

# United States Senate

WASHINGTON, DC 20510

May 13, 2022

The Honorable Patrick Leahy  
Chairman  
Senate Committee on Appropriations  
Washington, D.C. 20510

The Honorable Richard Shelby  
Vice Chairman  
Senate Committee on Appropriations  
Washington, D.C. 20510

The Honorable Brian Schatz  
Chairman  
Subcommittee on Transportation, Housing  
And Urban Development, and Related  
Agencies  
Senate Committee on Appropriations  
Washington, D.C. 20510

The Honorable Susan Collins  
Ranking Member  
Subcommittee on Transportation, Housing  
And Urban Development, and Related  
Agencies  
Senate Committee on Appropriations  
Washington, D.C. 20510

Dear Chairman Leahy, Vice Chairman Shelby, Chair Baldwin, and Ranking Member Hoeven:

I certify that neither I nor my immediate family has a pecuniary interest in any of the congressionally directed spending items that I have requested in the Fiscal Year 2023 Transportation, Housing and Urban Development, and Related Agencies Appropriations bill consistent with the requirements of paragraph 9 of Rule XLIV of the Standing Rules of the Senate.

Thank you for your consideration of these important requests.

Sincerely,

Charles E. Schumer  
United States Senator

**Schumer, Charles(D-NY) Transportation Housing and Urban Development  
Congressionally Directed Spending Requests**

Recipient Name	Project Purpose	Project Location	Amount Requested (\$000)
Incorporated Village of Bellport	This coastal flood resiliency project for Howells Point has been designed for the terminus of three public streets and public parkland abutting a creek, properties which are all maintained by the Village of Bellport.	Bellport NY	\$3,318
YMCA of the Capital District	The CDYMCA is proposing a \$11M rebuild of the Troy YMCA facilities through a strategic phased plan. The requested funds will be used to reimagine the Troy YMCA bringing a menu of programs to serve youth to seniors within the city of Troy.	Albany NY	\$2,000
City of Albany	<p>If successfully funded, the proposed project would begin as expeditiously as possible and could be completed within the time frame of 12 to 24 months from commencement. The first phase will address most of the accessibility issues within the administrative office portion of the facility as well as smaller issues throughout the first floor of the building. North entry vestibule will be removed and ramp would be installed to allow for an accessible entrance and exit. Removal of interior partitions at the Director's Office to create a smaller office and allow for two unisex restrooms that are handicap accessible at the south end of the building. Modifying egress door(s) to be code compliant regarding width, swing direction, and hardware at all designated entry and egress doorways.</p> <p>The improvement and modification according to the current building codes will ensure the safety of the visitors of the facility and, enhance the accessibility of the building to all residents. Once all the accessibility issues are resolved, renovations and construction on second floor could begin including new windows and finishes, lockable storage space, new partition and all finished and fixtures would be updated with a new layout. This proposed project would provide a teaching kitchen, which would greatly assist with nutrition education for the community.</p>	Albany NY	\$400
Feed Albany	Feed Albany will be using these funds to continue serving people in Albany, Schenectady and Rensselaer counties prepared meals. We currently provide 1700 meals weekly and would like to maintain and increase this number. With rising food costs we would like to maintain 2-5 meals per person each week with the goal of producing 2500 meals per week by the end of 2022.	Albany NY	\$271
New York State Thruway Authority	These funds would be used to develop and test the use of Uncrewed Aerial Systems (UAS) to augment existing infrastructure inspection processes with UAS and predictive software analysis to improve safety and target early maintenance to reduce the risk of serious negative economic impact to the state.	Albany NY	\$1,000
City of Auburn	Mill and repaving of deteriorated roadway including upgrading traffic signals, road drainage, curbs, sidewalks, and other roadway appurtenances and utility repairs are needed. Improve overall safety of vehicular and pedestrian traffic with a shared bicycle lane, including upgrading traffic signal and handicap ramps at intersections.	Auburn NY	\$2,250
Schweinfurth Memorial Art Center	The West End Arts Campus is a project of the City of Auburn's Downtown Revitalization Initiative. It leverages arts and cultural to increase cultural tourism through capital improvements that will increase overall accessibility, create more spaces for public programs and connect to the Cayuga Museum of History and Art next door, creating a destination that includes history, visual and performing arts all on one campus. The Schweinfurth project includes a new entrance and elevator from the parking lot, expanded front plaza, indoor/outdoor classroom, parking, walkways, lighting and signage.	Auburn NY	\$350

City of Auburn	Several preservation and maintenance activities are needed to restore City Hall prior to celebrating its Centennial in 2030. The project scope includes: ADA compliance/building upgrades throughout the public hallways and restrooms, replacement/repair of the historic slate roof and flat roofs to stop interior water damage and prevent delamination of the exterior brick masonry, repair the historic masonry front steps as well as install a new handicap accessible entry for the 1st floor building, repainting throughout and maintenance to the historic yankee gutter system and maintenance to the buildings geo-thermal HVAC pumps and well system.	Auburn NY	\$1,000
Adirondack Aquatic Center, Inc. (DBA Capital Regio	The \$5,000,000 requested in this application will be used to cover a portion of construction costs to build Capital Region Aquatic Center. It will promote the health and wellbeing of residents, including historically underserved populations, foster inclusivity through universally useful programming and have an estimated economic impact of \$106 million over five years.	Ballston Spa NY	\$5,000
Rebuilding Together Saratoga County	Rebuilding Together Saratoga County seeks funding to assist 50 low-income older adult homeowners in Saratoga, Warren, and Washington Counties with accessibility modifications and repairs to their homes, at no cost to the people we will help. This will enable these low-income older adults to remain safely and independently in their own homes and communities, allow them to age-in-place successfully, preserve affordable homeownership, and maintain and improve affordable housing stock.	Ballston Spa NY	\$300
Steuben County Industrial Development Agency	The funding request will be used to upgrade rail infrastructure to support LP Building Solutions recently announced \$24 million manufacturing facility in Bath and increase safety along the rail corridor. The work will include a new rail siding and switching to the facility, gated rail crossing on NYS Route 415 and the upgrade of the rail along the corridor from 90 pound rail to 115 pound rail bringing the line to class one standards to allow for more cars to be brought into the facility reducing the number of train traffic. The project will provide an additional 30+ years of life to the line and allow for future rail growth along the corridor.	Bath NY	\$1,585
Broome County Urban League Inc.	Urban League of Broome County will utilize funds for renovations to expand their existing childcare facilities to include 200 more slots for daycare, toddler, and afterschool childcare.	Binghamton NY	\$150
City of Binghamton	The City of Binghamton is seeking federal funding for improvements and rehabilitation to their neighborhood fire stations. The City is committed to a one million dollar investment in its neighborhood fire stations, which will be complemented by this federal funding. Proposed improvements and renovations will not only update and modernize the stations and training facility, but make them safer, improve their longevity, and make them more efficient. These improvements will support public safety in the area.	Binghamton NY	\$500
Sisters of Saint Joseph of Brentwood, NY	In response to the pressing need in Brentwood, NY for a community outreach center, the Sisters of St. Joseph are poised to re-purpose a 62-year old former school building on their property as a site for adult education, a legal clinic for immigrants, and emergency food assistance. We are requesting funds funds to meet the costs of renovation of a 59-year old former school building to serve as the hub of this project.	Brentwood NY	\$2,000
Children's Museum of the East End	Federal funds will be used to physically expand the CMEE Food Pantry, increasing the number of families served by 50%.	Bridgehampton NY	\$150
Children's Museum of the East End	The Play for All project will create an inclusive playground and outdoor classroom designed for children of all physical and behavioral abilities.	Bridgehampton NY	\$200

Emerald Isle Immigration Center (EIIC)	Emerald Isle Immigration Center (EIIC) is engaged in a much needed renovation and expansion of their community center located at 4275 Katonah Avenue in the Woodlawn section of the Bronx; this approximately \$3M project will double the community program space, make all four floors fully accessible to seniors and families and allow Emerald Isle to continue to provide critical free legal aid to immigrants and a range of social and support services for the Irish Diaspora again in place in the Bronx. The project has support from the New York City Council, New York State and the Irish Government.	Bronx NY	\$330
Montefiore Medical Center	The goal is for first-year start-up to establish three additional behavioral health clinics in schools in high need/underserved areas in the Bronx.	Bronx NY	\$3,000
Montefiore Medical Center	The goal is for first-year start-up to establish three additional behavioral health clinics in schools in high need/underserved areas in the Bronx.	Bronx NY	\$3,000
New York Botanical Garden	NYBG is a world-renowned cultural institution rooted in the Bronx. The buildings and grounds are the asset and responsibility of a century old public / private partnership established by the City of New York. For FY23 and part of a capital master plan, the Garden seeks to completely renovate and restore the outdated operations yard into a twenty-first century Worker's Operation Center. By awarding \$1M in capital funding for the restoration of this area / capital project, the daily work needs of the Garden's core DC37 workforce of 175 - the building service employees, engineers, carpenters, and administrative staff maintain NYBG as an open, accessible, and safe urban sanctuary for the over 1 million guests and their families that visit NYBG.	Bronx NY	\$1,000
The Bronx Community Foundation	The Bronx Community Foundation requests funding to support Phase 1 of the new Community Workforce Innovation & Development Center, which will advance innovation- and talent-focused education and community development, as well as propel job creation and inclusive economic growth for Bronx residents. It will also continue the already impactful work of the Foundation across the entire borough of the Bronx, a much needed institution to improve the lives of Bronxites and organizations who reside in our great borough. Located in a new, multi-use space, programming at the Center will focus on entrepreneurship education, workforce training and jobs placement, food security, school-to-job pipelines, technical assistance and training for nonprofits and small businesses and more. The location will act as a catalyst for our borough-wide participatory decision making strategy. The Center will also include affordable housing units, a health care center, retail, co-working, and commercial spaces, and programming for justice-involved individuals, and will house The Bronx Community Foundation's first ever headquarters.	Bronx NY	\$4,000
Launch Expeditionary Learning Charter School	Funds will be used to renovate a 20,000sf building on 1,300 acres of National Park Service land in the middle of Brooklyn. This building will serve as a high school and is the first phase of building out one of the most innovative education campuses in the country, which will ultimately serve 1,000 students daily as well as up to an additional 200 public schools and members of the public.	Brooklyn NY	\$4,000
Ohel Children's Home and Family Services	Build out of Ohel's fourth floor headquarters at 1268 East 14th Street in Brooklyn to enhance and expand programs for individuals with developmental and psychiatric disabilities.	Brooklyn NY	\$2,000
Voices of Community Activists & Leaders (VOCAL-NY)	For two decades, VOCAL-NY has operated out of two floors leased from a three story building, located at 80A 4th Avenue, Brooklyn. VOCAL-NY has grown steadily in the past decade and the ever increasing demands for its services are constrained by the lack of space in its current building. To solve this problem, VOCAL-NY has entered into a lease with purchase option for the building at 300 Douglass Street in Brooklyn and intends to purchase the building once the FY22 real property acquisition award is made for this project. The building will be delivered free and clear of any existing tenants at closing. This project is to purchase the building at 300 Douglass Street for VOCAL-NY. After acquisition, VOCAL-NY will operate the entire building of 6,000 sq. ft. which will provide additional space to alleviate the existing overcrowded	Brooklyn NY	\$2,865

	working conditions and also allow the organization to provide private counseling spaces for its clients.		
Nehemiah HDFC	The funds will be used for the acquisition and construction of affordable housing in connection with the Nehemiah Homes project in East Brooklyn, NY.	Brooklyn NY	\$2,000
Life of Hope	The intended capital project is to purchase and improve the property located at 1377 Brooklyn Avenue which LOH now currently leases as its central location and headquarters. The improvements will expand learning spaces, provide for deeper programming, house all administrative offices and ultimately be a community resource destination.	Brooklyn NY	\$2,000
Green-Wood Historic Fund	Green-Wood Cemetery in Brooklyn, New York is constructing a 19,500 sf Education and Welcome Center directly across the street from the cemetery's main entrance which will welcome neighbors and tourists, provide a classroom for school programs, provide space for additional public programming and workforce development training, and engage visitors in the art, history and nature of this National Historic Landmark cemetery. The application is submitted by the Green-Wood Historic Fund, the nonprofit arm of the Cemetery, which oversees and funds the Green-Wood's educational and cultural activities.	Brooklyn NY	\$1,000
Churches United For Fair Housing	This funding will support Churches United For Fair Housing (CUFFH)'s housing related services that help families find and maintain affordable housing, combat landlord harassment and displacement, and access resources that prevent and fight back against other threats to housing.	Brooklyn NY	\$1,200
Habitat for Humanity New York City and Westchester	The requested funds will be used for the construction of 71 affordable homeownership units across eight scattered sites located in East New York, Ocean Hill, Brownsville, Bedford-Stuyvesant , and Rugby Remsen Village. Funds will be disbursed to pay the general contractor (to be selected) for the hard costs required for the building as well as soft costs associated to the project.	Brooklyn NY	\$3,000
Metropolitan Council on Jewish Poverty	Met Council is seeking funds for capital improvements to the Preston Court Food Warehouse, which will include modern, energy-efficient refrigeration; accessible storage; expanded and modernized office space; and the resources to move product quickly and efficiently. Upgrading this space will achieve operational efficiencies that will quadruple our capacity allowing us to serve hundreds of thousands of food-insecure kosher and halal New Yorkers who are otherwise undeserved.	Brooklyn NY	\$5,200
Central Brooklyn Food Coop	The funds to continue and extend our outreach efforts to get to 750 members, fund the real estate search and afford the initial down payment, and support store operations in the first few years we operate as a food retail store	Brooklyn NY	\$300
North Brooklyn Chamber	Funds would enable us to upgrade and expand our administrative support, reach out to more vulnerable business owners, fund the production of more educational materials, and offer micro-loans to local small businesses in need.	Brooklyn NY	\$750
Polish and Slavic Center Inc.	Capital improvements, including new roof installation, painting, bathroom renovation, installation of alarm systems & new boilers; equipment purchase, such as video, audio and lighting system; and related equipment, labor and materials within the Polish and Slavic Center, a non-profit that has for 50 years served the community by offering cultural, social and legal programming.	Brooklyn NY	\$1,366
Not Another Child, Inc. (NAC)	The proposed Heal the City project will substantially strengthen Not Another Child (NAC), an organization doing critical work in supporting families impacted by gun violence in New York City, and heal individuals, families, and community members throughout the city. NAC will establish a Haven of Hope, by purchasing a building to serve as a NAC's home base and a safe haven for families impacted by gun violence.	Brooklyn NY	\$2,338

