a sewer plant which has had minimal improvements since it started over 50 years ago. The upgrade would allow the system to meet current DEC regulations and to improve the quality of discharge which flows into the Hudson River.	Dutchess County NY	\$7,000
Town of Pawling	The Town of Pawling seeks to construct an urgently needed Septic Tank Effluent Pump System (STEP) sanitary sewer system serving proposed Sewer District #4 along the Route 22 corridor.	Dutchess County NY	\$2,166
Town of Hyde Park	The Town of Hyde Park is requesting \$4,000,000 for the implementation of a centralized sewer system needed to facilitate the revitalization of our Town Center.	Dutchess County NY	\$4,000
Town of East Fishkill	The first phase includes the addition of ionization treatment and the construction of a watermain interconnection to distribute and serve water to an area of lower property values that needs clean, safe, drinking water.	Dutchess County NY	\$3,000
Town Of East Fishkill	This project will create a new water district that will facilitate ONSemi building additional semiconductor fabs and also enable at least four new major businesses to open in East Fishkill's iPark, creating over 1,500 jobs	East Fishkill NY	\$5,000
Buffalo Niagara Freedom Station Coalition	The Michigan Street Baptist Church, a historic Buffalo landmark, is currently working to transform and revitalize it for public benefit: by making structural repairs critically needed to stabilize the property and to comply with the Americans with Disabilities Act.	Erie County NY	\$850
Village of Springville	The requested funds will be used to complete critical drinking water system improvements in the Village of Springville, Erie County, New York.	Erie County NY	\$3,000
Town of West Seneca, New York	Rehabilitation of approximately 28,655 linear feet of sewer main and associated manhole rehabilitation to comply with Consent Order.	Erie County NY	\$500
Town of Elma	The Town of Elma and the Iroquois Central School District will consolidate two existing wastewater treatment plants that have reached or extended beyond their useful life,	Erie County NY	\$4,320
The Michigan Street Preservation Corporation	The Michigan Street Preservation Corporation seeks funding assistance to identify a qualified Architectural and Engineering agency that would be contracted to help in the design of an expanded museum.	Erie County NY	\$500

The SS Columbia Project	Implement Steamer Columbia Master Plan envisioning an interpretive experience focused on Civil Rights pioneer Sarah Elizabeth Ray, the Steamer Columbia's role in the early Civil Rights movement, and the maritime history of the Great Lakes.	Erie County NY	\$20,000
Town of Moriah	The Port Henry Drinking Water System has a rejection reservoir, containing hazardous materials, which has nearly reached its capacity, and without implementing a collection system, it will overflow into Lake Champlain.	Essex County NY	\$1,000
City of Batavia	The City of Batavia will replace 3,781 outdated water meters with Automated Meter Reading and Advanced Metering infrastructure to increase data collection, decrease labor costs, significantly reduce water losses, and decrease electricity usage.	Genesee County NY	\$1,476
Genesee County	Genesee County is undertaking a phased large-scale countywide water project to provide critical water security and resiliency to its residents, farms, and industries; this request supports Phase 3 of this effort.	Genesee County NY	\$3,100
Monroe County Water Authority (MCWA)	The Monroe County Water Authority seeks funds to assist construction of a new 1.63 million gallon water storage tank that will replace three existing water storage facilities.	Genesee County NY	\$3,100
Town of Darien	Town of Darien sewer district 1 transmission line installation to Village of Corfu to control Operation and Maintenance for the 140 users future expenses.	Genesee County NY	\$1,250
Genesee-Orleans Regional Arts Council	The requested funds will be used for installing a LU/LA, Limited Use/Limited Access Lift (Elevator) in the Genesee-Orleans Regional Arts Council's national historic landmarked building, the Seymour Place, formerly known as the Batavia Club.	Genesee County NY	\$173
Village of Speculator	The Village of Speculator is seeking funding for much needed improvements to its aging Village water system.	Hamilton County NY	\$2,000
Village of Ilion	Funds will be used to complete much needed upgrades in the Village's distribution system including replacement of aging water mains, a valve replacement program, a water meter replacement program, corrosion control upgrades infrastructure related to connection to the Mohawk Valley Water Authority.	Herkimer County NY	\$5,000
Village of Dolgeville	The project will include the implementation of a water meter system will result in the installation of 840 new water meters. This system will measure water for residential, commercial, and industrial users within the Village.	Herkimer County NY	\$720
Town of Herkimer	This capital construction wastewater project replaces septic systems with 9,800 feet of municipally owned sanitary sewer line connecting the Village of Herkimer's Wastewater Treatment Plant to a 46-acre commercially zoned campus in the Town of Herkimer's East Herkimer area.	Herkimer County NY	\$1,594
City of Watertown	This project would address water quality issues as outlined in the USEPA Administrative Order that the city is currently under by utilizing granular activated carbon filtration, conventional flocculation/sedimentation, and ozonation.	Jefferson County NY	\$5,000
Development Authority of the North Country	Funding in order to repair approximately 17,160 feet of 36 inch Pre-Stressed Concrete Pipe and associated manholes along its Army Sewer Line (ASL) which serves Fort Drum with 100% of its sewer capacity.	Jefferson County NY	\$6,000
Development Authority of the North Country	Funding in order to replace 13,000 feet of its Army waterline (AWL) which is at high-risk of failure, and is critical infrastructure as it is the source of drinking water for the Army installation at Fort Drum, NY.	Jefferson County NY	\$6,000
Village of Carthage	This project includes necessary improvements to the Water Pollution Control Facility jointly owned by the Villages of Carthage and West Carthage to provide reliable aeration and updated technology for efficient maintenance.	Jefferson County NY	\$1,751

Village of Alexandria Bay	This project improves the Village of Alexandria Bay's wastewater treatment plant to allow the Village to handle the current hydraulic overloading to address aging and inefficient equipment.	Jefferson County NY	\$2,500
Village of Alexandria Bay	This project includes critical upgrades to the Village of Alexandria Bay's drinking water system including treatment, storage, and distribution components to get rid of aged components and ensure a reliable system for Village users and outside users.	Jefferson County NY	\$3,000
Village of Adams	The project proposes conducting replacements of the remaining original parts of the system that date back to the 1960s, as well as implementing modern technology to minimize future leaks and increase overall efficiency.	Jefferson County NY	\$3,965
Town of Watertown	The Town is currently under Administrative Order from the US EPA to construct the proposed project which will add a loop to their water distribution system to combat potentially carcinogenic disinfection byproducts in the drinking water and replaces one of the Town's oldest sections of main.	Jefferson County NY	\$500
Town of Watertown	The proposed project provides crucial improvements to Sewer District No. 1 in the Town of Watertown, which is under consent order from NYSDEC, and will replace the Town's failing wastewater treatment facility with a new raw wastewater lift station and forcemain.	Jefferson County NY	\$1,000
Town of Watertown	The proposed project brings new water and sanitary sewer services to the Thousand Islands International Agriculture and Business Park (TI Ag Park), a new business development in the Town.	Jefferson County NY	\$1,500
Town of Cape Vincent	This funding would be used to construct Water District No. 7, which will provide residents with a safe and reliable public water supply.	Jefferson County NY	\$6,667
Town of Champion	Requested funds for this project will be used to construct a highway facilities salt storage building at the Town of Champion to minimize the amount of salt being released into nearby waterbodies.	Jefferson County NY	\$475
Town of Champion	The funding will provide new water and sewer service to vacant property in the town to directly support the construction of the new Carthage Area Hospital Consolidated Facility and adjacent lots that have economic development commitments.	Jefferson County NY	\$2,500
Town of Pamelaia	This project will provide improvements and upgrades to five (5) of the existing pump stations, install an additional force main in the area of the system where the Town currently experiences extremely high flows and surcharging, and replacement of 53 grinder pumps within the sewer system.	Jefferson County NY	\$3,991
Town of Lorraine	After years of residents suffering from poor water quality and quantity, the Town of Lorraine is proposing a project to construct a public water system to serve those most in need.	Jefferson County NY	\$3,548
Town of Hounsfield	This project will create a new Water Service Area No. 8 in the Town of Hounsfield to provide safe, potable drinking water to more of the Town's residents.	Jefferson County NY	\$10,651
Town of Henderson	The Town of Henderson will replace individual failing septic systems located on small lots in the hamlets of Henderson and Henderson Harbor with a public sewer system to improve water quality and allow for economic development and increased tourism opportunities in the community.	Jefferson County NY	\$4,900
Village of West Carthage	This project includes the replacement of the Village of Carthage's two aged standpipes with a new elevated water storage tank, replacement of the Village of West Carthage's aged ground storage tank with a new ground storage tank, and construction of a new elevated water storage tank.	Jefferson County NY	\$3,000

Village of Lyons Falls	This project is for operational improvements to the Village of Lyons Falls wastewater treatment facility currently under an order of consent to meet NYS disinfection requirements.	Lewis County NY	\$404
Town of Martinsburg	The proposed project includes the addition of a 20,000-gallon septic tank and two (2) sand bed filters to the Hamlet of Glenfield wastewater treatment plant, as well as a new UV Disinfection system and further I/I investigations.	Lewis County NY	\$1,120
City of Little Falls	If funds are awarded, they will be used to complete vital water system upgrades in order to address a NYSDOH Notice of Violation regarding unaccounted for water and to create resiliency of the system for the future	Little Falls NY	\$5,000
Livingston County Water & Sewer Authority	Project to make the needed improvements to the Cybersecurity and SCADA system that will provide the needed real time monitoring of our water and wastewater utilities, while providing the continuous cyber security needs to protect our assets on a 24/7 basis.	Livingston County NY	\$700
City of Long Beach	The City of Long Beach is requesting funding for a new 1.25-million-gallon elevated water storage tank to protect the City's supply of clean drinking water, increase the storage capacity for our water distribution system, and improve emergency preparedness.	Long Beach NY	\$4,000
City of Oneida	The requested funds will be used for process and electrical improvements within the Lake Street Pump Station to continue to reliably provide water to customers during high demand periods.	Madison County NY	\$1,916
City of Oneida	The requested funding will be used to construct a second clear well at the City's water treatment plant. This project will provide redundancy and improve reliability in the City's water system, as required by Recommended Standards for Water Works, as well as rehabilitate the existing clear well.	Madison County NY	\$1,916
Madison County	The requested funds will be used to connect the Madison County Office Complex and Otto L. Shortell Middle School, which are currently served by a number of separate septic systems and leach fields, to the City of Oneida sanitary sewer system.	Madison County NY	\$9,510
Village of Hamilton	The funding will be used to pay part of the cost to replace the Village's sanitary sewer mains located beneath Route 12B concurrently with the NYS DOT's planned reconstruction of Route 12B through the Village.	Madison County NY	\$1,000
Village of Hamilton	The funding will be used to pay for part of the cost to replace the Village's aged public water mains located beneath NYS Route 12B concurrently with the NYS DOT's planned reconstruction of Route 12B through the Village.	Madison County NY	\$1,000
Town of Sullivan	The requested funds will be used for the expansion of an existing sewer collection system to the Town of Sullivan's Bridgeport Sewer District, addressing environmental and public health issues created by inadequate private septic systems along Oneida Lake.	Madison County NY	\$2,000
Town of Sullivan	The requested funds will be used for the creation of the Whitelaw Water District in the Town of Sullivan, serving residents who currently experience water quantity and quality issues from residential wells.	Madison County NY	\$1,000
Village of Cazenovia	The Village of Cazenovia will implement improvements to Lakeland Park which is listed on the National Register of Historic Places.	Madison County NY	\$500
City of Rochester, NY	Funds will be used to design, construct and inspect the structural rehabilitation and replacement of a critical section of aged water supply transmission conduits where severe corrosion has occurred and where failure could have catastrophic impacts.	Monroe County NY	\$800