Fifth Avenue Committee, Inc.	Requested funds will be used to support capital improvements and outfitting associated with renovations, repairs, and upgrades to the 27,000 square foot FAC Center for Community Development in Gowanus, Brooklyn.	Brooklyn NY	\$3,000
Brownsville Partnership Inc	The Brownsville Partnership seeks to pilot a model of resident-led public housing. The project, called Made with Seth Low, will design, test, and accelerate how residents engage with the Seth Low Houses as it goes through redevelopment. Made with Seth Low will be informed by residents' needs, aspirations, and voices in all project phases, including operations and governance.	Brooklyn NY	\$332
CAMBA Inc.	This request is for \$3.5 million in capital improvements at CAMBA's 1720 Church Avenue location in Brooklyn, NY 11226. This is CAMBA's headquarters and serves as the administrative backbone to our 170 social services programs through 90 sites across all five boroughs, serving 70,000 of the most vulnerable New Yorkers annually. Critical repairs are needed on all three floors of this site. CAMBA's life saving services cannot function without the administrative teams that support them from 1720. We have undertaken emergency repairs; however, there remains significant work and critical upgrades. These include electrical work, exterior/facade work, roofing, restrooms, heating, chimney and security systems. the repairs are necessary for the safety of our staff, clients and the vulnerable New York City constituents we serve. As this is an MTA owned property, relevant MTA staff are included in planning and approval.	Brooklyn NY	\$3,500
City of Buffalo	Rehabilitation and site blight removal of city property caused by taking on water in April 2022.	Buffalo NY	\$5,000
University at Buffalo	TI-CARE will transform Buffalo into a leading national hub for transportation innovation and equity, by serving as a prototype for how wireless connectivity and automation technologies can spur urban revitalization, environmental sustainability, and equity. Funding will build a smart transportation infrastructure along Main St. in the City of Buffalo and around the Buffalo Niagara Medical Campus (BNMC). The infrastructure will be used to develop and test an accessible, self-driving shuttle (SDS) that utilizes AI-powered open-source autonomous driving software to improve mobility and accessibility, especially for underserved populations, people with disabilities and the elderly. As designed, TI-CARE will heighten national awareness of the critical issue of transportation equity and inclusion by improving mobility and accessibility for underserved populations.	Buffalo NY	\$2,000
FeedMore WNY	To feed hungry Western New Yorkers now and have the ability to grow programs and expand outreach in the future, FeedMore WNY has purchased a 74-acre parcel of land to build a larger, centralized facility. Preliminary plans call for a 185,000-square-foot building that will feature freezer, dry goods and refrigerated warehouse space, a clean room for re-packing bulk donations, a commissary that will more than double the current capacity and office space which will allow for greater productivity, better space and human resource utilization, improved logistics, enhanced safety and additional leveraging of resources.	Buffalo NY	\$3,000
Niagara Frontier Transportation Authority	The Riverline is on the former DL&W railroad corridor, west of downtown Buffalo, and extends from Moore Street near Canalside to the Buffalo River across from Tesla. The project traverses the Old First Ward, Perry, and Valley neighborhoods.	Buffalo NY	\$1,600
Niagara Frontier Transportation Authority	The project will rehabilitate the 2 existing above-ground NFTA-Metro Rail Church Street Station structure by removing all roofing and other structures except the boarding platform and rebuild a modern station with enhanced weather protection and other customer-friendly enhancements.	Buffalo NY	\$3,164

Niagara Frontier Transportation Authority	ARFF Truck F5 was built in 2006 and exceeds the average life span. ARFF F5 water capacity is fifteen hundred (1500) gallons of water, two hundred and ten (210) gallons of AFFF, and five hundred (500) pounds of dry chemical agent. ARFF Truck F5 will become the reserve ARFF truck once it is replaced, provided its mechanical condition is still acceptable to be used a reserve truck replacing the current reserve ARFF truck that is over 20 years old.	Buffalo NY	\$1,020
YMCA Buffalo Niagara	Funding will support the general construction costs associated with building a 67,500 square-foot, fully accessible YMCA facility to meet the youth development and wellness needs of residents of North Buffalo and its surrounding communities.	Buffalo NY	\$2,000
Local Initiatives Support Corporation Western NY	Our WNY LISC Congressional earmark request would complement that work, creating a \$2 million fund to provide direct technical assistance.	Buffalo NY	\$2,000
Buffalo and Erie County Botanical Gardens Society,	The Buffalo and Erie County Botanical Gardens Society, Inc. (Society) is pursuing a 33,000 square foot addition to its historic 121-year old Conservatory to expand their education, exhibition, grow houses and event spaces which are currently at capacity. Federal funds will support the capital costs of the addition resulting and our ability to increase our service to the community, improve safety and accessibility for our visitors, and a 95% increase in annual economic impact from \$5.1M to \$9.8M.	Buffalo NY	\$4,000
Gerard Place	Gerard Place will complete renovation of Gerard Place's Education Building, which houses literacy training, GED classes, and a variety of family support programs. The scope of work includes repairing the basement foundation and boiler, as well as installing an elevator and additional bathroom for handicap accessibility.	Buffalo NY	\$500
City of Canandaigua	The Canandaigua community, in conjunction with RGRTA, is seeking funding to support the deployment of a new trolley system in the City of Canandaigua. The funding would allow for the purchase of three trolley styled buses and related infrastructure such as a trolley service hub and trolley stop shelters. The service would provide much needed enhanced public transportation access to key sites in the City of Canandaigua such as the Canandaigua Lake front, Downtown Canandaigua, Granger Homestead, CMAC and Sonnenberg Gardens. The project will offer a great benefit to the community. Tourism is an essential element to the economy for the region and the trolley service will increase the ease in which people can navigate Canandaigua, resulting in a better experience for tourists while also increasing business for local shops, restaurants, and breweries.	Canandaigua NY	\$1,440
Canton College Foundation, Inc.	The redevelopment of Midtown Plaza will take an underutilized and derelict shopping center in the heart of downtown Canton and transform it into three floors (68,000 square feet) of much-needed commercial and residential space - including 44 residential units and the anchor of the project, the SUNY Canton Entrepreneurship Center.	Canton NY	\$3,641
Village of Cape Vincent	The Village of Cape Vincent looks to improve access and safety to tourist that utilize East End Park. The Village is current in the process of completing Phase 1 of the improvements with an investment of \$4.2 million in new docks, pavilion/bathrooms, a deep water dock and shoreline protection. Phase 2 would provide boat and trailer parking and improve pedestrian safety accessing the St. Lawrence River.	Cape Vincent NY	\$500
Moriches Rotary Health Camp, DBA Camp Pa-Qua-Tuck	Camp Pa-Qua-Tuck, a sleep-away camp for children and youth with special needs, is seeking funding for facilities improvements. These improvements will ensure that the Camp, which is 75 years old, can continue to offer a safe and high-quality camp experience to the hundreds of families that rely on the Camp as a resource and source of respite each year.	Center Moriches NY	\$1,395

Town of Cheektowaga	Cheektowaga seeks a Congressionally Directed Spending award to demolish two existing full-depth pools at both the Maryvale and the Dingens Street Town Parks. This is due to the age of the existing pools, (more than 30 years old), the chronic lack of lifeguard staffing, which has plagued most municipalities in Western New York, the cost of operating both pools in terms of electrical and chemical consumption, and low demand for mega-sized pools.	Cheektowaga NY	\$1,383
City of New Rochelle	The requested funds will be used to furnish, outfit, and establish the first-ever youth-based community center in New Rochelle, to be managed by the City of New Rochelle's Department of Parks and Recreation and Youth Bureau. The community center will be located in downtown New Rochelle, where there are thousands of low- and moderate-income children and families living and working within walking distance. The community center will bring new, exciting, and unprecedented youth programming, activities, mentoring and educational opportunities to one of the most economically disadvantaged areas of New Rochelle.	City of New Rochelle NY	\$250
City of Corning, New York	This project enhances pedestrian access, traffic safety, and handicap accessibility through ADA compliance in the area of William Street/Pulteney Street Intersection on the border of the City of Corning and the Village of Riverside. Funds will be used for enhanced pedestrian crossings, handicap ramps, new sidewalks where none currently exist, milling and resurfacing of the new intersection, and new pavement markings.	Corning NY	\$650
City of Corning, New York	The Fire Department was constructed in 1974 and no longer meets the community's needs. The conditions of the facility of declined significantly over the last 47 years and it is not cost-effective to rehabilitate it. The building does not meet current building codes, ADA compliance, or energy codes. During the recent Covid pandemic, there was no way to sperate or quarantine first responders. Corning Incorporated has several large facilities within the City of Corning including our World Headquarters and the world-famous Corning Museum of Glass. These large scale facilities are reliant upon the City's Fire Department to provide firefighting and other critical emergency response services. Replacing the Fire Department facilities would ensure local industry and residents have the emergency response services they need.	Corning NY	\$4,000
The Children's Village	This is a building and renovation project to ensure building safety for New York children living in foster care and residential homes on The Children's Village campus. Building improvements are needed on residential buildings because of global warming, high need for crisis intervention and wear and tear of outdated residential facilities.	Dobbs Ferry NY	\$1,850
The Town of Dryden	The Town of Dryden has started the first Municipal Internet Service Utility in New York State and is seeking funding to expand into the most rural area of the Town. The funding will go towards the construction of fiber to approximately 300 homes providing the best internet available. The more funding that is received, the less the Town has to charge its customers so this is of upmost importance to the community. The project will build 26 miles of fiber optic cable.	Dryden NY	\$1,500
Town of DeWitt	Rehabilitation of Butternut Drive between NYS Route 290 and Kinne Road including resurfaced vehicle travel lanes and bike lanes.	East Syracuse NY	\$1,760
Town of DeWitt	The project includes the construction of an access road off of Thompson Road near Carrier Circle to facilitate the future construction of a hotel, restaurants, and an ice arena.	East Syracuse NY	\$360
Town of Eden	The project involves pedestrian sidewalk enhancements along Main Street (State Route 62) and East Church Street in the hamlet of Eden Center and enhanced crossings between the Eden Central School District/American Legion and the Eden Boys and Girls Club on Route 62. These enhancements will provide safer sidewalks and crossings on Main Street and side streets, which currently have little to no buffers against adjacent traffic, improve walkability, and will provide needed streetscape enhancement.	Eden NY	\$1,190

Town of Eden	"The project seeks mitigate traffic impacts through access management techniques that minimize curb cuts and create safe pedestrian networks to the Town's Highschool, Middle School and Elementary School, while connecting the neighborhoods surrounding the schools to the Town's commercial hub and Hamlet Center to create walkable access to small business and grocery needs. The project will also create road repair and storm water management opportunities for the Town"	Eden NY	\$2,979
Village of Elmsford	This capital project will construct a water storage tank to protect water quality, increase drinking water system supply capacity, support economic development, and bring the water system into compliance with industry standards. The project is needed to replace the existing water tank, the sole source of storage in the Village's system, which is corroding and is under orders from the Department of Health.	Elmsford NY	\$2,000
Community and Cultural Outreach Initiative	Funding will enable the society to provide high quality educational services for immigrant communities in Queens, especially adults and youngsters who reside in NY's Congressional District 6. This project will enable QHS to provide our historical based programming to the non-English speaking community. The society will also create new programing which will provide services to help improve literacy as well as workshops to help with career building such as resume writing and job interview skills. We will also use funding to provide paid internships for students seeking higher education.	Flushing NY	\$100
Washington County Sewer District #2	This project will relocate a trunk sewer line within sewershed FE1A from under a local manufacturing facility to the local roadway. The location of the trunk line is inhibiting the manufacturer from making desired site changes to the facility to increase production. Additionally, this sewer line experiences chronic Sanitary Sewer Overflows (SSO's) on the private property when there is heavy rainfall. In relocating the sewer line to the municipal right-of-way, the District will also eliminate the stormwater sewer and sanitary sewer connection, which will not only benefit the environment, but will also increase capacity in the system for future manufacturing growth and job creation within the Town.	Fort Edward NY	\$9,100
Town of Frankfort	The bridge in question was built in 1981 it is the shared responsibility of the town of Schuylar and the town of Frankfort. Each entity is responsible for two spans. This is a very important bridge it has not been rehabilitated in any substantive manor since its initial construction. This bridge has been identified as region 2 NYS DOT as an approaching red flag status.	Frankfort NY	\$1,630
Inc. Village of Freeport	This proposal is for capital infrastructure improvements to the Village of Freeport waterfront business district. The proposed project is for the construction of a multi-level parking garage and police substation on Woodcleft Avenue (The Nautical Mile) , Freeport New York.	Freeport NY	\$3,258
Hudson Valley Shakespeare Festival, Inc.	This project will support the creation of permanent, year-round facilities for Hudson Valley Shakespeare Festival, allowing the organization to significantly expand its ongoing education and outreach programs for public schools, especially those with whom HVSF has had long-term partnerships, all of whom are CDBG eligible.	Garrison NY	\$4,000
Livingston County	Livingston County seeks funding for the final phase of the 'Light Up Livingston' initiative. 'Light Up Livingston' is a Livingston County project that responds to the need for high-speed, affordable broadband service in the County. Specifically, the request is to finalize 364.1 miles of fiber to the premise network to finish the 'Light Up Livingston Project'. The goal of 'Light Up Livingston' is to provide the opportunity for access to high-speed, fiber-optic internet to every address. This effort is comprised of several phases, internet service providers and grant opportunities (where available). The Livingston County Board of Supervisors and County Administrator Ian M. Coyle are dedicated to improving the high-speed broadband network to enrich the quality of life for residents, ensure that economic development opportunities are available for agriculture and businesses and have a positive impact on education, telemedicine, emergency services, the local	Geneseo NY	\$2,000

	<p>economy and home values.</p> <p>Livingston County, through a public-private partnership with Empire Long Distance Corporation (dba Empire Access), seeks funds for a fiber to the premise network for a rural broadband project. Using the successful partnership, the partners propose a final phase network design capable of delivering speeds of 1 Gigabit-level internet service to unserved and underserved areas of the County.</p>		
The Geneva Family YMCA	Our project will renovate and expand the Geneva Family YMCA's existing aging and cramped building by over 10,000 square feet, creating a safe and secure facility, while allowing for increased programs and services for our community to better meet current and future needs. Our Y is a cornerstone within our community and has diligently served children, families, adults and seniors since 1870. Very few people residing in the greater Geneva area have not had their families touched in some way by the Geneva YMCA. This project will ensure the Geneva Y can continue offering quality childcare, youth sports, life-saving aquatics programs, health and wellness programming and social outlets to our community for the next 150 years.	Geneva NY	\$1,000
City of Glens Falls	Infrastructure Upgrades and Improvements, Energy Efficiency, Updated HVAC and air quality.	Glens Falls NY	\$1,000
St. Lawrence County Industrial Development Agency	The project will rehabilitate the lead track and bridge over the Oswegatchie River that have been inactive since a critical bridge defect was discovered in 2009. This will restore reliable, direct rail service to the Dunn Paper Mill in Natural Dam. Also, along this same track we are developing a 100 acre parcel for agricultural & industrial service industries that will require a siding.	Gouverneur NY	\$1,100
Village of Greenport	Inspections of the Mitchell Park Marina bulkhead have revealed that the existing timber bulkhead, which is well past it's useful life, is in overall poor condition and is failing. The project includes abandoning the existing 776 foot long timber bulkhead in-place and installing a new vinyl bulkhead immediately seaward of the existing bulkhead. A tie rod system for the new vinyl bulkhead that drilled through the abandoned sheeting would be selected.	Greenport NY	\$3,000
National Urban League, Inc.	The Urban League Empowerment Center (ULEC) is currently under construction with L+M Development Partners, Taconic Investment Partners, and BRP Companies to develop an underutilized New York State-owned parking garage at 121 West 125th Street, Harlem, USA, into a 414,337 SF state-of-the-art mixed-use project totaling \$242 million (\$78 million is the NUL development cost). Included in this is construction and fit-out for the Institute for Race, Equity and Justice Conference Center that the surrounding low and moderate income community can utilize where at least 51% of those residents are low/moderate income -meeting CDBG-EDI requirements. Also, there will be over 15 permanent new hires for the Urban Civil Rights Museum (also included in construction and fit-out) and the Conference Center and we will commit to hiring 51% of low and moderate income individuals for those positions -- meeting CDBG-EDI requirements. Both the Museum and the Institute/Conference Center will have programming and outreach to the surrounding low and moderate income community (where at least 51% of those residents are low/moderate income -meeting CDBG-EDI requirements).	Harlem NY	\$3,000
Town of Harrison	<p>Passidomo Veteran's Memorial Park is located at 1 Casarella Way off Lake Street. The Park lies on the border of the City of White Plains and the shores of Silver Lake, the Town's only waterfront. Adjacent to the Park is a Westchester County-owned historic battle site (Merritt Hill/Battle of White Plains). The Park also includes a portion of the Heritage Trail, although connectivity is in disrepair.</p> <p>In the last 10-20 years, Harrison has attempted to overhaul the Park's significant state of disrepair in small, manageable phases, including a new multi-use sports field and public pool. However, the Town has been unable to properly plan for a cohesive and comprehensive restoration of the degraded public space and is requesting funding from OPRHP to do so. The project scope will include hiring a consultant to produce plans, designs, and construction alternatives, taking into account community feedback and public needs.</p>	Harrison NY	\$110

	Presently, the Park is not user-friendly and lacks connectivity and accessibility. It also needs equipment updates (playgrounds, public picnic facilities, etc.), beautification, and waterfront access restoration closed to the public for the past several decades.		
Suffolk County	Suffolk County seeks \$3 million in funding to support a new down payment assistance funding for revitalizing communities in our region. As the County's Connect Long Island Regional Economic Development and Transportation Plan continues to prioritize investment in downtown areas and revitalization of distressed communities, it is critical that we find ways to both support revitalization efforts while preserving homeownership opportunities for local residents and renters. A down payment assistance program will allow long-time residents to benefit from the revitalization of their communities and provide neighborhood stability, setting a firm foundation for future growth.	Hauppauge NY	\$3,000
The Interfaith Nutrition Network, Inc. (The INN)	The INN will use this federal funding to renovate a newly acquired building to accommodate both the expansion of existing and the creation of new programs that will meet the needs of our growing guest population. In addition to the new 20,950 square foot building, the INN campus includes a 9,500 square foot soup kitchen, a 2-story 5,600 square foot social services building, and a 9,800 square foot warehouse. The social services building also houses the Center for Transformative Change (CTC), our clothing boutique and a room used for mental health counseling. These spaces are undersized and cannot meet growing service demands, and the building is not fully handicap accessible. The renovation of the new building will allow The INN to provide the following services: Expanded CTC with adequate handicap accessible space for our staff to meet individually with guests to develop plans of action that are custom tailored to meet their specific social services needs Provide sleeping pods for temporary respite for guests during operating hours Expanded Clothing Boutique with adequate space to develop a new Dressed for Success work attire program New clinic space that will enable our partner organizations to provide medical, mental health, and substance abuse counseling services on site, thereby eliminating transportation challenges that are often difficult for guests to overcome New training suite for use in workforce development programs that will help the guests move toward a more stable future.	Hempstead NY	\$2,000
Town of Hempstead	The Department of Planning and Economic Development has identified the need to improve the green on Center Lane in Levittown and install a handicap swing at Thurmon Munson Park in Wantagh (ranked in priority order). These funds are needed for infrastructure improvements and to provide the accessibility for the physically challenged.	Hempstead NY	\$525
NYSARC, Inc., Herkimer County Chapter	Due to the escalating cost of construction projects, what was once a \$1,500,000 project for the creation of a 6,600 sq/ft Event Center has become a much larger undertaking due to increased material costs and a shortage of available labor. The Event Center will be used for weddings, class reunions, baby showers, executive business retreats, golf tournaments, and more. It will also be a significant source of revenue for a 501 c3 organization providing supports and services for people with disabilities, allowing the agency to be less dependent on Medicaid dollars to operate their programs.	Herkimer NY	\$500
Herkimer County	Construction of a Public Safety Training Facility and the purchase of a stand alone unit for live burn instruction for the fire companies of Herkimer County	Herkimer NY	\$945
Incorporated Village of Hewlett Harbor	The Mallow Reach Bridge within the Village of Hewlett Harbor is extremely outdated and has been deemed "structurally deficient." We are in need of major renovation/restoration, or possibly complete demolition and re-building of our bridge.	Hewlett Harbor NY	\$250

Town of Lloyd	The requested funds will be used for this safety improvement project along Tillson Avenue between NY Route 44/55 (Vineyard Avenue) and US Route 9W. This project will realign the intersection of Tillson Avenue, Toc Drive, and Vineyard Avenue where there is limited intersection sight distance, steep existing approach grades along Tillson Avenue, and a non-conforming intersection skew angle of Tillson Avenue compared to Vineyard Avenue, all of which play a role in the vehicle accident rate of the intersection being more than six (6) times higher than the state average for similar intersections. Additionally, this project will provide ADA compliant pedestrian elements with connections to the Empire State Trail, a new three-sided box culvert structure under Tillson Avenue with increased hydraulic capacity, traffic calming measures, new closed drainage and stormwater treatment infrastructure, intersection and stopping sight distance improvements, roadway grade reduction, and retaining wall construction.	Highland NY	\$2,143
Town of Hillsdale, NY	The funds will be utilized to replace the failing West End Bridge on West End Rd. in the Town of Hillsdale, NY as the bridge has received citation from the NYS Department of Transportation due to its highly visible points of failure. It is the only bridge structure owned by the Town of Hillsdale.	Hillsdale NY	\$576
City of Hornell	To provide assistance to the City of Hornell, New York to consolidate the deteriorating Public Works Garage and rented Transit System facilities into a modern, efficient, environmentally astute single facility.	Hornell NY	\$3,000
City of Hornell	Funding requested by the City of Hornell would be used to repair and expand the aging municipal skatepark located at Shawmut Park to ensure the safety of residents and visitors.	Hornell NY	\$300
City of Hornell	The park was created in 1974 with (at the time) 3 picnic areas with tables and grills, 2 softball fields, hardball field, 4 lighted tennis courts, regulation basketball court, 4 handball courts, 2 volleyball courts, and 2 children's play areas. In 1995 the City of Hornell added the pool area including a separate wading pool and locker rooms as well as an additional 3 picnic areas. The City of Hornell intended to use a NYS Environmental Protection Fund award to rehabilitate four tennis courts, replace a wading pool with a "sprayground" and fixing the cracked pool deck, replace the pool house roof and pool cover, retrofit lighting with energy efficient alternatives, remove an outdated handball court to make room for a basketball court and add a "family" changing room to the locker rooms at the pool. These changes will make the park safer and more accessible to people of all ages as well as reduce maintenance costs of annually fixing run-down equipment. Unfortunately the project description has been significantly scaled back as the original estimate was pre-covid and the cost of construction materials and labor have skyrocketed.	Hornell NY	\$660
City of Hudson	The City proposes to utilize Federal funding to design and implement sidewalk improvements east of 2nd Street which will follow the ADA Standards for Accessible Design, as identified in a 2020 Accessibility Compliance Review of defined areas within the City. The City of Hudson proposes to complete the Hudson Sidewalk ADA Accessibility Compliance Improvements Project to address critical pedestrian infrastructure deficits throughout the city. According to the US Census Bureau, the City of Hudson has a population estimate of 6,072 (2019 U.S. Census), of whom 17.5% have a disability and are under the age of 65. While the facilities were built to the building and code standards at the time of construction, the majority of the public spaces within the City were largely designed and built before the enactment of the 1990 Americans with Disabilities Act (ADA). As a result of this and the age of features within the City, instances of noncompliance are present which limit accessibility for many residents and visitors. The lack of crosswalks, dangerous intersections, and increasing truck traffic makes pedestrian travel difficult, especially for individuals who are mobility challenged. It is a high priority of the City to create a more walkable city, with safe streets that are accessible to everyone. The City of Hudson is poised to take the next steps toward ADA compliance and improved accessibility for all residents and visitors.	Hudson NY	\$5,000

Town of Kingsbury, NY	Sidewalk replacement along State Route 32 in the Town of Kingsbury, NY from State Route 4 to Dean Rd.	Hudson Falls NY	\$1,130
MacArthur Airport Disaster Recovery Data Center	Equip a Disaster Recovery Backup site at MacArthur Airport Fire Rescue building.	Islip NY	\$202
Ithaca-Tompkins County Transportation Council	With a commitment to move to an all-electric bus fleet, and a greener building, this request would replace to older gas-powered cars with two (2) new electric cars and provide three charging locations-level 2 charger, two in TCAT's garage and with one in our parking lot to encourage visitors and employees to drive electric cars. Second, TCAT is seeking funding in this request to cover the remainder of the project, for solar panels and battery/microgrid equipment for the roof of the current TCAT facility.	Ithaca NY	\$534
Finger Lakes ReUse, Inc.	This project will help support the development of a network of reuse ""hubs and exchanges"" for used materials throughout upstate New York, including the first ""hub"" - defined as a large processing and distribution facility to sufficiently manage marketable used materials that are currently landfilled or incinerated in the Southern Tier/Finger Lakes region, as well as create quality jobs and green workforce development opportunities, and provide technical assistance and critical start-up funding to at least 5 New York State communities to develop their own sustainable reuse operations - starting, as Finger Lakes ReUse did, with ""exchanges"" or retail outlets where the public may also drop off their unwanted quality used items.	Ithaca NY	\$533
City of Ithaca	As part of this proposed project, Stewart Avenue Bridge structural deficiencies will be eliminated by replacing or repairing deteriorated steel members, constructing a new structural deck with sidewalks and railings, painting the steel, and reconstructing the approaches to improve pedestrian safety, rideability, and integrity.	Ithaca NY	\$2,000
Tompkins County	As part of our Tompkins County resiliency efforts, it has become clear that we must be prepared for extreme weather and other catastrophic events associated with a changing climate that could interfere with electricity service to many downtown County buildings that provide core services. Five of the County's largest buildings in downtown Ithaca, including the County Courthouse, Old Jail Administrative Building, Old Courthouse including County Legislature Chambers, Mental Health Building and Human Services Building currently do not have redundant power supplies. This need will be even more magnified as we shift to electric vehicles and electric heating, making reliable electric service critical to continuing government services regardless of circumstance.	Ithaca NY	\$1,023
Tompkins County	If awarded, funds will be used to provide various interior and exterior building upgrades to two existing 10-bay T-hangars and two existing 6-bay T-hangars. Improvements would consist of upgrading the lighting systems to LED, adding insulation to the walls and doors, upgrading the roof system to address snow and ice buildup, and rehabilitating the asphalt pavement areas around the hangar buildings. Anticipated improvements: Apply new membrane roof, snow & ice guards New interior tenant partition walls at two 6-bay hangars New energy-efficient LED lighting Weatherproofing all hangars New exterior paint	Ithaca NY	\$609
Tompkins County	This is a preservation highway re-surfacing project for 5.25 miles of Class 6 Minor Arterial 6000 AADT road. The proposed preservation measures may extend the useful life for 10-15 years. CR 105 lies in the Towns of Dryden and Groton in the Northeast of Tompkins County.	Ithaca NY	\$720

Tompkins County	If funded this project will support our a Class 7 Major Collector 1600 AADT 4.97 miles in a proposed preservation measure to extend the useful life of CR 142 which lies in the Town of Ulysses in the Northwest of Tompkins County. Along with local residents this road services commuters and freight from Schuyler and Seneca County and is commonly used by people traveling to Cayuga Medical Center.	Ithaca NY	\$700
City of Ithaca	The project will complete design and construction of a 4,000 square foot addition to the Cass Park Reception Building, the hub of the 84 acre City park and the community center for the municipal ice rink and Olympic sized pool. The addition plan includes adding two locker rooms with restroom facilities, a multipurpose room, two offices, doubling of the lobby space and reconfiguration of the building entrance and high traffic areas. This project is shovel ready.	Ithaca NY	\$1,900
State Theatre of Ithaca, Inc.	As we approach our Centennial Anniversary, the historic State Theatre of Ithaca is planning improvements and upgrades that will aid in the Theatre's structural stability and comfort, accessibility, and ability to financially sustain itself and fulfill its role in our tourism economy. The improvements, including air conditioning, lobby expansion, roof repairs, stage floor reinforcement and replacement, stage lighting upgrades, and ADA accessibility to the entry, will build opportunities for more arts and cultural experiences for visitors and local residents alike.	Ithaca NY	\$2,500
Community Capacity Development, Inc.	This proposal would fund the acquisition and renovation of real property (a building) to support Project Community Resource, Training & Healing Justice Center, which will offer cultural, social, recreational, economic and civic services, combined with youth, adult and family programming that will service the entire borough of Brooklyn.	Jamaica NY	\$8,551
YMCA of Jamestown New York	The Jamestown Area YMCA will redevelop a brownfield in the City of Jamestown, NY to construct a new \$31M energy-efficient facility that will increase access to affordable licensed childcare, connect people with health and wellness services, and encourage further development that will improve job opportunities.	Jamestown NY	\$2,000
Jamestown Center City Development Corporation	Funding will provide capital resources to equip and furnish a year-round sports-themed children's museum for toddlers through pre-teens. This state of the art, ADA compliant facility will encourage physical activity incorporating STEAM principals to children of all socioeconomic backgrounds.	Jamestown NY	\$450
County of Chautauqua Industrial Development Agency	The Ripley Interstate Shovel Ready Site Development Project will support the acquisition of 147 acres of land and the construction of infrastructure to create a shovel-ready site that could ultimately support the construction of 1.625 million square feet of new, job-creating industrial, warehousing, and commercial space. In the near term, it will create critical shovel-ready inventory that is necessary to meet existing, unmet demand and attract businesses to the region. The project represents a substantial investment in the long-term economic viability of the Western New York region in general and Chautauqua County in particular by creating opportunities for job creation and training for well-paying, quality jobs.	Jamestown NY	\$1,000
Queens Economic Development Corporation	Queens Together will support local restaurants and food manufacturers through business assistance. It will help them support their communities in times of crisis and become better businesses. Funds will be used for training, education and food during emergencies.	Kew Gardens NY	\$500
City of Kingston	The Safe and Accessible Flatbush and Foxhall Project will improve pedestrian and bicycle infrastructure that connects residential streets in Midtown Kingston to surrounding business districts. The funds will be used to rehabilitate two miles of sidewalks and construct 0.3 miles of ADA-accessible sidewalks, 24 ADA sidewalk ramps, 11 painted crosswalks, 23 driveway aprons and two pedestrian waiting stations; plant 56 street trees; install bicycle signage and approximately four miles of share-the-road striping; and improve safety at railroad crossings.	Kingston NY	\$4,000