City of Rochester, NY	Funds will support an ambitious initiative to significantly increase tree stocking levels in underserved and disadvantaged communities in the City of Rochester.	Monroe County NY	\$3,500
Gates Historical Society	Funds would enable the Gates Historical Society to preserve farm history by performing necessary repairs on the existing structure making it suitable for use as an exhibit area displaying farm tools and implements and also utilizing it as classroom space for presenting programs to a diverse community	Monroe County NY	\$265
Town of Rush	The Town of Rush is seeking Congressionally Directed Spending funding for a Water District to bring public water to the town through the design and construction of approximately 35,000 linear feet of new 6" and 8" water main, valves, fire hydrants, and related appurtenances.	Monroe County NY	\$5,000
George Eastman Museum	The requested grant funding will support: (1) Repointing and restoration of the 11 original Roman brick chimneys ; (2) Repointing and restoration of 13 adjacent Roman brick parapets; (3) Replacement of wood roof railings which are essential to the historic facade of the mansion.	Monroe County NY	\$500
Mohawk Valley Collective, Inc. (formerly Historic Fort Plain, Inc.)	The Mohawk Valley Collective (MVC) seeks Congressionally Directed Spending to support our capital project to restore the historic Unity Hall for use as a community arts and cultural center within an economically distressed rural upstate New York village.	Montgomery County NY	\$500
Montgomery County Historical Society	The Old Fort Johnson NHL Critical Stabilization Project will complete the stabilization and restoration of the 1749 home of Sir William Johnson, British Superintendent of Native American Affairs for the Northern colonies, and site of numerous diplomatic conferences with Native American nations.	Montgomery County NY	\$500
Incorporated Village of Rockville Centre	This project is a rehabilitation of a 90 year old sanitary sewer pump station with interior wet well and three pumps.	Nassau County NY	\$1,600
City of Glen Cove	This project would abandon Glen Cove's existing 250,000 gallon water storage tank located at Leech Circle and replace it with a new 1,000,000 gallon water storage tank.	Nassau County NY	\$5,000
Incorporated Village of Sea Cliff	The project proposes to expand the Village's first and soon to be completed sanitary sewer connection to the Glen Cove Wastewater Treatment Plant.	Nassau County NY	\$5,000
Nassau County Department of Public Works	This project would focus on the study of Newbridge Creek and surrounding watershed area and implement recommended drainage improvements.	Nassau County NY	\$5,600
Nassau County Department of Public Works	This project would focus on the study of Massapequa Dam and its associated spillway and implement recommended improvements.	Nassau County NY	\$5,250
Nassau County Public Works	This project will replace critical infrastructure of end-of-life equipment at four pump stations.	Nassau County NY	\$11,898
Village of Port Washington North	The creation of a community playground that is specifically designed to address children with disabilities and Autism, surrounded by a 1/4 mile walking trail.	Nassau County NY	\$250
The Incorporated Village of Hempstead	Funds will be utilized toward construction costs related to Phase I of the Village of Hempstead Sewer Improvements Project within the Downtown Redevelopment Area, including approximately 6,200 linear feet of sewer pipe, 800 linear feet of side street laterals, and related constructions activities.	Nassau County NY	\$5,000
Town of North Hempstead	The Town of North Hempstead seeks \$3,445,801 to reduce the potential of aquifer and Hempstead Harbor contamination by collecting and recycling more than 60 million gallons of stormwater and greywater from Harbor Links Golf Course and the Solid Waste Management Authority's closed and capped landfills	Nassau County NY	\$3,445

Town of North Hempstead	The Town of North Hempstead seeks \$800,000 in EPA STAG funds to improve water quality in Manhasset Bay through the removal of excess nutrients and suspended sediment.	Nassau County NY	\$800
Town of Hempstead	This project will construct a Cation Exchange treatment facility to remove pollutants from the drinking water at three public supply wells in the Roosevelt Field Water District allowing the wells to meet federal drinking water standards and allow the wells to continue to meet demand to the customers	Nassau County NY	\$15,000
Town of Hempstead	Shellfish are vital to the ecologic health and water quality of New York State's waterways, equipment will be purchased to perform biannual shellfish resource assessments that will lead to improved monitoring and conservation of this natural resource.	Nassau County NY	\$103
Town of North Hempstead	With substantial restoration already successfully completed with a National Park Service, Maritime Heritage Grant and local match, now North Hempstead seeks \$500,000 in NPS Historic Preservation Funds with \$500,000 in match to stabilize the eastern side of the Lighthouse.	Nassau County NY	\$500
Town of Oyster Bay	The Town of Oyster Bay proposes to make improvements at the 550 acre JFK Memorial Wildlife Sanctuary located at TOBAY Beach, Massapequa, NY.	Nassau County NY	\$2,000
New York Shakespeare Festival d/b/a The Public Theater	Funds to restore the damaged plaster ceiling in the Anspacher Theater, a New York City and national historic landmark.	New York NY	\$500
Harlem Stage Inc.	The requested funds will be used to preserve and enhance the 130-year-old historical Gatehouse and the arts organization it houses by replacing its amp breaker boxes, purchasing security systems and lighting, and updating the theater facilities and equipment.	New York NY	\$926
National Parks of New York Harbor Conservancy	Funding will be used to conduct a strategic facility study and develop comprehensive schematic designs to serve as the framework for Federal Hall's visitor experience and reimagining of the site's programming, upholding the significance and ensuring the sustainability of this historic landmark.	New York NY	\$500
Niagara Falls Water Board	The Niagara Falls Water Board owns and operates a physical chemical wastewater treatment plant for approximately 18,000 municipal and 278 industrial users and services millions of tourists to the region annually.	Niagara County NY	\$3,000
Town of Porter	The Town of Porter is respectfully requesting funding to assist with improvements to its water distribution system by replacing select waterlines with larger diameter pipes in five areas with a total of 14,700 linear feet of pipe replacement.	Niagara County NY	\$1,017
Town of Newfane	Upgrades to the Town of Newfane Waste Water Treatment Plant to reduce pollutants and enhance water quality to the key Lake Ontario waterfront that promotes recreational opportunities and supports, grows, and procures business and tourism.	Niagara County NY	\$3,000
Town of Verona	The requested funds will assist in funding the Town's \$37 million share of the \$66 million shovel-ready regional water project currently under construction with the City of Rome.	Oneida County NY	\$3,000
NYSARC, The Arc, Oneida-Lewis	Project to maintain the integrity of the Genesee Street historical building complex, which is currently being undermined by excessive water runoff from a poorly designed parking facility behind the buildings.	Oneida County NY	\$500
City of Syracuse, New York	Several Pressure Reducing Valve (PRV) Vaults in the City of Syracuse's drinking water system are in disrepair or have reached their end of useful life and are in dire need of replacement and are essential to providing water pressure to fire hydrants and all who consume drinking water in the City.	Onondaga County NY	\$1,000

City of Syracuse, New York	Fund improvements to the sewer infrastructure in the Eastwood and Sedgwick neighborhoods, which have been prone to sewer backups and street flooding during large rain events.	Onondaga County NY	\$2,000
City of Syracuse, New York	Install new 8" sanitary sewer which will be owned and maintained by the City of Syracuse to service six residential homes that are currently tied into the same privately owned sanitary lateral that runs through residents backyards.	Onondaga County NY	\$700
City of Syracuse, New York	The City of Syracuse water distribution system has 3 failing pump and booster stations critical to the operations of water pressure for fire protection.	Onondaga County NY	\$4,100
Clear Path for Veterans, Inc.	A water project to provide a reliable and sustainable drinking water source, fire protection, and cost-effective operations and maintenance to Clear Path for Veterans' main campus in Chittenango, New York.	Onondaga County NY	\$4,000
Village of Solvay	The Village of Solvay Milton Avenue Sanitary Sewer Rehabilitation and UV Project Phase II is a Green Technology Project designed to reduce inflow and Inflow to the Onondaga County Syracuse Metropolitan Waste Water Treatment Plant.	Onondaga County NY	\$944
Onondaga Environmental Institute, Inc.	Funds for this project will be used to monitor water quality and sediment discharges in Onondaga Creek in order to provide recommendations for mitigating the Tully Valley mudboils, a phenomenon that are annually discharging hundreds of tons of sediment to Onondaga Creek, annually.	Onondaga County NY	\$297
Onondaga Environmental Institute, Inc.	Funds for this project will be used to restore 12 locations in Onondaga Creek for the conservation and restoration of the culturally, recreationally, and economically valuable brook trout.	Onondaga County NY	\$3,325
Village of Minoa	The Village of Minoa is seeking funds to rehabilitate their wastewater treatment plant, as the current WWTP utilizes equipment and infrastructure that is over 80 years old and consequently, is experiencing structural failures with their concrete tanks and equipment inefficiencies.	Onondaga County NY	\$3,500
Village of Jordan	The requested funds will be used for expansion and upgrades to the Village of Jordan wastewater treatment plant, including replacement of aging equipment and infrastructure and upgrades to accommodate increased flow from a planned collection system expansion.	Onondaga County NY	\$7,953
Village of Jordan	This project will address critical deficiencies of the Village of Jordan, Village of Elbridge, and Town of Elbridge's municipal water system including water quality, fire flow, system pressure and capacity, asbestos cement water mains, and other aging infrastructure.	Onondaga County NY	\$1,600
Village of Elbridge	This project will address critical deficiencies of the Village of Jordan, Village of Elbridge, and Town of Elbridge's municipal water system including water quality, fire flow, system pressure and capacity, asbestos cement water mains, and other aging infrastructure.	Onondaga County NY	\$1,600
Town of Tully	the Town will use these funds to replace and upgrade the entire system, including pumping infrastructure, pressure reducing valve vaults, and additional treatment.	Onondaga County NY	\$4,350
Town of Skaneateles	The Town of Skaneateles intends to construct an elevated water storage tank and pump system for the residents located within the Andrews Road Water District because the water system is failing to meet drinking water standards and there is a lack of sufficient flow for fire protection.	Onondaga County NY	\$1,858
Town of Onondaga	The project will bring public water to a residential area with failing wells that contain e-Coli & coliform bacteria.	Onondaga County NY	\$1,966
Town of LaFayette	the Town will use these funds to upgrade the system, including water storage infrastructure and additional treatment, which will provide residents with a reliable source of water and improve pressures to provide adequate fire flow.	Onondaga County NY	\$4,000

Town of Elbridge	This project will address critical deficiencies of the Village of Jordan, Village of Elbridge, and Town of Elbridge's municipal water system including water quality, fire flow, system pressure and capacity, asbestos cement water mains, and other aging infrastructure.	Onondaga County NY	\$1,600
Haudenosaunee Nationals Development Group	The Haudenosaunee Nationals Lacrosse program is a 40-year-old project of the Haudenosaunee Confederacy (Seneca, Cayuga, Onondaga, Oneida, Mohawk and Tuscarora Nations) sanctioned by the Grand Council of Chiefs to represent the Haudenosaunee in international lacrosse competitions.	Onondaga County NY	\$18,000
City of Canandaigua	Funds for engineering, purchase & installation of disinfection by-product removal system.	Ontario County NY	\$2,000
City of Canandaigua	A new pump house will be build with additional and large pumps, allowing more daily water production.	Ontario County NY	\$4,000
Town of Canandaigua	The Town of Canandaigua is requesting funds for the identified structural concerns of the Seneca Point Road culvert, built in the 1940s and needs a complete replacement due to the age and structural deterioration of the culvert.	Ontario County NY	\$1,620
Town of Gorham	The Town of Gorham is seeking congressionally directed spending to complete improvements to the Town's Water Treatment Plant to improve water quality and sustainability for the community.	Ontario County NY	\$3,500
Town of Farmington	The project addresses low pressure and flow issues in the water distribution system, and will also replace the 1-million-gallon Brickyard Road Water Storage Tank, which currently provides little to no benefit to the water distribution system due to its poor hydraulic grade.	Ontario County NY	\$3,500
Smith Center for the Arts	The Smith Center for the Arts requests funding for capital projects that will improve the accessibility and sustainability of this historic structure while preserving its beauty.	Ontario County NY	\$500
City of Canandaigua	Project will extend water plant's raw water lake intake line into deeper water.	Ontario County NY	\$2,000