YMCA of Kingston and Ulster County	The funds will be used to reopen the Child Watch Center to promote workforce development and encourage healthy behaviors. They will also be used to renovate the YMCA's exercise areas to make them more accessible for seniors and people with disabilities.	Kingston NY	\$2,000
Ulster County	Ulster County Transportation Council (UCTC) recently completed a feasibility study to examine the challenges posed by the limitations of UCAT's existing transit storage and maintenance facility, which is located at 1Danny Circle on Golden Hill. This transit garage was built in 2005 was found to be in excellent condition and well maintained. However, in the 15 years since its construction, a number of deficiencies have arisen pertaining to ADA compliance of interior office, break and meeting spaces and best practices for garage maintenance and storage of vehicles and parts. Improved handicapped access, floor drain replacement, storage conversion, flammable storage provisions, as well as other deferred maintenance costs have been estimated by an independent engineering firm to cost roughly \$1.200 million.	Kingston NY	\$1,200
Ulster County Department of Public Works	Ulster County PIN 8051.11: County Routes 7 & 8 (Touring Route 299) Shoulder Widening has been on an approved TIP/STIP for several years and is presently under-funded by \$4.5 million. The project consists of 4-foot wide shoulders (including the installation of sub-base) on both sides of Route 299 and a 1.5" asphalt overlay over the full width of the roadway from Route 44/55 to Libertyville Road in the Towns of New Paltz and Gardiner (4.85 mi). These improvements will significantly increase the safety of motorists, bicyclists, pedestrians and other users of this segment of Route 299.	Kingston NY	\$4,500
RUPCO, Inc.	RUPCO is requesting financial support for the soft and hard development costs for a hotel conversion to provide desperately needed supportive housing for previously homeless people. The target populations for this project will be homeless individuals or families with unmet housing needs and have serious mental illness (SMI), substance use disorders (SUD), veterans with honorable discharge, victims of domestic violence, HIV, re-entry, young adults (18-24), and the chronically homeless. RUPCO will convert a 145-room hotel to approximately 81 units of permanent supportive housing located at 114 Route 28 in the town of Ulster, NY.	Kingston NY	\$2,000
Homestead Development Corp.	Develop affordable housing to be sold at cost to support essential workers	Lake Placid NY	\$400
Niagara Falls Bridge Commission	The Rainbow Bridge pedestrian sidewalk requires rehabilitation of concrete spalls on the walking surface and underside of deck as well as rehabilitation to address corrosion and modification of the walking surface grading is necessary in order to improve drainage.	Lewiston NY	\$804
Niagara Falls Bridge Commission	The asphalt wearing surface on the Lewiston-Queenston Bridge over the structural concrete roadway deck is nearing the end of its useful life and needs to be replaced. The wearing surface will be removed by asphalt milling machine and a new asphalt wearing surface applied.	Lewiston NY	\$3,302
Town of Babylon	Construct long term and short term flood reduction projects that, when implemented, will address the existing stormwater deficiencies and provide protection from tidal inundation. This includes road raising, installation of check valves, and bulkhead improvements.	Lindenhurst NY	\$3,000
Responsive to Our Community	The impetus for this request is the astronomical increase in building material costs over the last two years. These increased costs have severely impacted our mission to rehab dilapidated buildings in Syracuse and turn them into affordable housing for battered women and children which is our mission. In addition, this funding is needed as we pay our carpentry trainees minimum wage throughout their three-month training period and then place them with the local union hall that provides them with an opportunity for long-term, gainful employment. Shelters are filled and Vera House, the Salvation Army, and Catholic Charities are continually in touch with us asking for available rental units for their clients.	Liverpool NY	\$475

Livingston County	Livingston County is seeking funding for a supportive housing project to more cost effectively meet the housing needs of single homeless individuals in our community. This project will provide the appropriate supports to the homeless population including substance abuse treatment, mental health counseling, and job training to encourage self-sufficiency and prosperity.	Livingston County NY	\$2,000
Livingston County	Livingston County is seeking an earmark to fund the restoration and expansion of a small interpretive center at the 80-acre Al Lorenz Park - the County's only parkland - located adjacent to Letchworth State Park, the Mount Morris Dam, a village center, and regional trail systems in Mount Morris, New York.	Livingston County NY	\$250
City of Long Beach	The synthetic Turf Field at the Recreation was constructed in 2007. The existing surface is approximately fifteen years old and in need of rehabilitation.	Long Beach NY	\$1,200
Mahopac Public Library	This project includes thermal improvements to the exterior envelope including exterior wall, windows, doors, top of wall and roof conditions, flashing, copings and redirection of downspouts. Site improvements to parking area and storm water drainage. Improvements to the HVAC system controls including room sensors, zoning sequences, hot water pumps, duct controls, testing and balancing and water treatment. The project also includes other miscellaneous site, mechanical, electrical and general construction work to support the project.	Mahopac NY	\$500
Franklin County	Federal funding is being sought to expand Broadband access in Franklin County, to address current deficiencies in access to high-speed internet. A federal investment of \$1 million will help to accelerate the broadband network to communities in the northern and southern parts of the county.	Malone NY	\$1,000
Town of Malta	The project will replace the signalized intersection at Route 67 and Eastline Road with a roundabout, enhance pedestrian accommodations for existing and proposed land uses adjacent to the intersection, construct a sidewalk connection to the Zim Smith Multi-Use Trail, improve drainage, enhance street lighting, and installation rectangular rapid flashing beacons.	Malta NY	\$3,368
NYS DOT	The Town of Mamaroneck is requesting \$2,900,000 to implement the proposed roundabout project. The estimated total project cost, including design and construction, is \$4,910,000. A preliminary construction cost estimate was developed based on the cost of similar single lane urban roundabouts constructed in New York State.	Mamaroneck NY	\$2,900
The Village of Mamaroneck	The Village of Mamaroneck is requesting \$457,000 to complete the next phase of its Mamaroneck Avenue Pedestrian Safety Improvements project to address existing safety deficiencies that are desperately needed in this heavily trafficked low/moderate income corridor surrounded by several local schools. This project will vastly improve amenities and safe passage for pedestrian/bicycle access in this area and surrounding neighborhoods that rely on Mamaroneck Avenue as a vital connection gateway to other areas of the Village, public transit, the Mamaroneck Avenue School, and the French-American School. These improvements will also promote proper drainage in the area, which is subject to severe flooding. Additionally, in the early 2000s, this area was declared by the Mamaroneck Board of Trustees as a "Slum and Blight" area, and these improvements will positively contribute to the livability and attractiveness of the environment.	Mamaroneck NY	\$457
Town of North Hempstead, NY	The Town of North Hempstead seeks to upgrade the 6.07-acre Bunky Reid Park, adjacent to and part of the Yes We Can Community Center, which is one of the few outdoor park, recreation and wellness spaces for New Cassel and the Village of Westbury. North Hempstead will renew and improve this outdoor community park with a new skate park, community gardens and pollinator areas, and improvements to the deteriorating swimming pool.	Manhasset NY	\$900

Workers Justice Project	Worker's Justice Project (WJP) is requesting funds to design and plan a pilot version of the Deliverista HUB. The pilot will test a prototype of the first-of-its-kind indoor electric charging station, programming, and workforce development to professionalize the app delivery industry. WJP also wants to create "hubs" for gig workers throughout the city. These hubs could be used by workers to charge their bikes, phones and batteries and serve as resource hubs for gig workers. NYC will retrofit these structures using newsstands that are no longer operational.	Manhattan and Brooklyn NY	\$1,170
Chautauqua County, New York	The project will repair and rehabilitate an existing 400,000 gallon water storage tank owned by the North County Industrial Water District, a district of Chautauqua County, that serves the North Chautauqua County Industrial Park located in the Towns of Dunkirk and Sheridan. The tank serves to supply potable water and water for fire suppression for industrial, commercial and residential customers. The tank is 45 years old and during an inspection performed in 2011 many deficiencies were determined to exist that need repair and rehabilitation in order to bring the tank up to code and enable the tank to continue to serve the industrial park and customers located in the Town of Sheridan. The industrial park includes 15 businesses, including Purina, one of the largest industrial water users and employers in the county.	Mayville NY	\$587
YMCA of Middletown, NY	The YMCA of Middletown is requesting \$654,511 in federal funding to make necessary capital improvements to YMCA's Camp Robbins, located at 131 North Drive in Walden, NY. The requested funding will be used to weatherize and renovate existing buildings, upgrade the well and septic systems for winter use, and make repairs to the parking lot and camp roads, as well as adding educational components like a greenhouse and boat dock. The capital improvements will create local jobs, and enable the YMCA to serve youth and families in the surrounding communities year-round.	Middletown NY	\$655
City of Middletown	The project will rehabilitate the Historic Ontario and Western New York Train Station (O&W) which has been vacant for nearly 30 years and left to decay. Once complete, the three story structure will house Agri-Business Child Development (ABCD), a non profit that offers HeadStart programs to both low income families and the children of farm/agricultural workers, while also providing healthcare and other services to farm worker families. The building will also contain eight affordable housing units where renters can take part in a renter to homebuyer program that will allot portions of paid rent into a homeowner savings account for a future downpayment.	Middletown NY	\$2,000
Monroe County	Funding will be used to build an addition to the Monroe Community College (MCC) Applied Technology center to increase Science, Technology, Engineering, and Math (S.T.E.M) offerings to address workforce demands in the Finger Lakes Region of Upstate NY. The new center would offer programming such as: automotive technologies, heating, ventilation and air conditioning and precision machining to MCC students many of whom come from low to moderate income families. These services are currently offered at a location separate from the main campus that no longer adequately serves the program.	Monroe County NY	\$3,500
Community Outreach Center Inc	COC will utilize all funds awarded for the timely construction of an additional facility which will provide the space needed to: A) Host and expand its Senior Citizens Day and Recreational Center's program;  B) Create a vibrant job training center to provide PD and vocational preparatory classes to low-income individuals;  C) Offer mental health services and counseling to school-age children.	Monsey NY	\$1,000

Sullivan County	The Sullivan O&W Rail Trail build-out project seeks to connect five local rail trail developments on the former O&W line in order to achieve a regionally scaled 60+/- mile rail trail facility addressing Sullivan County's priority needs of economic development and health improvement. This funding request is intended to expand the existing underutilized 1.3-mile section of trail in the hamlet of Parksville (Town of Liberty) Liberty by constructing 7+/- miles of new trail along side the world class Little Beaverkill trout stream, culminating in the hamlet of Livingston Manor (Town of Rockland).	Monticello NY	\$2,000
City of Mount Vernon NY	A citywide campaign to rehabilitate (or demolish) all the zombie properties and upgrade or replace them with high-quality, 21st century homes will revitalize the city's economy	Mount Vernon NY	\$5,000
City of New Rochelle	The requested funds will be used to reconfigure the existing corridor for Quaker Ridge Road into a facility with discrete user segments that better accommodate pedestrians, bicyclists, and motor vehicles within the existing highway boundary, which is heavily developed commercially and residentially. The proposed "road diet" will reduce the four existing motor vehicle travel lanes to three (one lane in each direction with a center two-way left-turn lane), includes 5-foot wide dedicated bicycle lanes on each side of the road, wider ADA compliant sidewalks and curb ramps, and new traffic signals with video vehicle detection to improve efficiency and reduce congestion and vehicle delay.	New Rochelle NY	\$5,244
Boys' & Girls' Club of New Rochelle, Inc	<p>The Boys &amp; Girls Club of New Rochelle has been honored to be part of the powerful collaboration between public and private entities know as ""The Renaissance at Lincoln Park"" Project. The brand-new Remington Boys &amp; Girls Club is truly a transformative development which will be especially meaningful for our high needs parents and youth by providing a new facility that is nearly twice the size of the former Remington Clubhouse, a distressed building built in 1953 with outdated facilities and not enough capacity to service the long waitlist of neighborhood children. The former Remington Clubhouse had a capacity for 320 youth, the new Clubhouse will serve up to 710 youth with additional gym capacity. The 22,000 SF Clubhouse will feature classrooms, gym, basketball court, music &amp; podcast studio, teen room/lounge, demo kitchen, art room that will anchor the community and nurture our next generation of leaders.</p> <p>The BGCNR is seeking funding to start-up, open, and operate the new Remington Clubhouse in 2023. The re-opening of the Clubhouse has been long anticipated by the community.</p>	New Rochelle NY	\$425
County of Westchester	This project provides funding for the reconstruction of the 12 acre Memorial Field recreation facility located in Mt. Vernon. The project will have components as follows: 1. Installation of new a 8 lane 400 meter track 2. Installation of a multi-purpose synthetic turf field 3. Installation of a skate park 4. Buildings; including concession stand, locker rooms and public restrooms 5. Installation of a new tennis courts Components also include 3,900 seat spectator bleachers and all associated site work/ preparation; including erosion control, demolition, site grading and drainage, site restoration and landscaping	New Rochelle NY	\$4,000
County of Westchester	This project funds the replacement of the three diesel/methane dual fuel engines with natural gas/anaerobic digester gas dual fuel engines and all their auxiliary systems and appurtenances, installation of a new natural gas service from Con Edison, and upgrading of the blowers to turbo blowers. The new engines will provide on-site co-generation of electricity to power the new turbo blowers and provide additional back-up electrical power	New Rochelle NY	\$4,000
Boys' & Girls' Club of New Rochelle, Inc	Boys & Girls Club of New Rochelle (BGCNR) is requesting \$425,000 for renovations to the Mascaro Clubhouse to expand services to meet the needs of the youth in the community. New Rochelle, like many communities, is in growing need-of support for young people beyond the four walls of their school settings and their personal households. BGCNR seeks to continue and expand upon our 93-year mission "to enable all children, especially those who need us most, to reach their full potential as productive, caring, responsible citizens". This mission must be reflected in programming, enrichment and most importantly in a safe, efficient space that represents Hope, Success, and a	New Rochelle NY	\$375