City of Middletown	The requested funds will be used to replace 7,200 linear feet of aging 24-inch low pressure water transmission main along Route 211 and Wickham Ave from Tall Oaks Drive to Highland Ave.	Orange County NY	\$4,000
City of Middletown	This project will replace approximately 2,900 linear feet of extremely old and compromised 24-inch raw water main.	Orange County NY	\$3,000
Village of Woodbury	The Village of Woodbury is requesting funds for the treatment of contaminants at Well #11 in Trout Brook Field, as well as the construction of a new GAC treatment building to serve the new well in addition to Wells #8 and #12, to increase local water supply.	Orange County NY	\$3,143
Village of Goshen	This project consists of the connection of a third well to the Village of Goshen water system, which supplies water to two major economic drivers in the Hudson Valley region and New York State, to allow the Village to make other water system improvements to meet drinking water standards.	Orange County NY	\$337
Village of Cornwall-on-Hudson	Construction of new 8" water main to replace an insufficient 2" water main.	Orange County NY	\$1,413
Town of Wawayanda	Due to frequent power outages and issues with aging equipment inside the existing wellhouse, the proposed project includes the construction of a new wellhouse at the current location of the Denton Hills Water Facility.	Orange County NY	\$1,600
Town of Wawayanda	The Town of Wawayanda is requesting funding to make improvements to the disinfection system at the Robinn Meadows Wastewater Treatment Plant pursuant to the new effluent limitations set in the SPDES Permit.	Orange County NY	\$1,600

Town of Blooming Grove	The Blooming Grove Tappan Hills Water District project proposes to develop a new water supply well, water treatment facility and new storage tank to replace the existing water system that has recurring Health Department violations in the allowable contaminant level of chlorides and manganese.	Orange County NY	\$2,000
Town of Chester	Assessment and remediation work addressing ongoing inflow issues throughout the Surrey Meadows sewer system.	Orange County NY	\$2,500
Town of New Windsor	The requested funding will help the Town of New Windsor construct a new water treatment facility and storage tank at the New York Stewart Airport and a permanent granular activated carbon filter at the existing Butterhill Water Plant.	Orange County NY	\$37,000
Town of Monroe	The Town of Monroe is requesting funding to replace the water distribution system in Water District 14 and add a new well for redundancy with the goal to ensure efficiency and reliability for the Town's water users and bring the district back into compliance with current standards.	Orange County NY	\$2,248
Town of Cornwall	The proposed project will provide crucial upgrades to the existing sewer infrastructure and nearby pump station for the positive impact of public health and safety for its users due to exceedances of flows within the system.	Orange County NY	\$6,000
Village of Medina	The Village of Medina will use requested funds to rehabilitate and replace multiple critical aging sanitary sewer pump stations located to address several design, safety, and age-related deficiencies.	Orleans County NY	\$1,600
Town of Schroepel	The Town of Schroepel intends to extend the water supply system to the residents located within the Huntley Road Water District .because the private wells are failing to meet drinking water standards.	Oswego County NY	\$2,512
Town of Oswego	The construction of a sewer collection system in the Town of Oswego to serve businesses and residents along Lake Ontario adjacent to SUNY Oswego and the City of Oswego.	Oswego County NY	\$800
Town of Hastings	The Town of Hastings current effort to improve existing sewer infrastructure and expand sanitary sewer service began in 2021 and the recent Micron announcement further enhanced this need. Funds will be used to construct public sanitary sewers, expand and improve the existing Fort Brewerton wastewater	Oswego County NY	\$45,233
Town of Constantia	The requested funds will be used for the construction of a low-pressure sewer collection system to eliminate existing failing on-site private septic systems along the north shore of Oneida Lake in the Town of Constantia that are contributing to the impairment of Oneida Lake.	Oswego County NY	\$4,000
Oswego County	Oswego County will preserve the Village of Pulaski's original 1819 Courthouse, that is a source of significant civic pride and creates a livable community for residents as it houses offices, a court, DMV services, and other human services that are critical for health and safety.	Oswego County NY	\$500
Village of Pulaski	Funding is being requested to preserve a piece of Pulaski's and New York State's history, "the Arches" for current and future residents and visitors.	Oswego County NY	\$600
Village of Pulaski, New York	The requested funds will be used to resolve the problems caused by an over 100 year-old dam that is past it's life use and is now a threat to the Salmon River fishing/tourism industry that is vital to the Village of Pulaski.	Oswego County NY	\$650
Town of Oneonta	The requested funds will be used to install 7,000 linear feet of sewer and water main along West Main Street in Oneonta, New York to serve residential and commercial users and promote economic growth.	Otsego County NY	\$4,200
Town of Edmeston	The requested funds will be used for improvements to the Town of Edmeston's water supply and distribution system, addressing critical issues of water security, water quality, pressure and fire flows.	Otsego County NY	\$3,000

Town of Putnam Valley	The Town of Putnam Valley will demolish and replace the Oregon Corners Pump Station and extend the sewer main to the Lake Peekskill commercial district to enhance the station's operations, mitigate potential environmental hazards, and eliminate contamination to drinking water.	Putnam County NY	\$3,984
Town of Carmel	The Town of Carmel is requesting funds for the site work required for the construction of a new Water Treatment Plant.	Putnam County NY	\$1,481
Town of Kent	The Town of Kent will use CPF funding to complete a full design of improvements for the Lake Carmel Dam, a Class C High Hazard Dam that is in need of significant rehabilitation to ensure the safety of Kent and its surrounding communities.	Putnam County NY	\$1,237
Town of Carmel, New York	The Town of Carmel is redeveloping its Downtown area located on Lake Mahopac, a State-designated Inland Waterbody and public water supply, to support its Central Business District, residents within the CBD, and greater Carmel.	Putnam County NY	\$2,275
Louis Armstrong House Museum	Home of music icon Louis Armstrong will undergo comprehensive renovation, repair and modernization to ensure the national landmark is preserved, enabling future generations of visitors to learn about Armstrong's legacy as one of the most influential figures in American history.	Queens NY	\$500
Town of Poestenkill	This request for funding is dedicated to improvements which will address the immediate need for clean water supply to areas of the Town that have elevated levels of PFAS in the well water supply.	Rensselaer County NY	\$2,000
Troy Savings Bank Music Hall Corp.	The Troy Savings Bank Music Hall Corp. will preserve, renovate, and re-purpose the former Troy Savings Bank floor (physically located underneath the Music Hall) to bring this portion of the National Historic Landmark building, currently underutilized/defunct, back to life.	Rensselaer County NY	\$500
County of Rockland	The Influent Screenings Improvement Project should included replacing the three mechanical type bar screens which the district utilities daily, as well as upgrade the existing screenings building.	Rockland County NY	\$6,600
County of Rockland	Upgrade and replace existing sewer equipment to help the plant's efficiency. This includes addressing aging infrastructure in the solids dewatering process.	Rockland County NY	\$25,800
County of Rockland	The Sludge Thickeners Upgrade Project includes upgrading both onsite thickeners internal components that have reached their useful life expectancy. By making upgrades to the existing thickeners, this will help prolong their use and to improve functionality at the plant.	Rockland County NY	\$4,900
Rockland County Sewer District No. 1	The proposed project will help improve water quality by enhancing our methods of disposal of sewer waste into the Hudson River. Removing debris and refuse that may find its way into the sewer system reduces the risk of clogging of our plant and halting the treatment process.	Rockland County NY	\$6,600
Friends of U.S. Grant Cottage	Funds are being sought for construction of the President U.S. Grant Cottage Educational Pavilion, a new facility designed to educate the public about the life and times of the 18th President of the United States.	Saratoga County NY	\$450
City of Mechanicville	The City of Mechanicville will implement an extensive water main replacement program throughout the City to improve water quality and safety through increased fire flows.	Saratoga County NY	\$800
City of Mechanicville	The City of Mechanicville is seeking funding to continue the rehabilitation of the historic 1892 Delaware and Hudson Passenger Station which is one of only a few such stations left standing in New York State.	Saratoga County NY	\$500

Village of Middleburgh	The requested funds will be used to pay off the remainder of the Village of Middleburgh's debts associated with rebuilding/improving our municipal WasteWater Treatment Plant (WWTP), which was State mandated after flood and age-related deterioration.	Schoharie County NY	\$2,672
Village of Afton	The Village of Afton is seeking funding for necessary water system improvements which include the replacement of a severely deteriorated and non-functional spring house control building, system control upgrades and flood protection of the well source control building.	Schoharie County NY	\$2,000
Town of Richmondville	The Town will construct a municipal sanitary collection sewer system to serve the new district and pump wastewater to the nearby Village of Richmondville WWTP. The project will include approximately 15,000 LF of collection sewer piping.	Schoharie County NY	\$2,000
Village of Waterloo	This Village of Waterloo rock storm sewer replacement project will reduce flooding and increase the health and quality of life for residents and reduce the costs of future, reactionary repairs and damages.	Seneca County NY	\$3,500
Seneca, County of	The Seneca County Sewer District #1 Rehabilitation Project is structured to mitigate inflow and infiltration issues and greatly reduce structural defects in Seneca County Sewer District #1 sanitary sewer collection system.	Seneca County NY	\$1,274
Seneca, County of	The Seneca County Sewer District #2 Rehabilitation Project is structured to mitigate inflow and infiltration issues and greatly reduce structural defects of the aging system left behind from the closure of the Seneca Army Depot by the United States Government.	Seneca County NY	\$887
Town of Fayette	The Town of Fayette is seeking Congressionally Directed Spending to would create a new water district (water district #8) that will help the economic development of the Town and create a safer Town of Fayette.	Seneca County NY	\$1,500
Town of Fayette	This project will bring public sanitary sewer to households and businesses in Sewer District No. 1 by installing approximately 11.2 miles of low-pressure sewer with force main and a conventional system with force main to serve approximately 290 residential and business parcels.	Seneca County NY	\$3,500
National Women's Hall of Fame	The National Women's Hall of Fame requests funding to complete its 15+ year endeavor to restore the historic Seneca Knitting Mill, ensuring that women's stories and achievements forever have a home in the birthplace of the Women's Rights Movement.	Seneca Falls NY	\$500
Clarkson University	Clarkson University will deploy funding to develop and advance low-cost sensors for PFAS, harmful algal blooms (HABs), and microplastics.	St. Lawrence County NY	\$1,970
Town of Morristown	This project proposes repairing various aspects of Morristown's existing water distribution system, constructing a new water treatment plant, and creating a new water district to serve additional Town residents.	St. Lawrence County NY	\$9,431
Town of Massena	This funding would be used to construct a new water district in the Town of Massena to serve residents that currently have issues with inadequate or unreliable private wells.	St. Lawrence County NY	\$1,857
Town of Hermon	This funding would be used to replace the entire Town of Hermon water distribution system, including all of the Town's aging water mains and services, and provide necessary upgrades to the Town's Water Treatment Plant (WTP), source springs, and raw water supply line.	St. Lawrence County NY	\$1,270
City of Hornell	CDS funding to make improvements to the Hornell Water Pollution Control Plant, including replacement of pumps, mixers, anaerobic digester covers, and related improvements.	Steuben County NY	\$3,750

Village of North Hornell	The 1970s 12" diameter ACP main sewer trunk line serving the Village of North Hornell, Village of Arkport, Town of Hornellsville with conveyance to the City of Hornell is in poor condition and requires rehabilitation with a Cured-in-Place (CIPP) lining of the main trunk line.	Steuben County NY	\$500
Village of Canisteo	This proposed project will include various upgrades to the Village Wastewater Treatment Plant (WWTP) and sanitary sewer facilities, including the addition of effluent disinfection which is being mandated by NYSDEC.	Steuben County NY	\$4,000