	Promising Future. The renovated Mascaro Clubhouse will be that haven for the youth served therein.		
Storm King Art Center	Storm King Art Center's first-ever Capital Project will enhance the visitor experience; protect its art and landscape; and sustain its leadership in the field of art in nature. The Project includes a new Welcome Sequence and a dedicated Conservation, Fabrication, and Maintenance Building, ensuring that Storm King continues to be an unmatched destination for art in nature for years to come.	New Windsor NY	\$1,600
Pace University	Pace University, a driving force in the Lower Manhattan economy, is planning a \$199 million investment to provide a new home for its community cultural center and auditorium at One Pace Plaza. New facilities will replace outdated resources that have experienced a decline in community use.	New York NY	\$5,000
Yeshiva University	Lamport Auditorium is a premier community gathering and events space on Yeshiva University's Washington Heights campus. The requested funds would restore this space, a cornerstone of the Washington Heights neighborhood and New York's Jewish community.	New York NY	\$2,500
Community Voices Heard, Inc.	Community Voices Heard (CVH), The Legal Aid Society (LAS), and The Community Service Society of New York (CSS) propose a collaborative project (with CVH as the lead) to help NYC public housing residents to improve their living conditions and preserve affordable housing.	New York NY	\$1,285
Center for Court Innovation/Justice Innovation Inc	The Center for Court Innovation (Center) proposes to launch a New York City-wide, community-based initiative dedicated to preventing evictions and promoting housing stability, affordability, and tenant protections for public housing tenants. We propose to support the capacity of tenant associations and public housing communities to achieve these ends through: hiring and training a network of housing navigators; organizing mobile, pop-up events in all five boroughs; developing high-quality, rights-based public education materials; and providing much-needed capacity-building resources for New York City Housing Authority (NYCHA) tenant associations to better respond to and support their resident communities. Working closely with NYCHA and tenant associations, the Center will also launch a unique public-private campaign to accompany the launch of the new NYCHA tenant portal, utilizing a credible, accessible, tenant empowerment model that promotes equitable access to maintaining affordability by developing: (1) multilingual printed publications, (2) a train-the-trainer toolkit, and (3) a tenant leadership and resident-driven grassroots education campaign.	New York NY	\$1,000
Grand Street Settlement, Inc.	Grand Street Settlement is requesting \$1,930,000 for capital improvements, including full interior renovation, upgrades to fire and life safety systems, heating and air conditioning systems, energy efficiency upgrades, security improvements, plumbing improvements, accessibility alterations, program space improvements including new and expanded Early Head Start classrooms, and related equipment, labor and materials, within Grand Street Settlement's 80 Pitt St. Community Center.	New York NY	\$1,930
New-York Historical Society	The New-York Historical Society seeks federal funding to support a 70,000 sf, four-story expansion of our current building on Manhattan's Upper West Side. The expansion will house The American LGBTQ+ Museum, a new museum dedicated to LGBTQ+ history and culture, attracting and serving new constituencies, and advancing understanding of American history by highlighting the stories of this often marginalized community. It will also provide N-YHS with much-needed new gallery and classroom spaces, greatly expanding our ability to provide crucial education services to our audiences, including K-12 students and teachers, students pursuing higher education opportunities, and scholars and lifelong researchers.	New York NY	\$10,000

Vision Urbana, Inc.	The requested funds will sustain the Vision Urbana Pantry Express, the largest food security pantry in the Lower East Side that pioneered the concept of home-delivered pantry in NYC at the start of the pandemic to thousands of NYCHA and low income public housing residents each week providing much needed vegetables, fruits and pantry items to all 27 NYCHA developments on the Lower East Side, with a schedule of weekly grab & go pop-up distribution sites containing prepared meals to our hard to reach residents, in collaboration with the local NYCHA Tenant Association leaders, private restaurants and reputable food partners like the Foodbank for NYC, United Way of NYC, City Harvest and City meals. Funds will underwrite costs related to our full time Pantry Director, Logistic Coordinator, Pantry Aides, Volunteer Coordinator, New Pantry Equipment (pallet jacks, utility wagons, carts), Truck and Cargo Van related expenses.	New York NY	\$300
CCCADI	These funds will be used for capital construction and outfitting of the Institute for Racial and Social Justice in Arts & Culture. The construction is part of a revitalization plan of the City of New York that requires a set-aside of 5000 sq. ft. of space for a cultural facility under the supervision of the NYC Economic Development Corporation. This complex is part of the first city-sponsored Media, Entertainment & Cultural Corridor located in the heart of East Harlem, NY.	New York NY	\$1,800
Local Initiative Support Corporation	LISC is seeking FY 2023 Congressionally Directed Spending to serve as lifeline to 200 minority-owned small businesses with targeted technical assistance (on topics such as marketing, business planning, and how to access additional funding) that we will provide through our partners-an established network of 16 community-based organizations and the New York City Department of Small Business Services.	New York NY	\$2,000
National Black Theatre Workshop, Inc.	National Black Theatre is embarking on a transformative property redevelopment project with a vision of building a singular world-class multipurpose performing arts and job-training center that elevates its mission of commissioning, developing, incubating, educating, training, and producing multidisciplinary work by Black artists from across the diaspora. The new facility will be a sustainable platform of permanence that offers a vital pipeline for BIPOC artists to create new economic verticals through job-training and work force development programs, a business and nonprofit incubator, and free and subsidized rentals to local artists, mission-driven organizations, and community groups.	New York NY	\$4,000
New Museum of Contemporary Art	The New Museum, a leading non-profit contemporary arts museum on Manhattan's Lower East Side, is planning to construct a 55,000 sq.ft. addition adjacent to their current facility. This \$108.4M capital expansion will double the Museum's footprint, improve public circulation, enhance indoor air quality and energy efficiencies, create a 20% increase in permanent staff (to 176), raise annual attendance to 500,000.	New York NY	\$1,000
The Center for New York City Neighborhoods, Inc.	The Homeowner Help Desk assists New York City homeowners who may be at risk of losing their home due to threats to affordability from a variety of economic pressures, along with scams that prey on vulnerable homeowners. The Homeowner Help Desk's goals are to 1) bring housing counseling, financial counseling, and legal services directly to vulnerable homeowners; 2) raise awareness around scam prevention and programs and assistance available to NYC homeowners; and 3) identify existing and emerging homeowner needs.	New York NY	\$500
Uptown Grand Central	The now-funded extension of the Second Avenue Subway to Harlem -- and the development that is likely to accompany it -- offer a once-in-a-lifetime opportunity to bring economic and transit equity to East Harlem, and transform 125th Street into a regional transit hub that will serve new Q train passengers arriving into Harlem and Upper Manhattan, commuters and recreational travelers headed to upstate New York on the Metro-North Railroad, and travelers to LaGuardia Airport. Funds are requested for a neighborhood planning study that will ensure the community has an informed voice and unified vision for the improvements to be made along with the new subway line - including building a 125th Street station worthy of serving as both a gateway to historic Harlem and as the northern regional	New York NY	\$270

	transit hub for New York City as a whole.		
Friends of the High Line, Inc.	The Western Rail Yards section of the High Line will connect New Yorkers to major transportation hubs, businesses, parks, and cultural centers. The Western Rail Yards will increase pedestrian mobility and safety along the West Side of Manhattan. The completion of the Western Rail Yards will be a significant moment that will symbolize New York City's revival and contribute positively to the connectivity of the West Side.	New York NY	\$5,000
Catholic Charities Community Services (CCCS), Arch	CCCS requests funding to renovate and modernize the Kennedy Center of Harlem to ensure that it remains viable and accessible for programs that serve this under-resourced community. Specifically, the funds will be used for: 1) replacement of a portion of the roof which has gone beyond its useful life, 2) replacement of the heating and air conditioning systems, and 3) replacement of the activity room floor which has been rendered unusable due to heavy use.	New York NY	\$1,808
Catholic Charities Community Services (CCCS), Arch	CCCS requests funding to renovate and modernize our South Bronx Food Hub to expand our capacity to accept an increased amount of donated food for re-distribution to local pantries and households in need. Interior renovations will double the amount of usable space to accept and store food, and renovations to the facility's parking lot will accommodate large box trucks and frequent deliveries, enhancing our overall program operations and services to vulnerable Bronx residents.	New York NY	\$204
YMCA of Greater New Y	<p>The capital funds will be equally shared between the Flushing YMCA and the Greenpoint YMCA, \$1 million to each construction project.</p> <p>The Flushing YMCA has been looking for a new location for decades because the current facility is nearly 100 years old, is smaller than more modern YMCA branches, and is not fully ADA accessible. We currently have an agreement to move forward on construction of a state-of-the-art YMCA in the Flushing Commons development that will serve thousands of Flushing community residents with a facility that is fully ADA compliant.</p> <p>The Greenpoint YMCA has been looking for a new location for two decades because the current facility is only one third the size of our average branch and is not fully ADA accessible. We currently have an agreement to move forward on construction of a brand new YMCA in the Two Trees development that will serve thousands of Greenpoint and Williamsburg community residents and be fully ADA accessible.</p>	New York NY	\$2,000
Sustainable Neighborhoods LLC	Sustainable Neighborhoods LLC will use this funding to support a suite of affordable lending products for low- and moderate-income families in New York State so that they can keep their homes, build assets, and sustain intergenerational wealth. We will use funds to support programmatic operating expenses associated with the following: outreach to raise public awareness of our loan programs, processing of loan applications, and ongoing counseling to loan recipients.	New York NY	\$1,000
Chashama, Inc.	The Chashama Storefront Startup program is fundamental to the economic recovery of New York City. Funding for the project would enable the activation of over one hundred vacant storefronts, providing local Women and Minority-Owned Businesses with rent-free facilities from which to grow their enterprises.	New York City NY	\$500
Niagara Frontier Transportation Authority	The project will complete design work required to bring the realignment and extension of Taxiway D to construction. The project will support and align with a Niagara Falls Air Reserve Station project to extend the main runway at Niagara Falls International Airport.	Niagara NY	\$900
Niagara University	Niagara University is requesting funds to complete the Academic Innovation Hub. The Hub is in the heart of the North end of the City of Niagara Falls in the Bridge District. This area is distressed and like other blighted areas it is plagued by a low number of homeowners, few businesses, a high crime rate, and low literacy rates which impact revitalization efforts. The Hub will function as a community education space and will provide residents opportunities to attend speaker events, concerts, art shows, and	Niagara NY	\$1,400

	community meetings. In addition, we will offer short-term workforce development classes. Information Technology, Early Childhood Education, Supply Chain Management, and Hospitality were identified as areas in-demand in Niagara County and a priority of the Regional Economic Development Council (REDC). The Hub's location in the city makes it an ideal location for residents to attend training. The Hub is accessible by bus for those outside of the north end and is walkable for those residing in the neighborhood. All course offerings contain classwork leading to an industry recognized credential. Successful completion provides the student options for direct employment or a pathway to a post-secondary degree. The goals of this project are: (1) Completion of the Academic Innovation Hub in the City of Niagara Falls; and (2) Provide a community space to provide short-term trainings (micro-credentials) in high demand areas of Information Technology, Early Childhood Education, Supply Chain Management, and Hospitality.		
Niagara Frontier Transportation Authority	Funds will be used to purchase a snow melter that will be used at the Buffalo Niagara International Airport (BNIA) on the airside, specifically the terminal ramp area.	Niagara NY	\$567
Niagara Frontier Transportation Authority	This project will upgrade illuminated airfield signs, the wind cone, and control tower beacon on the Niagara Falls International Airport air operations area. The improvements will support the safety and capacity of commercial, general, and military aviation activity.	Niagara Falls NY	\$3,100
Niagara Frontier Transportation Authority	This project area was called out in the most recent Pavement Study which was completed in May 2019. This design will be comprised of both Apron and Taxiway areas used by the General Aviation community; Taxiway P, Taxiway Q, Taxiway R, and 2 GA Aprons (referred to in the Pavement Study as Calspan Apron and Prior Aviation Apron).	Niagara Falls NY	\$972
Village of North Syracuse	Centerville Park is centrally located within the Village along the northbound side of South Bay Road between Wells Avenue East, Centerville Place, and Church Street. The site currently consists of a parking area, playground, basketball court, sledding hill, pavilion, and lawn area. The park received Community Development and Save the Rain funds in 2013 to improve drainage issues, court resurfacing, reduction of impervious area, walkway resurfacing, parking area resurfacing, and tree plantings. With this work, the Village's in-kind services involved installing a pavilion. With the amount of use this park is now receiving between the park activities and pavilion rentals, bathroom facilities are needed. This requires users to leave the park if they need to use the restroom facilities. Adding restroom facilities for park users would require tying into the existing Village sewage system (~300 LF), the OCWA water system (~300 LF), and the National Grid electrical system that are all located along adjacent South Bay Road (CR 208). Each of the two (2) unisex ADA restrooms would have a toilet, sink, mirror, tissue dispenser, soap dispenser, hand dryer, waste receptacle, grab bars, door hooks, slip resistant flooring, lighting, and signage. Energy efficient and sensor-sensitive water and lighting fixtures will be used. The architecture of the building would be a simple design, similar to the structures in the other parks within the Village that consist of natural light colored stone block, dark metal doors, and light brown asphalt shingles on the roof.	North Syracuse NY	\$431
Ogdensburg Bridge and Port Authority	The Ogdensburg Bridge and Port Authority is seeking \$32,760,000 for a major construction project on the Ogdensburg-Prescott International Bridge. The project components include replacing the superstructure of the US plate girder spans 1 to 8, Canadian deck truss spans 18 to 23, and the Canadian plate girder spans 24 to 32 plus cleaning and painting the Canadian plate girder spans 24 to 32, main cables, and the suspender ropes.	Ogdensburg NY	\$32,760
Society of the United Helpers	The Project is to renovate the vacant, dilapidated former United Helpers Adult Home in Ogdensburg. United Helpers is a vital provider of a unique array of post-acute and community-based services. We seek to strengthen our essential organization in part by renovating the former Adult Home in Ogdensburg into market-rate one- and two-bedroom apartments available for short- and long-term leases. Property management is one of UH's strengths, as we manage 23 senior and disabled subsidized	Ogdensburg NY	\$1,800

	housing apartment complexes in St. Lawrence and Jefferson Counties.		
Town of Orangetown	In 2020, NYSDOT Regional Design Engineer Michael K. Schaefer confirmed that based on existing traffic volume, a single-lane roundabout would be a feasible solution for this problem intersection where many accidents occur every year. In 2022, NYSDOT Acting Regional Design Engineer Mark Tiano corresponded with the Town of Orangetown Supervisor to provide an update on the US Route 9W at Oak Tree Road Safety Improvement Project in the Town of Orangetown, Rockland County. Mr. Tiano confirmed that a preliminary analysis of the intersection determined that a roundabout was feasible, but the funding already allocated was insufficient to design and construct a roundabout. As a result, work on this vital project has paused until funding sources are identified. NYSDOT Regional Planning and Program Management Group estimate that the shortfall in funding for the proposed project is \$5,400,000.	Orangeburg NY	\$5,000
Town of Ossining	This project will be used for design, engineering and construction of road infrastructure to facilitate safe bicycle/pedestrian usage along New York State Route 133 in the Towns of Ossining and New Castle, connecting the Downtown Village of Ossining commercial corridor and Ossining Metro-North Station to the Empire State Trail in Millwood.	Ossining NY	\$1,500
Village of Ossining	The Village of Ossining has contracted with engineering and planning firm Creighton Manning to study how Route 9 could be altered via a "Road Diet" to foster better economic development, enhanced walkability and pedestrian safety, while potentially also adding parking and/or bike lanes in one or both directions where practicable. The design and construction of the road diet would balance the corridor for more modes and uses by reallocating some of the space for vehicle traffic to pedestrians, flex space, and on-street parking, correcting a community divide that was inadvertently created via Urban Renewal.	Ossining NY	\$4,000
The Center for Law and Human Values (DBA The Actio	Requested funds will be used towards the acquisition and upgrade of a building in the Bushwick, Brooklyn neighborhood to create the Brooklyn Center for Social Justice, Entrepreneurship and the Arts (BCSEA). The BCSEA will house non-profit organizations and endeavors and will be a vital hub for justice oriented arts and business incubation.	Ossining NY	\$1,500
County of Oswego Industrial Development Agency	The funds will be used to fill the funding gap in constructing a 30,000 square foot modern flexible industrial facility on the former Nestle site in the City of Fulton, NY. The building will be owned by the County of Oswego Industrial Development Agency and leased to multiple early stage high growth manufacturing companies that will create jobs and investment in a distressed area.	Oswego NY	\$1,500
Village of Owego/Owego Fire Department	The proposed project is to assist with the restoration of the historic Owego Central Fire Station located at 87 North Avenue in the Village of Owego's downtown historic business district. The Owego Central Fire Station is a historically significant and prominent building in the Village of Owego's downtown, as well as in Tioga County.	Owego NY	\$1,000
Town of Oyster Bay	The Town of Oyster Bay proposes to construct a permanent roof structure above the ice rink at Marjorie R. Post Park in Massapequa, NY. The roof will be equipped with solar panels allowing for the facility to be powered with renewable energy.	Oyster Bay NY	\$2,000
City of Peekskill	The city requests \$10.5 million for this project to construct a new garage so riverfront development can bring jobs and new development to the City	Peekskill NY	\$10,500
City of Peekskill	The city requests \$2 million for crosswalks, bumpouts, ADA accessible crosswalk ramps, signage, landscape improvements, lighting and street furniture according to a plan using "Complete Streets" design to turn the City of Peekskill's 18-block downtown into a walkable community where pedestrians would feel safe and welcome.	Peekskill NY	\$2,000

Yates Cultural and Recreational Resources	Our project is the construction of new community center facilities to include an outdoor full basketball/pickleball court, pavilion, and playground with a 35,000 sq ft indoor playing facility to increase access and affordability of all forms of physical activity and community events for our residents . The indoor portion will offer one turf field, two hard courts, bathrooms, storage, and a walking track for athletics, community events and programming. Federal funds will be used in combination with private donations, other grant funding, and in kind community donations to complete the construction project including all site work. More specifically the federal funds will be used to develop the indoor portion of the project: site work, foundation, building, bathrooms, and flooring.	Penn Yan NY	\$2,000
The Strand Center for the Arts	The Strand respectfully requests project funding for the acquisition of fixed capital equipment and major renovations to resolve interior & exterior environmental issues and improve physical accessibility and energy efficiency in its Arts Center building - 1 of 2 properties forming our downtown Plattsburgh campus. Overall, this project will comprehensively help to address issues of building stabilization, further reduce the organization's operating costs, and positively impact the public we serve by ensuring the Strand can maintain its presence in this key location. The Arts Center houses our Gallery, Box Office, Administrative Offices, Artist Store, Clay Studio, and a new 2nd floor MakerSpace Suite comprising a Digital Technologies Lab, Visual Arts & Music Studios, and Multimedia Lab.	Plattsburgh NY	\$291
Clinton County, New York	Funds obtained through this award will develop infrastructure at the site of the former Clinton County Airport ("former County Airport") to create shovel-ready lots for an industrial business park located within Clinton County and the Town of Plattsburgh. It should be noted that this site is adjacent to the existing Air Industrial Park, which is currently operating at full build-out and occupancy. The former County Airport project will incorporate construction of a roadway 2,350 feet in length that will connect to Industrial Boulevard (an existing road), including a paved section consisting of two, eleven-foot wide motor vehicle lanes with five-foot wide bicycle lanes on either side of the road to create a shared street. This project has already secured two major corporations who are committed to creating hundreds of jobs in the county, and a commitment from The Development Corporation to construct two industrial buildings to provide needed industrial space.	Plattsburgh NY	\$1,000
Historic Hudson Valley	Federal funding would close the gap due to rising construction costs from COVID for this shovel-ready highway improvement project at Van Cortlandt Manor, a National Historic Landmark in Croton-on-Hudson, NY. The project is on the NYS STIP to remediate for vehicular and pedestrian safety.	Pocantico Hills NY	\$1,000
The Village of Port Chester	The Village of Port Chester is requesting \$385,000 to replace its 40-year-old, obsolete generator and associated electrical system that currently presents a safety hazard and is unable to function at even the minimum standards necessary to meet operational needs during critical events. The system caught fire in August 2020 when in use and burned a portion of its components, rendering it unable to handle the full load of the building for any period of time. This system serves 350 North Main Street, home to Port Chester's Police Department, Emergency 911 Dispatch, and the Courts.	Port Chester NY	\$385
Village of Potsdam	Potsdam seeks \$2,888,933 in CDS assistance to undertake the substantial renovation of the 50-year-old Pine Street Arena at Sandstoner Park to include the construction of an 8,900 square foot addition.	Potsdam NY	\$2,889
City of Poughkeepsie	The City of Poughkeepsie is requesting funding from the federal Community Project Funding process to support the redevelopment of City-owned infrastructure that will serve the new Youth Opportunity Union (The YOU) which is about to be constructed in the City. The infrastructure elements proposed for revitalization and/or enhancement are outdoor lighting at Stitzel Field, ADA-compliant comfort stations and concession areas, a new water main and firefighting improvements.	Poughkeepsie NY	\$1,220

Hudson River Housing, Inc.	Hudson River Housing's VetZero Heroes Ride Program provides free, door-to-door transportation to healthcare services, VA facilities, job interviews and other important appointments for over 100 low to moderate income veterans from Dutchess County, annually.	Poughkeepsie NY	\$81
Village of Pulaski	The Village of Pulaski is requesting money to design a sidewalk infrastructure to connect the following buildings; a 100 unit Senior Citizen Residential Building, the main Health Care Center, NOCA-Ambulance Building, the American Legion (only polling place for Village of Pulaski and Town of Richland) and a 52 unit apartment building. At this time, a pedestrian can not walk from one of these buildings to another safely.	Pulaski NY	\$30
Hinge Neighbors Inc.	Hinge Neighbors will use the funds to rehab an existing Queen Anne-style (1888), multi-family, vacant residence with technological/energy-efficient upgrades, workshop capabilities, affordable housing, and gathering space, with a focus on creative entrepreneurship, small-scale community manufacturing, creative residency, and multicultural event programming. The proposed LINE Center will help revitalize the South Marketview Heights low-income neighborhood and counteract years of stagnation and blight caused by the building of the Inner Loop North highway in Rochester, NY.	Rochester NY	\$1,024
Rochester Genesee Regional Transportation Authorit	A critical component of RGRTA's efforts to meet New York State's zero-emission bus fleet goals for 2025 and 2035, is to build this facility as soon as possible. While the total cost of the facility is \$60.7M, this portion of the funding will be used for final design and construction assurance services for the new facility.	Rochester NY	\$3,680
Jazz90.1 WGMC-FM (Greece Central School District)	As one of the nation's last public jazz radio stations, Jazz90.1 seeks funding to support our general operations.	Rochester NY	\$50
YMCA of Greater Rochester	This request is being made for construction and renovation funding to transform existing facilities and spaces into high impact Neighborhood Centers that will serve several specific community issues including: food access, social determinants of health, a rapidly aging population, disengaged youth, and youth engaged in risky behavior.	Rochester NY	\$1,000
YWCA of Rochester and Monroe County	YWCA seeks funds to preserve critical units of housing for individuals who experience homelessness by acquiring a former Salvation Army shelter that is zoned to provide temporary housing.	Rochester NY	\$300
Mary Cariola Children's Center, Inc.	For program efficiencies and improvements, as well as opportunities to grow and accommodate the ever-increasing number of individuals with complex disabilities, we are seeking funding to support the construction of new school facilities that will allow us to consolidate our three (3) leased campuses onto a single campus that we own.	Rochester NY	\$4,000
Recovery All Ways	To build a culture of health, CCA and Recovery All Ways will provide a new site where outreach, engagement, case management, and wraparound support for persons with substance use disorder (SUD) can continue. This will support Site Control and Acquisition, Personnel, Other-than Personnel Operations, Participant Support Costs and indirect costs.	Rochester NY	\$650
The Hamilton Tenant Office	To help with community events To help the women and men and children of this community	Rochester NY	\$3
Beyond the Sanctuary, Inc.	Beyond the Sanctuary (BTS) is seeking support to sustain and grow its Core programs, which include a Food Pantry, Clothes Closet, Rental Assistance and Emergency Services, a pathway to self sufficiency. These programs have been largely staffed by volunteers, but as the community need and utilization of the services continue to grow, some paid positions need to be established to allow for consistency and stability.	Rochester NY	\$290

Connected Communities, Inc.	Connected Communities intends to acquire and renovate two essential community spaces at risk of foreclosure, the North East Area Development (NEAD) office building and the Freedom School, to restore them to thriving spaces that our community can be proud of and benefit greatly from. Out of these two spaces, the Neighborhood Hub, a central area that will offer services for school-age children to older adults, and The Connect Lab, a co-working space for neighborhood nonprofits, organized groups, and community residents to enhance collaboration and foster community revitalization will be developed.	Rochester NY	\$500
Rochester Genesee Regional Transportation Authorit	A common customer request is for more bus stops to have shelters and seating. At current funding levels, RGRTA not only has a backlog in bus shelter replacements, but also is constrained with the number of shelter locations. This funding would add shelters at the next tier of bus stops where the volume of customer boardings support shelter placement. Many of these locations are in city neighborhoods. RGRTA would also be able to replace shelters that are damaged or beyond their useful life, which will improve the quality of the public transit experience for thousands of local residents and protect them from the elements throughout the year.	Rochester NY	\$2,400
Rochester Genesee Regional Transportation Authorit	RTS needs to make much-needed infrastructure upgrades to its Main Street campus in Monroe County. In addition to being needed upgrades, each project will improve the energy efficiency and/or environmental protection. These upgrades include overhead lighting in Garages B & C, Operations building sprinkler water feed, Operations building HVAC roof-top units, Operations/Administration building elevators and trench drains and oil water interceptor for Operations building.	Rochester NY	\$2,240
Rochester Genesee Regional Transportation Authorit	As RGRTA works to meet New York State's goals of having a 25% zero-emission bus fleet by 2025 and 100% by 2035, the Authority is exploring multiple zero-emission technologies for its fleet. With a focus on electric buses already underway, RGRTA is now working to prepare for Hydrogen Fuel Cell buses. This funding will help us identify and make the necessary infrastructure investments to our existing garage facilities to prepare for that technology.	Rochester NY	\$1,520
Rochester Genesee Regional Transportation Authorit	This investment would make it easier for customers to navigate the RGRTA system easier, especially those who are blind, low vision, and new to the area. This would fund a new Automated Voice Annunciator (AVA) system on our buses throughout the Monroe County service area. The AVA system will make it possible for customers to hear automated bus stop announcements, so they know when they have reached their stop or when they should transfer to another route.	Rochester NY	\$1,600
YMCA of Greater Rochester	This request is being made for construction funding to create a community services facility to provide critical programming of childcare, aging adult services, family services, drowning prevention, healthcare and physical/mental health wellness activity. This project will result in the creation of a new YMCA community facility in the City of Canandaigua.	Rochester NY	\$2,500
City of Rochester	The City of Rochester would like to assist homeowners in covering replacement of "inside" lead, lead-lined and galvanized water services (curb box to home). The average cost of water service is expected to be \$5,000; however, this could rise given the increasing cost of materials due to COVID.	Rochester NY	\$500
Providence Housing Development Corporation	Project will be used to meet relocation needs of the chronically homeless and disabled into permanent housing. It will also be used to teach households how obtain, maintain, and manage income (including employment for those that can work), support their treatment choices to manage their disability, teach them skills to remain stably housed and understand their rights as tenants and provide critical transportation resources to meet these goals.	Rochester NY	\$250
Recovery Houses of Rochester, Inc.	The requested funds will be used for providing Rental assistance and support for residents entering Recovery Houses of Rochester from Treatment and Corrections to provide support for the first 90 days of entering the program .	Rochester NY	\$123