Town of Islip	This project demolishes a failing sewage treatment plant, which is contaminating the surface and groundwater in an Environmental Justice area adjacent to an elementary school, and constructs a new pump station directly connecting to the Southwest Sewer District.	Suffolk County NY	\$3,978
County of Suffolk	Suffolk County seeks \$10 million in funding to support construction of sewer infrastructure in the hamlet of Deer Park and the upper Carlls River Watershed.	Suffolk County NY	\$10,000
Friends of Connetquot, Inc	This project is to construct a new fish passage that will reestablish fish passage at the site for the first time in more than 200 years providing upstream access to a 17-acre impoundment and nearly four miles of riverine habitat.	Suffolk County NY	\$1,500
Friends of Science East, Inc. d/b/a Tesla Science Center at Wardenclyffe	Restoration and preservation of a registered national significance laboratory, known as the Wardenclyffe created by the famed inventor, Nikola Tesla.	Suffolk County NY	\$1,160
Incorporated Village of Ocean Beach	The requested funds will be used to rebuild, repair and replace the sanitary and storm sewer system in the Village of Ocean Beach. Some parts of the system are over 95 years old and are no longer able to function properly, nor be repaired.	Suffolk County NY	\$124,454
Village of Southampton	To achieve local and regional goals for environmental and economic sustainability, the Village of Southampton will construct a sewage treatment plant that will treat sanitary waste generated in the central downtown business district.	Suffolk County NY	\$22,023
Suffolk County Department of Economic Development & Planning	Suffolk County is requesting \$5M to install clean water septic systems by replacing failing cesspools that discharge sanitary wastewater containing elevated nitrogen levels to the underlying groundwater that provides the sole source of drinking water for County residents and groundwater baseflow.	Suffolk County NY	\$5,000
Village of Sag Harbor	As a step towards reducing nitrogen pollution in area surface waters, the Village of Sag Harbor plans to construct a sewer system expansion to collect and convey approximately 27,008 gallons per day (GPD) of sanitary wastewater to the existing Village of Sag Harbor Wastewater Treatment Facility.	Suffolk County NY	\$3,593
Suffolk County Water Authority	SCWA proposes to extend approximately 7,500 feet of water main to connect 64 homes currently supplied by private drinking wells that have been or are likely to be impacted PFAS contamination.	Suffolk County NY	\$2,500
Suffolk County, Department of Economic Development and Planning	Suffolk County is requesting design funding to progress wastewater infrastructure to serve approximately 700 parcels of the central business district along Route 25 in Centereach and Selden that is consistent with the locally adopted 2008 Middle Country Land Use Plan.	Suffolk County NY	\$10,000
Town of Babylon	This project is to provide sewer infrastructure for an important industrial corridor in the Town of Babylon, currently the industrial corridor businesses discharge wastewater to on-site sanitary systems which discharge untreated wastewater to groundwater resources.	Suffolk County NY	\$1,000
Town of Babylon	Project will provide assistance to 56 homeowners who are mandated to install a private service line from their home to the new public water system that has been built to replace a system under a do not drink order.	Suffolk County NY	\$720

Town of Southampton	The Town of Southampton will construct a centralized sanitary treatment facility to service the entire hamlet of Riverside, which is by many measures the single most economically disadvantaged community on all of Long Island, NY.	Suffolk County NY	\$26,223
Town of Shelter Island	The Town of Shelter Island will construct a municipal wastewater treatment system that will serve eight municipal facilities located in the area of the Town referred to as the Island Center.	Suffolk County NY	\$2,493
Town of Riverhead	The proposed project involves the extension of 37,000 feet of public water main within the Town of Riverhead and the connection of 90 homes located in Riverhead south and east of the former Naval Weapons Industrial Reserve Plant at Calverton (NWIRP) to extend clean drinking water to residents.	Suffolk County NY	\$8,856
Town of Islip	The Bay Shore Marina, a multi-use recreational facility used by more than one million visitors and residents annually, has been severely damaged by storms and hurricanes and is in need of extensive repair and renovation to mitigate continuous flooding.	Suffolk County NY	\$5,000
Town of Brookhaven	The Town of Brookhaven is quickly moving to implement an \$18 Million Mastic Beach Restoration Project to rapidly advance a comprehensive, community-based program to reinforce coastal resiliency, restore environmental viability of the Great South Bay, and provide managed strategic retreat in the face	Suffolk County NY	\$5,000
Suffolk County	Suffolk County seeks \$10 million in funding to support construction of sewer infrastructure in the hamlets of Wyandanch and Wheatley Heights.	Suffolk County NY	\$10,000
County of Sullivan	Funds will be used to advance critical water and sewer infrastructure upgrades in the Sullivan County Town of Liberty to resolve existing water quality issues and allow for up to 1.4 million square feet of new commercial/industrial development along the Old Route 17 Economic Development Corridor.	Sullivan County NY	\$2,852
Village of Monticello	The requested funds will be used to replace an aging water treatment plant that is struggling to meet regulatory requirements in order to provide water to Village residents.	Sullivan County NY	\$11,000
Finger Lakes Land Trust	The Finger Lakes Land Trust is committed to increasing accessibility to nature for people of all ages and abilities and is seeking funding to create a universally accessible trail and improved public access at its Roy H. Park Preserve in Dryden, Tompkins County.	Tompkins County NY	\$250
Village of Groton	The funding is requested for the Construction of a new Influent Channel with Mechanical Barscreen, Compactor, & Grit Separator.	Tompkins County NY	\$787
Town of Hempstead	This project includes the installation of hydronamic separators, catch basin inserts, the addition of green infrastructure, and other surface runoff treatment measures for an area that currently discharges untreated storm-water in to the abutting creek that feeds Merrick Bay in Nassau County.	Town of Hempstead NY	\$4,000
Town of Ulster	Replacement of a welded steel Water Storage Tank for the Ulster Water District constructed in 1957 and past its useful life with a 450,000-gallon bolted fused glass lined tank with the required valving, supply line and SCADA controls.	Ulster County NY	\$1,440
Town of Lloyd	Project will involve an upgrade of the John Jankiewicz Water Treatment Plant (WTP), which serves the Highland Water District, situated in the Town of Lloyd, Ulster County, New York.	Ulster County NY	\$3,758