Rochester Fringe Festival, Inc.	The requested funds will be used to construct a Spiegeltent-a "Magic Mirror Tent" decorated with mirrors and stained glass-as a major venue of the Rochester Fringe Festival. By constructing a Spiegeltent of its own rather than having to rent one annually, the Fringe will reduce operating costs, free up funds to support events and performances that are free to the public, and benefit other communities throughout New York State that will rent the portable facility for their own use.	Rochester NY	\$167
Rochester Rehabilitation Center dba Rochester Reha	Rochester Rehabilitation Center (RRC) seeks funding to create an accessible hub and complete significant capital improvements (HVAC upgrades, roof/window replacement, exterior brick repointing, fire control panel box replacement, production floor and loading dock upgrades, and interior renovations to expand office space) to our University Avenue location. Once RRC's improvements are complete and RRC can relocate all mental/behavioral health services to University Avenue, the site will provide greater ease of access to services, increased realization of service synergies and management oversight, and enhanced opportunities to assure optimal implementation of comprehensive service delivery.	Rochester NY	\$1,250
Susan B. Anthony House dba National Susan B Anthon	The National Susan B. Anthony Museum & House has purchased 1.3 acres of blighted, urban property on which to build a new Interpretive Center. The new, 20,000 sq ft building will allow the museum to expand its programs and experiences for the local community and meet the growing demand for its national and international audience.	Rochester NY	\$3,000
City of Rome, NY	This project seeks to revitalize a longtime underbuilt transportation corridor to support affordable housing and new housing/recreational opportunities. The project will reconstruct approximately a half-mile segment of public roadway, which formerly served military housing for the Griffiss Air Force base, to stabilize the surrounding neighborhood and support industry growth through complete streets and green infrastructure design methods.	Rome NY	\$3,000
RISE Housing and Support Services	Federal funding will be used to support the pre-development and construction of a second story addition, as well as the reconfiguration of the first floor of RISE Housing and Support Services' existing main office building necessary for the facilitation of HOMEBASE - a low-barrier, psychosocial program that will provide a supportive, safe community for vulnerable citizens struggling with mental health, substance abuse and/or street-homelessness.	Saratoga Springs NY	\$2,358
City of Saratoga Springs, NY Fire Department	The City of Saratoga Springs (NY) is requesting \$3,100,000 to support the construction of a Fire Station/Emergency Medical Facility (Station 3) that will elevate current community safety and welfare standards and risk public safety risk in the city's Interstate 87 corridor.	Saratoga Springs NY	\$3,100
Saratoga Regional YMCA	Funding will be used to support the construction of an Intergenerational Hub for Health and Wellness on the Y's Saratoga Springs campus, including a new Senior Center. The Saratoga Senior Center and the Saratoga Regional YMCA are entering into a new strategic partnership for this shovel ready \$7,000,000 capital expansion project resulting in a 39,000 square foot building including a 14,000 square foot Senior Center. The project will bring expanded senior health & wellness programs and spaces, expanded space for more child care slots, and the addition of a new gymnasium and indoor play space to serve more daycare, youth and families.	Saratoga Springs NY	\$2,000
Town of Shandaken	Replace the deficient Church Rd Bridge to allow safe access to the residents of a dead end road with no alternative routes.	Shandaken NY	\$1,612
Shinnecock Indian Nation	This project will increase safety, aid elder and handicap access, improve infrastructure, restore associated food, health service, and bathroom structures on the Shinnecock Powwow Grounds, and to have convenient shelter in the event of storms through the back of the Shinnecock Community Center.	Shinnecock Indian Reservation Powwow Grounds NY	\$1,000

Village of Sleepy Hollow	The Village of Sleepy Hollow is seeking Appropriations funding through partnership with Representative Jones' office in the amount of \$100,000 to install a parklet at the intersection of Beekman Avenue and Cortlandt Street. The parklet project would convert existing curbside parking spaces at this intersection into a vibrant community space in the heart of the downtown district. Transforming this street with seating, greenery, bike racks, and pavers will accommodate a unmet demand for a thriving neighborhood atmosphere within our existing downtown retail and commercial streets. By design, the parklet will also further public-private partnerships with community stakeholders, including local businesses, residents, the Chamber of Commerce, and neighborhood associations. The Cortlandt Street Parklet will be an invaluable community asset to promote the downtown district both within the community of Sleepy Hollow and as a welcoming attraction to visitors.	Sleepy Hollow NY	\$10
Village of Solvay	This project is for the planning and development of a transportation program to rehabilitate 0.9 miles of Charles Avenue in the Village of Solvay from Milton Avenue to West Genesee Street.	Solvay NY	\$400
Town of Lewisboro	The Town of Lewisboro is requesting grant funding for an Engineering Study to determine the structural integrity of 114-year-old dam, which has a bridge/road over it and encompasses an area of 82.3 acres of water that feeds into the NYC Watershed. The main objective of the engineering study is to determine the dam's structural safety and develop Design Plans for short and/or long-term capital improvements, including developing a capital improvement funding strategy and Emergency Action Plan for DPW and First Responders.	South Salem NY	\$300
Town of Southampton	The Town of Southampton proposes to elevate a segment of Dune Road, a two-lane roadway that runs parallel to the Atlantic Ocean, just north of the main ocean dune. The targeted section of roadway experiences frequent flooding, and spans about one mile from the Ponquogue Bridge in Hampton Bays eastward to the Shinnecock Inlet. The goal of the project is to reduce the frequency and severity of storm and tidal flooding that restricts roadway access to the Shinnecock Commercial Fishing Dock, which serves New York's second largest commercial fishing fleet, restaurants and public beaches that are essential to the region's economy.	Southampton NY	\$1,548
Konbit Neg Lakay	Due to the increase of the immigrant population of Rockland County for the past 15 years, Konbit Neg Lakay is in need of more space. Therefore, Konbit Neg Lakay is requesting a grant of \$1 Million for the Haitian American Community Center to add a second floor to our building and do repairs that has not been done since the purchase of the building.	Spring Valley NY	\$1,000
Village of Spring Valley	The Village or Spring Valley is requesting \$90,000 in funding to replace the superstructure of the bridge in Memorial Park. Memorial Park is a major recreation center for Spring Valley, a community with roughly 33,000 people living in it, and therefore the bridge is crossed by thousands of people annually. The bridge as it stands is currently unstable and dangerous to the public, which has made this replacement a priority to the Village. The proposed replacement is imperative to the safety of our residents and cannot be delayed much longer.	Spring Valley NY	\$188
Catholic Charities of Staten Island	Catholic Charities of Staten Island (CCSI) plans to renovate Building 4 on our campus to house two of our most important programs: The first is a Food Pantry to be run by CCSI in collaboration with one of our current tenants, St. Edward's Food Pantry. The pantry is housed in a couple of trailers. The move will allow us to serve many more individuals on Staten Island in a more dignified setting. The pantry would be client-choice in a supermarket-like venue. The remaining space will be used for a food hub and mobile pantry to service the whole of Staten Island. We also need to purchase two more mobile pantry vans in order to expand our delivery to underserved areas.  The other half would be centralized programming space for our Day Habilitation for special needs adults, our Supported Employment (SEMP) program with employment training and support services, and our Supplemental Day Habilitation	Staten Island NY	\$1,500

	(Afterschool) youth program. This program provides homework help, life skills training, physical education, nutrition education, and social skills development.		
Snug Harbor Cultural Center & Botanical Garden	Snug Harbor Cultural Center & Botanical Garden seeks federal funding through this Congressionally Directed Spending Request to conduct essential repairs and upgrades required to reopen our historic Music Hall to the public by September 2023. Built in 1892, the Music Hall interior has suffered damage due to water incursion and requires upgrades to comply with American Disabilities Act requirements for live performance venues before it can reopen.	Staten Island NY	\$2,735
Suffolk County	This project will create new surface parking at the Ronkonkoma Train Station. This parking will accommodate future growth in parking demand and allow for the reorganization and consolidation of existing commuter parking, facilitating future vertical development in close proximity to the station itself.	Suffolk County NY	\$5,000
Suffolk County	Suffolk County is seeking funding to demolish 14 steel framed and masonry structures at the 125-acre Lawrence Aviation Industries (LAI) site.	Suffolk County NY	\$450
Food Bank of Central New York	Congressionally directed funds will provide support for a 32,740 square foot expansion to our existing distribution center. The capacity expansion project will allow for increased storage for nonperishable foods as well as a dedicated repack space for volunteers to sort and pack food boxes for our mobile program, fresh foods program and our partner agencies throughout our eleven county service area.	Syracuse NY	\$2,000
InterFaith Works of Central New York	The requested funds will be used to renovate a vacant and dilapidated Land Bank property in Syracuse and convert it into a welcoming home for refugees upon their arrival to the United States through the federal refugee resettlement program.	Syracuse NY	\$248
Home HeadQuarters, Inc.	Home HeadQuarters, Inc. (HHQ) will use the requested funds to capitalize its Lease-Purchase program, facilitating at least 20 new, first-time homebuyers who would be unlikely to achieve homeownership without the wrap around support services available through the program. HHQ will rehabilitate homes, eliminating health and safety hazards and improving all major building systems and then lease them to lower income households, providing them with homebuyer education and financial counseling while they lease the home and reserving a portion of their rent toward their down payment costs for when they are ready to purchase the home.	Syracuse NY	\$1,000
The Northeast UAS Airspace Integration Research AI	These funds will be used develop and implement Uncrewed Aerial Systems (UAS) market ready technologies to prevent service disruptions, derailment and track failures that will drastically enhance supply chain operations and reliability. Revolutionizing current practices related to wireless communication, safety, security and inspection for all critical phases of commercial railroad logistics, thereby safeguarding the negative economic impacts to the state that result from a breakdown of the transportation system.	Syracuse NY	\$1,000
Syracuse Regional Airport Authority	The need for a centralized communications center is one that is becoming elevated at the Syracuse Hancock International Airport (SYR). Currently the communications system utilized by airport security, law enforcement officers, maintenance and operations is disjointed, aging and not aligned with the National Incident Management Systems (NIMS). There is limited and fragmented functionality with both space and technology that does not allow cohesive interaction on emergent issues, creating delays in response times or unawareness of the situation. Structural improvements with space layout and wiring will provide the foundation for a fully capable Security and Operations facility and provide the ability to communicate effectively in daily operations, the event of a weather advisory, terrorist event, industrial accident, or other crisis. Upgrading to the most current technology will streamline and automate much of the process. Incorporating a backup generator will safe-guard the continuity of operation should a power outage occur. SYR is also in the process of establishing its own police force. Bringing this essential service	Syracuse NY	\$2,500

	in house creates a new set of infrastructure needs. Specific locker rooms for officers, equipment storage, weapons locker and evidence rooms are some of the requirements that must be incorporated. SYR will need to acquire uniforms, equipment, weapons and radios to support the daily duties. Implementing officer training programs and development of required policy and procedures to meet regulatory standards are activities that necessitate the expertise of external resources to complete prescribed programs and documents.		
Syracuse Regional Airport Authority	The Syracuse Hancock International Airport (SYR) is in the process of implementing a redesign of the access road design to address passenger and employee safety concerns, capacity constraints and incorporate public transportation from across the region to the Airport. The access capacity constraints and safety implications have reached a level that immediate actions must be taken to reconfigure the curb line traffic as soon as possible. Public safety and airport access are paramount to the SYR operations, and it's recognized that the current situation has reached critical mass.	Syracuse NY	\$2,750
Syracuse Regional Airport Authority	SYR concourse and utility infrastructure requires an upgrade to improve operational efficiency, reduce utility usage and ultimately Airline costs. SYR's terminal HVAC systems are over 35 years old, consisting of electrical baseboard heat and substandard air handling units all beyond their useful life. A significant improvement in efficiency from improved design performance is expected to reduce kWh consumption by 30-40%.	Syracuse NY	\$3,000
Syracuse Regional Airport Authority	SYR concourse and utility infrastructure requires an overhaul. Components such as windows and siding are deteriorated to a level where functionality is either impaired or non-existent, are well over 35 years old and beyond the expected useful life. Evidence of water penetration can be seen in 80% of the windows and various sections of the metal siding indicating that damage has started in the adjoining structural area. A replacement of windows and siding will improve energy efficiency, protect the building architecture from further damage and improve the internal atmosphere for passengers.	Syracuse NY	\$3,000
City of Syracuse	This would update lighting on Interstate 690 by replacing existing infrastructure, fixtures, poles and bases west of the City. The City of Syracuse which now owns and operates its streetlighting system is responsible for maintenance of interstate street lights within city-limits.	Syracuse NY	\$2,750
Center for Community Alternatives. Inc.	This economic development initiative will increase the capacity of Center for Community Alternatives to provide workforce training for persons with criminal justice involvement, including incarceration, to obtain CCA paid internships and well-paid jobs immediately thereafter in the hospitality or healthcare industries. Funds will pay for personnel in work readiness (Workforce Trainer, Career Services Specialist, Job Development Coordinator, Culinary Instructor); Reentry Advocate for reentry legal services for participants; Supervision; Data and Budget Analysts for analysis of performance metrics accounting and reporting; Fringe for all staff; Work Readiness Stipends equal to minimum wage for participants during their training; Document assistant/supports (RAP sheets), Program Supplies; Line Cook Space; Recruitment and Marketing, Travel for participants and staff, Training, Telecommunications, Office Space, Insurance, Office Supplies, and Indirect Costs (Federally negotiated Indirect Rate) for a total request of \$429,754.	Syracuse NY	\$429
Visiting Nurses Association of Central New York	VNA of CNY is proposing the adaptive reuse of The Beeches, located at 7900 Turin Road in the city of Rome, New York, into a mixed use, aging in place community that will incorporate mixed income supportive housing, commercial development, resident and community amenities, walking trails, a gym, greenspace, modern technology infrastructure, medical offices, a cafe and more, all using an aging in place design model.	Syracuse NY	\$2,600

YMCA of Central New York	The YMCA of Central New York has an opportunity to advance, evolve and/or reinvent its real estate platform for reach, growth, impact and service to Syracuse. The current Downtown YMCA site located at 340 Montgomery Street presently encompasses a combination of housing and wellness offerings to greater Syracuse-and specifically to the downtown community-and has served its members and constituents for decades. The appropriate location, site, and building platform for the YMCA in downtown Syracuse is now ripe for reimagination and, possibly, relocation.	Syracuse NY	\$5,000
Jewish Home of Central New York, Inc	Our goal is improving residential care and safety, the buildings and program space on our campus where low and moderate income seniors and individuals with developmental and cognitive disabilities reside and are served are in significant disrepair and have outdated, obsolete and inefficient fixtures and accommodations. The structures, built as early as 1935, 1940s, 1950s and 1970s are in dire need of renovation, and building equipment is in need of replacement. The housing sites serve as a safety net for many frail and indigent seniors, and are a community resource for many not-for-profit agencies. Maintaining affordable housing and housing with supportive services allow seniors to remain independent and age in their choice of place. In addition, we need to upgrade and enhance our technology capabilities. As new advances are made in modern technology, there are increasingly more opportunities to improve the lives of seniors. Technology impacts many aspects of health care operation and care delivery.	Syracuse NY	\$255
The Salvation Army Empire State Division	The Empire State Division is continually seeking ways to improve resources and implement our mission in creative, practical ways. The goal of reaching more people, bringing hope and improving the lives of those we serve requires adapting our existing model to a more direct and integrated approach. It is for this reason that we have established a Mobile Mission Center (MMC) out of The Salvation Army Massena location bringing the strength of The Salvation Army to rural communities that are distant from our Corps and Service Centers.	Syracuse NY	\$161
Tucker Missionary Baptist Church	These funds will be used to secure and develop the land around our church for housing and development due to the I-81 project in which our church will be directly affected.	Syracuse NY	\$1,000
Upstate Minority Economic Alliance	UMEA is seeking financial assistance for establishing a fully staffed mobile/physical small business center (e.g., site development, FF&E, staffing, and training curricula development) along with virtual portals centralizing business development and certification/bidding support resources, and a new equity-based capital fund. The center will be a hub for inclusive procurement activities occurring across the Central New York Region, predominantly offering specialized training and technical assistance designed to prepare minority contractors (i.e., certified M/WBEs and DBEs) for subcontracting opportunities associated with the proposed \$2.5B+ investment in I-81 redevelopment projects underway by NYSDOT, Onondaga County, and the City of Syracuse. The city and county are reviewing their budgets and seeking to match financial contributions made for establishing the one-stop-shop.	Syracuse NY	\$1,500
Central New Regional Transportation Authority	The Central New York Regional Transportation Authority (CNYRTA) intends to start a Bus Rapid Transit line on the James St. to Onondaga Community College route corridor, the Syracuse University to William F. Walsh Regional Transportation Center route corridor and improvements to the South Salina Street Route corridor.	Syracuse NY	\$3,000
CenterState Corporation for Economic Opportunity	The "Southeast Gateway" corridor of Syracuse has long been subjected to disinvestment, urban renewal, and concentrated poverty. However, in more recent years, it has been viewed as an opportune site for economic revitalization, based upon its proximity to the burgeoning Downtown and University Hill districts, and an imminent transformational project within the Interstate 81 corridor. These factors create a sense of urgency for initiating a comprehensive, community-driven, and equitable revitalization strategy. Since 2018, CenterState CEO and its community partners have advanced this vision, but one property, more than any others, presents an obstacle to true neighborhood revitalization: the historic "Sears Building", at 1300 South Salina	Syracuse NY	\$1,000

Street. Once heralded as "one of the most attractive mercantile buildings erected in Syracuse", the building now is effectively vacant and increasingly falling into disrepair. After years of failed efforts, the Allyn Family Foundation and CenterState CEO, in partnership with the City of Syracuse, have an opportunity to acquire the property. It is the shared goal of the project partners to restore the building to its original grandeur, while also creating significant economic opportunities for nearby residents. The partners will do this with extensive community engagement - and a commitment to creating neighborhood benefits. This effort will leverage previous investments in the Southeast Gateway Corridor, SUNY EOC, JMA Wireless, Blueprint15, and the STEAM high school. We are looking for support in helping to stabilize the building, specifically costs associated with environmental remediation and shoring up exterior masonry.

Onondaga County Department of Transportation	The Onondaga County Department of Transportation is seeking to complete the final segment of the Canalways Trail Salina Extension project (also know as the "Loop-the-Lake-Trail") around Onondaga Lake. The final, and most complex segment of this multi-use pedestrian and bicycle transportation trail, is on the southeast side of the lake from the City of Syracuse to the Village of Liverpool in the Town of Salina.	Syracuse NY	\$10,000
CenterState Corporation for Economic Opportunity	The Healthcare Workforce Innovations project is designed to build on the success of CenterState CEO's Work Train initiative to deliver lasting healthcare workforce solutions rooted in equity and inclusion. Funding will be used to build and deploy the following: a Healthcare Workforce Industry Partnership; retooling and scaling of the "Health Train" workforce model; developing and deploying frontline worker retention and learning strategies; collaboratively designing healthcare focused CTE programming to build a more robust and diverse K-12 healthcare workforce pipeline; and attracting healthcare job seekers through targeted marketing and relocation incentives.	Syracuse NY	\$950
City of Syracuse	This project will provide funds to address emergency unsafe housing conditions in occupied rental properties. It will also support substantial blight remediation and/or removal of structures in order to make those sites ready for redevelopment to support Mayor Walsh's Resurgent Neighborhoods Initiative.	Syracuse NY	\$1,000
City of Syracuse	This project will fund the construction of affordable single and two-family homes in the City of Syracuse. It is part of Mayor Walsh's expansive Resurgent Neighborhood Initiative to build 200 units of new housing at scattered sites throughout the city.	Syracuse NY	\$1,000
Discovery Center of Science and Technology, DBA MO	An exhibit for visitors to explore the concept and practice of sustainable agriculture through interactive displays. Funds will be used for physical upgrades (deinstallation of existing exhibit, installation of lighting, flooring, ancillary signage, barriers), interactive Components (a combination of components purchased through vendors or, for smaller pieces, fabricated in-house), development & Production of Content (text and image panels, digital media, curriculum guides), and marketing & Promotion (exhibit opening, school coordination, community involvement).	Syracuse NY	\$400
Syracuse Housing Authority	The City of Syracuse, the Syracuse Housing Authority, and several local partners have embarked on the transformation of the New 15th Ward/East Adams Neighborhood, in alignment with the planned deconstruction of Interstate 81. The project will deliver more than 1500 units of mixed-income housing and high quality neighborhood amenities; this request is to defray costs associated with relocating our residents, demolishing our aging and distressed public housing, and environmental remediation at the development sites.	Syracuse NY	\$15,887
The Friends of The Mozartina/Tarrytown Music Hall	The Music Hall's current air conditioning system was designed in the 1930s as the theater was converted into a movie house. Since the stage are was not to be used, some of the (very noisy) equipment was placed in the wings, which creates multiple problems for the current use as a performing arts center	Tarrytown NY	\$750

Scenic Hudson, Inc.	The "Route 9-Westchester RiverWalk Transit Connector" ("Transit Connector") is planned as an ADA-compliant facility that will enable pedestrian and bicycle access between Route 9 neighborhoods and businesses and Tarrytown Station. Tarrytown Station is a multi-modal transportation hub with Hudson Line commuter rail service to Manhattan, Westchester, Putnam, and Dutchess Counties, as well as Bee Line Bus service throughout Westchester County, and Lower Hudson Transit Link, which provides bus service between Rockland County, Tarrytown and White Plains. The project is a public private partnership involving Westchester County, the Village of Tarrytown, and Scenic Hudson and is supported by an array of business, environmental, trail, bicycle, historic preservation groups as well as municipalities, elected officials and prominent individuals.	Tarrytown NY	\$2,797
Village of Trumansburg	The Fire and EMS facility is critical for the region. There is no readily available replacement coverage for these two departments in the region. During the times of COVID and a shrinking industry, many small, EMS and fire stations did not survive and more stations have had to expand their reach and capacity to cover those areas without the emergency personnel. The Village of Trumansburg's EMS and Fire Station is now servicing the Town of Ulysses, Town of Covert, and the Town of Hector in addition for the Village's residents and businesses. . Community paramedicine services can help their communities by reducing the burden on other providers, by treating patients in their homes or other locations outside the health centers, community paramedics reduce the number of patients in hospital beds, nursing homes, or emergency rooms, and reducing unnecessary transports. During the time of COVID, this kind of care was even more critical as there was a need to keep the ERs for severe COVID patients and hospitals were running out of rooms and beds for all who needed them. The existing EMS station is not adequate for all of the staff and shared space as is. The Village did look into repurposing the existing facility, but no matter the changes within the same space, it was ultimately not a long-term viable solution for the Village. The Fire department will also use this space and it also continues to grow in coverage area. Please see our additional information.	Trumansburg NY	\$3,000
Village of Tupper Lake	Tupper Lake will prepare for completion of the Adirondack Rail Trail by improving sidewalk and trail connections from the trailhead/train station area to businesses and amenities. Tupper Lake will be the junction of the Adirondack Rail trail's southern section, a 56-mile rail connection to Old Forge, and the northern section, a 34-mile multi-use solid surface four-season trail connecting to Lake Placid. This proposed streetscape enhancement project will leverage and add value to New York State's investment of over \$44 million in the Adirondack Rail Trail and the ongoing private sector investment in Tupper Lake's Junction Depot downtown area, site of the trailhead and train station.	Tupper Lake NY	\$1,910
City of Utica	The City of Utica, in partnership with the Community Foundation of Herkimer & Oneida Counties and the Utica Municipal Housing Authority (d/b/a People First), is requesting \$6 million to construct a dual site redevelopment project in the City's Cornhill neighborhood that will provide nearly 100 units of affordable, mixed income housing combined with entrepreneurial/workforce development and a new model of public service delivery. The project incorporates a City-owned site on James Street that will be donated to the project and a site on West Street that is owned by a Utica-based not-for-profit who will have an interest in the project once completed.	Utica NY	\$6,000
Integrated Community Alternatives Network	The funds in this request will be used for the completion of the ICAN Family Resource Center in Central New York, combining educational play and learning with mental and behavioral health services in on community building. The Family Resource project has begun and is looking for funding for the last phase of the project to help finish and capitalize on the location for the all new Children's Museum.	Utica NY	\$5,430

Midtown Utica Community Center	The Midtown Utica Community Center (MUCC) is requesting funding for the construction, rehabilitation, and improvement of a critical public facility in the city of Utica, New York that provides services to refugees and immigrants in the community. The building, formerly a church built in 1917, is in dire and urgent need of capital improvements to prevent the building from becoming blighted; MUCC has limited financial and resource capacity to complete a major renovation. The building has not been updated since its inception, although it has undergone minor repairs that included fixing the roof and porch. With a federal investment, MUCC will be able to make enhancements to the building that improve the health and welfare of the community, while addressing the needs of a low-income, diverse population.	Utica NY	\$500
The Arc, Oneida-Lewis Chapter	Funding will completely revamp the parking lot behind the historic building at 245 Genesee Street, Utica, which houses administrative offices of the Arc Oneida Lewis, 2 day habilitation programs, and 1 vocational training center-all centered around creating more fulfilling lives for people with intellectual and/or developmental disabilities. The parking lot must be overhauled so that all individuals can safely enter and exit the building, and so that flooding issues due to a poorly designed and dilapidated parking lot will be halted, such that moisture in the lower levels of the building can be eliminated.	Utica NY	\$500
Incorporated Village of Valley Stream	Project funds will be used for the construction of a multi-story parking garage at the Valley Stream LIRR train station. Consolidating parking into a safe, attractive, and covered parking structure will allow for economic development and revitalization around the train station - the west anchor of our downtown.	Valley Stream NY	\$12,800
Town of Franklin	The proposed project will extend broadband service in the Town of Franklin, New York - a high-cost, last-mile area that would face challenges receiving private investment in the absence of public support.	Vermontville NY	\$1,100
VEQUES COMMUNITY NGO COALITION	ViequesLove is focused on improving the resilience, preparedness, and sustainability of Vieques by coordinating disaster relief between the government and NGO's and helping local organizations build capacity; and to repurpose its contact tracing team to become a wide-ranging health support system. To accomplish this, ViequesLove proposes a multi-pronged approach to build a comprehensive NGO, faith-based, and small business support funding system so that these institutions become more self-sufficient and sustainable while adding to the health care support that meets the island's needs.	Vieques PR	\$1,000
Fort Drum Regional Liaison Organization, DBA Advoc	Requested funds will support Advocate Drum's work to advance community-military partnerships that promote the value of Fort Drum and strengthen our local communities and New York State through collaborative relationships and sustainable regional planning; cultivate private sector resources to support military infrastructure, energy security, and conservation; support Fort Drum communities as they address proposed changes in military missions and their potential impact on local and regional economics & culture; help communities create great places for our Service Members, their Families and Veterans to live, work and play. Advocate Drum is requesting \$150,000 for the salary for an Executive Director and \$100,000 in funding to maintain general operations.	Watertown NY	\$250
Watertown Family YMCA	Renovation and new construction to convert a vacant environmental remediation site in the center of Watertown's downtown into a purposefully designed space that will ensure a viable, sustainable community center able to serve the growing demands and needs of the most vulnerable children, families, and seniors in our community. The funds will bridge the final gap to ensure completion of the 89,000 square foot YMCA Community and Aquatics Center in a severely distressed census tract with a poverty rate greater than 24.6% surrounded by low-to moderate income housing, transforming the downtown and significantly improving the lives of the population.	Watertown NY	\$2,500

Westchester County	This project funds the replacement of the three diesel/methane dual fuel engines with natural gas/anaerobic digester gas dual fuel engines and all their auxiliary systems and appurtenances, installation of a new natural gas service from Con Edison, and upgrading of the blowers to turbo blowers. The new engines will provide on-site co-generation of electricity to power the new turbo blowers and provide additional back-up electrical power	Westchester County NY	\$4,000
Suffolk County Francis S. Gabreski Airport	Project is for construction funds to build a new air traffic control tower at Francis S. Gabreski Airport.	Westhampton Beach NY	\$12,908
Town of Whitestown	In September 2020, the Town of Whitestown secured at least \$20 million from the United States Department of Agriculture (USDA) Natural Resources Conservation Service (NRCS) Floodplain Easement Program for the buy-out of eligible residential properties in the Village of Whitesboro, located in Whitestown, ravaged by the 2019 Halloween Storm/Flood ("project area"). The buy-out of an approved property owner is achieved by NRCS purchasing a floodplain easement and the structures (house) within the easement area with Whitestown, as project sponsor, purchasing the remaining fee title (land). The value of the property is based on the appraised fair market value as of the day before the 2019 Halloween Storm/Flood. At the end of the process, Whitestown becomes the property owner, subject to a floodplain easement held by the United States under NRCS oversight. The land within the floodplain easement must remain forever "green" in accordance with NRCS regulations. Please see attached information for more details.	Whitestown NY	\$1,190
Town of Amherst	Maple Road is part of the National Highway System and is one of the Erie County's and the Town's major east/west connectors. The redesign of Maple Road using Complete Street principles will upgrade existing roadway infrastructure and enhance key intersections to increase efficiency and functionality for all users. The project will also reduce safety issues by improving accessibility for pedestrians, bicyclists, and public transit riders while also better directing automobile traffic.	Williamsville NY	\$800
NY Ski Educational Foundation (NYSEF)	NYSEF will construct a new building complex at 132 Old Military Road in Lake Placid which will provide state-of-the-art amenities, and will also serve as the organization's headquarters. The proposed facility will expand on current sport related facilities in the area to youth/development groups to work on unique strength/conditioning, and provide academic/conferences space at an affordable rate - allowing programs to happen more frequently - opening up Lake Placid to a large range of groups while adding another recreational 'hub' in the Adirondacks.	Wilmington NY	\$1,600
Neighborhood Housing Services of Queens	Neighborhood Housing Services of Queens (NHSQ) seeks funding for the acquisition of a property in East Elmhurst as a permanent home for the organization. NHSQ will lose its current offices in 2024. By acquiring this property, NHSQ will be able to continue to serve more than 3000 individuals and families providing first-time homebuyers services, foreclosure prevention, repair services, housing education, financial planning, and digital skilling.	Woodside NY	\$2,000
The Fireboat McKean Preservation Project, Inc	The funds will be used to repair the retired FDNY McKean Fireboat's hull and replace all the original electrical, mechanical and electronic parts that were installed on the McKean Fireboat when it was built in 1954. Funds will also be allocated to change all the fireboat's outdated windows, doors and paint and stain where needed to the exterior and interior areas of the Fireboat.	Yorktown Heights NY	\$1,700
Village of Lynbrook	The proposed Project provides for the resurfacing of 3 municipal grade level parking fields, and purchase of landlocked real property adjacent to one of the municipal parking field to create additional parking. The existing parking fields, located on Carpenter Ave, Langdon Place, and Earle Ave/St James Place are improved with asphalt which have showed signs of severe damage and require resurfacing. Landlocked real property on St James Place, used as a nonconforming boarding house, abuts the existing municipal field and would be used to expand such field and eliminate blight.	lynbrook NY	\$2,500