Morton Memorial Library (Pine Hill)	The Morton Memorial Library respectfully requests \$500,000 to fund the restoration of a State and National Historic Register landmark, which has been in continuous operation as a public library since its construction in 1903.	Ulster County NY	\$500

Village of Kiryas Joel	Federal Financial support for construction of the \$38,246,961 Seven Springs Road Drinking Water Treatment Facility will help establish a reliable, safe and adequate public water supply for the Village of Kiryas Joel's residents	Village of Kiryas Joel NY	\$5,000
City of Glens Falls	This project will replace more than 20,000 linear feet of deteriorating and undersized water mains to improve flow capacity and fire protection.	Warren County NY	\$5,000
City of Glens Falls	This project will upgrade failing, antiquated, and obsolete electrical systems, provide a new source of emergency backup power, improve reliability and energy efficiency at the City's wastewater treatment plant.	Warren County NY	\$5,000
Town of Bolton	The Town of Bolton is working to upgrade its aged and inadequate drinking water treatment and distribution system. Funding will ensure that a safe, clean drinking water source and system is maintained, protecting the supply for those who live, work and play in the Adirondack Community.	Warren County NY	\$433
Town of Bolton	Town of Bolton seeks \$381,000 to fill an identified funding gap identified in the Town Wastewater System Engineering Report which will allow the Town to proceed in its multi-million dollar Wastewater Treatment System Upgrade.	Warren County NY	\$381
Town of Lake Luzerne	The project is to rehabilitate the existing water storage tank and replace antiquated water mains within the Lake Luzerne Water District.	Warren County NY	\$2,000
Rensselaer Polytechnic Institute	This project at the Darrin Fresh Water Institute at Rensselaer Polytechnic Institute will use funds to build and deploy an advanced water quality sensor platform and associated models to predict and prevent harmful algal blooms in lakes and reservoirs throughout New York State.	Warren County NY	\$972
Village of Whitehall NY	Sanitary sewer collection system and wastewater treatment plant improvements to comply with a NYS Dept. of Environmental Conservation and Attorney General Office Consent Decree.	Washington County NY	\$5,500
Town of Salem	The Town of Salem is seeking funding assistance to complete final design and construction of a new wastewater collection and treatment system.	Washington County NY	\$1,000
The Village of Clyde	The Village is seeking funding to support the replacement of two critical supply well pumps to improve the water treatments plant's ability to consistently provide potable drinking water to the service area,	Wayne County NY	\$1,000
City of Yonkers, New York	The City of Yonkers CT Compliance Monitoring Stations Project will construct disinfection compliance monitoring stations at three water system entry points to ensure adequate virus and bacteriological inactivation to comply with the 1989 Surface Water Treatment Rule.	Westchester County NY	\$1,595
County of Westchester, NY	Westchester County requests \$3,242,000 for removal of 17,062 tons of contaminated waste soil. The soil that will be removed is one component of an entire perfluoroalkyl and polyfluoroalkyl substances (PFAS) remediation project.	Westchester County NY	\$3,242
County of Westchester, NY	This project will provide for the replacement of two diesel/methane dual fuel engines with natural gas/anaerobic digester gas (ADG) dual fuel engine generators, including all their auxiliary systems and appurtenances.	Westchester County NY	\$3,500
County of Westchester, NY	This project will provide for the structural rehabilitation of the Primary Settling Tanks (PSTs) as well as miscellaneous improvements throughout the plant.	Westchester County NY	\$4,000
Westchester Joint Water Works	"The requested funding will allow for the construction of a 30 million gallon per day (mgd) drinking water filtration plant to ensure approximately 100,000 Westchester County residents served by the Westchester Joint Water Works (WJWW) have access to safe drinking water.	Westchester County NY	\$133,000

Village of Rye Brook	This project will be a phased approach to rehabilitate the sanitary sewer system, which is experiencing high levels of inflow and infiltration, including the rehabilitation of aged/failing pipes and manholes, reduction of inflow and infiltration, and restoration the system's structural integrity.	Westchester County NY	\$3,500
Village of Port Chester	The Village of Port Chester is seeking funding to complete repairs to its 85 year old sanitary sewer system in order to eliminate inflow and infiltration in the most problematic areas, significantly reducing the likelihood of sanitary sewer overflows.	Westchester County NY	\$4,000
Town of Somers	Correcting multiple PFAS MCL exceedances in the Town of Somers by connecting properties in the Business-Historic Preservation District to an adjacent water system (Heritage Hills - operated by Veolia); this project involves the installation of approximately 3,200 linear feet of water main.	Westchester County NY	\$2,276
Town of Ossining	The Town of Ossining seeks to upgrade the community's water distribution system on North State Road between Chappaqua Road and Stone Creek Lane including 14 incidents over the last 5 years) that put the general public at a health risk and require expensive repairs.	Westchester County NY	\$4,136
Town of Cortlandt	The Town of Cortlandt seeks Congressionally Directed Spending for the construction of an aquatic recreational facility at the town-owned Verplanck Quarry adjacent to the Hudson River.	Westchester County NY	\$5,000
Historic Hudson Valley	Westchester County requests \$3,242,000 for removal of 17,062 tons of contaminated waste soil at the Historic Philipsburg Manor. The soil that will be removed is one component of an entire perfluoroalkyl and polyfluoroalkyl substances (PFAS) remediation project.	Westchester County NY	\$500
National Trust for Historic Preservation (dba Lyndhurst)	Lyndhurst requires extensive restoration & conservation of its roofing system and masonry pointing to protect it from active water ingress which is damaging the exterior of the mansion and destructive to the historic furnishings and original decorative elements inside.	Westchester County NY	\$750
Pound Ridge Library	Significant improvements to the library which will benefit the community and surrounding towns.	Westchester County NY	\$500
Village of Attica	The Village will replace of 370 old water meters with E-Coder R900i meters, upgrading the communications of 200 water meters from one-way to two-way communication providing five (5) R900 Gateway Fixed Data Collectors to transform the Village monitoring, billing, and data collection capabilities.	Wyoming County NY	\$335
Pennsylvania Yankee Theatre Company	The funds will be used for Capital Improvements of a historic theatre in downtown Penn Yan.	Yates County NY	\$1,250
